Collected Papers James Meade Routledge First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

The Collected Papers of James Meade First published by Unwin Hyman 1988-1990. James Meade wrote and published on theoretical and applied problems in most fields of economics. He was always as concerned with problems of economics policy as with purely theoretical issues, and was one of the early British economists to serve in government. Volume I: (0415-35050-6) Contains his most important work on theoretical and applied aspects of employment and inflation from 1933-1985. Contributions range from pre-war papers on Keynesian economics to his proposals for tackling 'stagflation' in the 1970s and 1980s. Volume II: (0415-35051-4) Draws together Meade's work on Price Theory and Policy; Distribution; and Growth and Development. Volume III: (0415-35052-2) Covers papers on international economics, the field in which Meade received his Nobel Prize in 1977. This includes his important 1942 proposal for a post-war 'Commercial Union', which led ultimately to the Agreement on Tariffs and Trade in 1947, along with essays on the improvement of the world economic order from the 1930s to 1990. Volume IV: (0415-35053-0) Reprints the diary of Meade's involvement in the Economic Section of the Cabinet Office from November 1944 to October 1946. This work gives a fascinating and accessible insight into the workings of government during this crucial period in British economic history. **Canadiana Forthcoming Books Collected Papers James Meade** Routledge First Published in 2004. Trade List Annual British Book News Never Again Britain, 1945-1951 Pantheon *An authoritative history of Great Britain in the crucial period following World War II describes Britain's move from empire to welfare state, the development of the National Health Service, and other key changes of the era.*

The Collected Papers of James Meade: The cabinet office diary of James Meade, 1944-1946 Books in Print **Journal of Economic Literature** **The Collected Papers of James Meade: Value, distribution and growth** Routledge **Religion and the New Republic Faith in the Founding of America** Rowman & Littlefield Publishers *A collection of the country's most respected historians, philosophers, and theologians examines the role of religion in the founding of the United States. This collection of never before published essays, originally delivered at the Library of Congress, presents the most original and recent scholarship on a topic that still generates considerable controversy. Anyone interested in colonial history, religion and politics, and the relationship between church and state will benefit by reading this important new book.*

Text & Presentation, 2019 McFarland *This volume is the sixteenth in a series dedicated to presenting the latest findings in the fields of comparative drama, performance, and dramatic textual analysis. Featuring some of the best work from the 2019 Comparative Drama Conference in Orlando, this book engages audiences with new research on contemporary and classic drama, performance studies, scenic design and adaptation theory in nine scholarly essays, two event transcripts and six book reviews. This year's highlights include an interview with playwright Branden Jacobs-Jenkins and a roundtable discussion on the sixtieth anniversary of Lorraine Hansberry's A Raisin in the Sun.*

How Lives Change Palanpur, India, and Development Economics Oxford University Press *Development economics is about understanding how and why lives change. How Lives Change: Palanpur, India, and Development Economics studies a single village in a crucially important country to illuminate the drivers of these changes, why some people do better or worse than others, and what influences mobility and inequality. How Lives Change draws on seven decades of detailed data collection by a team of dedicated development economists to describe the evolution of Palanpur's economy, its society, and its politics. The emerging story of integration of the village economy with the outside world is placed against the backdrop of a rapidly transforming India and, in turn, helps to understand the transformation. It puts development economics into practice to assess its performance and potential in a unique and powerful way to show how the development of one village since India's independence can be set in the context of the entire country's story. How Lives Change sets out the role of, and scope for, public policy in shaping the lives of individuals. It describes how changes in Palanpur's economy since the late 1950s were initially driven by the advance of agriculture through land reforms, the expansion of irrigation and the introduction of "green revolution" technologies. Since the mid-1980s, newly emerging off-farm opportunities in nearby towns and outside agriculture became the key driver of growth and change, profoundly influencing poverty, income mobility, and inequality in Palanpur. Village institutions are shown to have evolved in subtle but clear ways over time, both shaping and being shaped by economic change. Individual entrepreneurship and initiative is found to play a critical role in driving and responding to the forces of change; and yet, against a backdrop of real economic growth and structural transformation, this book*

shows that human development outcomes have shown only weak progress and remain stubbornly resistant to change. **American Book Publishing Record BPR annual cumulative Book Review Index 1989 Cumulation** Gale / Cengage Learning The Index provides a broad coverage and access to book reviews in the general social sciences, humanities, sciences, and fine arts, as well as general interest magazines and includes journals from Great Britain, Canada, Switzerland, Israel and Australia. In addition, it indexes several journals that, while published in the US, concentrate on reviewing foreign published or foreign language books. These include *Hispania*, *French Review*, *German Quarterly* and *World Literature Today*. **Library of Congress Catalogs Subject catalog Subject Catalog Public Health Reports The Authorised History of British Defence Economic Intelligence A Cold War in Whitehall, 1929-90** Routledge This book is the first history of UK economic intelligence and offers a new perspective on the evolution of Britain's national intelligence machinery and how it worked during the Cold War. British economic intelligence has a longer pedigree than the Joint Intelligence Committee (JIC) and was the vanguard of intelligence coordination in Whitehall, yet it remains a missing field in intelligence studies. This book is the first history of this core government capability and shows how central it was to the post-war evolution of Whitehall's national intelligence machinery. It places special emphasis on the Joint Intelligence Bureau and Defence Intelligence Staff - two vital organisations in the Ministry of Defence underpinning the whole Whitehall intelligence edifice, but almost totally ignored by historians. Intelligence in Whitehall was not conducted in a parallel universe. This contrasts with the conventional wisdom which accepts the uniqueness of intelligence as a government activity and is symbolised by the historical profile of the JIC. The study draws on the official archives to show that the mantra of the existence of a semi-autonomous UK intelligence community cannot be sustained against the historical evidence of government departments using the machinery of government to advance their traditional priorities. Rivalries within and between agencies and departments, and their determination to resist any central encroachment on their authority, emasculated a truly professional multi-skilled capability in Whitehall at the very moment when it was needed to address emerging global economic issues. This book will be of much interest to students of British government and politics, intelligence studies, defence studies, security studies and international relations in general. **Bowker's Law Books and Serials in Print The Academy and Literature** The Poetical gazette; the official organ of the Poetry society and a review of poetical affairs, nos. 4-7 issued as supplements to the Academy, v. 79, Oct. 15, Nov. 5, Dec. 3 and 31, 1910 **Money in a Free Society Keynes, Friedman, and the New Crisis in Capitalism** Encounter Books Congdon argues that academic economists and policy-makers have betrayed the intellectual legacy of both Keynes and Friedman. These two great economists believed in somewhat different ways in the need for steady growth in the quantity of money. But Keynes has been misunderstood as advocating big rises in public spending and large budget deficits as the only way to defeat recession. That has led under President Obama to an unsustainable explosion in American public debt. Meanwhile the Fed has ignored extreme volatility in the rate of money growth, contrary to the central message of Friedman's analytical work. **National Union Catalog A Cumulative Author List Representing Library of Congress Printed**

Cards and Titles Reported by Other American Libraries □□□□□□□□ **Alexander òFighting Elleckó Hays The Life of a Civil War General, From West Point to the Wilderness** McFarland *Although he never achieved the renown of Ulysses S. Grant or Robert E. Lee, General Alexander Hays was one of the great military men of the Civil War. Born July 8, 1819, in Franklin, Pennsylvania, Hays graduated from West Point and served with distinction during the Mexican War. When the Civil War began a few years later, it was no surprise that Hays immediately volunteered and was given the initial rank of colonel with a later meritorious promotion to general. Hays was also known for his concern for his men, a fact that no doubt contributed to the acclaim which he received after his death on May 5, 1864, at the age of 44. From West Point to the Civil War, this biography takes a look at Hays's life, concentrating—with good cause—on his military career. Personal correspondence and contemporary sources are used to complete the picture of a complex man, devoted husband and father, and gifted and dedicated soldier.* **“The” Academy A Monthly Record of Literature, Learning, Science, and Art Handbooks and Tables in Science and Technology** Greenwood Publishing Group *Provides a bibliography of more than three thousand handbooks in various aspects of science and technology, from abrasives and band structures to yield strength and zero defects* **Guide to Reprints Author, title Glory Was Not Their Companion The Twenty-Sixth New York Volunteer Infantry in the Civil War** McFarland *Recruited primarily from the gentle farmlands of central New York, the men of the Twenty-Sixth New York Volunteer Infantry were among the first to answer their nation's call during the Civil War. Death soon wrapped its cold arms around the regiment, whose losses were great. More often than not the Twenty-Sixth was placed in difficult or impossible tactical situations, which resulted in their being forced to leave the field in disorder. They did their best. This work covers the regiment's entire two-year term of enlistment from May 1861 to May 1863. It draws upon numerous unpublished letters and diaries from the collections of individuals, private libraries and public institutions, as well as contemporary newspapers and obscure government documents. Appendices cover the order of command within campaigns and post assignments. Also included is a regimental roster listing the 1,182 men who served in the Twenty-Sixth.* **Canadian Books in Print Subject index** **The Academy and Literature Collected Works of James Wilson** *This two-volume set brings together a collection of writings and speeches by James Wilson, one of only six signers of both the Declaration of Independence and the United States Constitution. His works had a significant impact on the deliberations that produced the cornerstone documents of American democracy.* **The Literary World Choice Readings from the Best New Books, with Critical Revisions Elihu Root Collection of United States Documents Relating to the Philippine Islands**
