KEY=OCTOBER - HOOD KNOX

The Date of the Maha Bharata War and the Kali Yugadhi [Alpha Edition](#) This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature. The 27 Celestial Portals The Real Secret Behind the 12 Star-Signs Revealed [Lotus Press \(WI\)](#) It is common knowledge that the 12 star-signs map the sky and set the stage for the drama of life. This book expands this awareness manifold by revealing that it is the 27 constellations, and not the 12 signs, which truly map the ecliptic and provide the celestial backdrop for affairs on earth. Instead of taking away from the widely recognized meanings and significations of the 12 signs, they enrich them with a whole new depth of perspective and interpretation. Lal Kitab [Pustak Mahal](#) The Lal Kitab, a rare book in urdu, was popular in north-west India, Pakistan, Iran and many other countries. This English version has added new dimensions to make it more lucid and easier to understand. The Power of Stars [Springer](#) Completely revised and updated, this new edition provides a readable, beautifully illustrated journey through world cultures and the vibrant array of sky mythology, creation stories, models of the universe, temples and skyscrapers that each culture has created to celebrate and respond to the power of the night sky. Sections on the archaeoastronomy of South Asia and South East Asia have been expanded, with original photography and new research on temple alignments in Southern India, and new material describing the astronomical practices of Indonesia, Malaysia and other Southeast Asian countries. Beautiful photographs of temples in India and Asia have been added, as well as new diagrams explaining the alignment of these structures and the astronomical underpinnings of temples within the Pallava and Chola cultures. From new fieldwork in the Four Corners region of North America, Dr. Penprase has included accounts of Pueblo skywatching and photographs of ceremonial kivas that help elucidate the rich astronomical knowledge of the Pueblo people. The popular "Archaeoastronomy of Skyscrapers" section of the book has been updated as well, with new interpretations of skyscrapers in Indonesia, Taiwan and China. With the rapid pace of discovery in astronomy and astrophysics, entirely new perspectives are emerging about dark matter, inflation and the future of the universe. The Power of Stars puts these discoveries in context and describes how they fit into the modern perspective of cosmology, which has arisen from the universal human response to the sky that has inspired both ancient and modern cultures. Uttarakalamrita When Did the Mahabharata War Happen? [Nilesh Oak](#) In a drastic re-evaluation of astronomy observations from Mahabharata, using high-tech tool of modern astronomy and low-tech tool of the logic of scientific discovery, Nilesh Oak's extraordinary book presents ordinary theory of astronomy observations that would lead to a quantum jump in our understanding of the Mahabharata War: How a theory based on single unifying idea corroborates 100+ astronomy observations Where to search for the year of the Mahabharata War - Epoch of 6500 years & Compact time interval of 3000 years How a single observation, previously known but unexplained, falsifies 96% of all proposals for the year of the Mahabharata War Why does it matter how long Bhishma was lying on the bed of arrows How ancient is the tradition of meticulous astronomy observations. Acceptance of his theory leads to surprising conclusions about our current understanding of world civilizations, domestication of horses, dating of Ramayana or Vedas and antiquity of meticulous astronomy observations. Rejection of his theory would compel us to search for the likes of Newton and Lagrange, among the Sages of India, at least thousand years before Sir Isaac Newton & Joseph-Louis Lagrange. Praise for 'When did the Mahabharata War Happen?: The Mystery of Arundhati' "You have done a great job. I requested astronomers to consider if Arundhati had gone ahead of Vasisth in 1971, when I published 'Swayambhu' . But nobody cared. You are the first to do the great job " - P V Vartak (Author of 'Swayambhu' & 'Wastav Ramayana')--- "Grueling and unfaltering logic"--- I have to thank you for being the cause for a quantum leap in my own knowledge of general astronomy as well as Hindu astronomy / calendrical systems over a very short span of time. In some ways the effect of your book has some parallels with Rajiv Malhotra's 'Being Different', though in a very different context. RM never intended his book as a primer on Dharma / Hinduism - but nevertheless it introduced many aspects of Dharma in a light which would be new even to a practitioner. Similarly, even though I am sure you never intended your book to act as an exploration of key astronomical

principles and Vedic astronomy - that has definitely been a key side benefit, at least from my perspective.--- "Indology" has been populated by linguists and my respect for their work has gone down by several notches when I look at the shoddy assumptions many are prone to make. Science and rigor the way Nilesh Oak has used seems to be unknown to these Indologists. I bet that not one of those horse bone chewers can understand what Archeo-astronomy means. Their awareness extends to looking at Archeo-asses and saying it was not *Equus caballus*.--- I am simply 'natmastak' to Shri Oak for the amazing piece of deductive reasoning applied by him in interpreting the 'Arundhati is leading Vasistha' remark. I think Shri Oak is not only on sound footing but also has clearly exhibited every 'lakshan' of a true seeker of knowledge in the finest Indian traditions. I cannot recall if he mentioned whether anybody else (other than him) thought of the EOA approach. If he is the first one, he deserves billions of thanks from all the Bharatiyas in the last 7000+ years. Oak saheb, aamcha maanacha mujra sweekar karava hee vinanti.--- It is interesting how all Indologists the world over talk about linguistics and horse, but never mentions archaeoastronomy. Perhaps the focus of the national and international debate on Aryan Invasion/Migration Theory needs to change.--- I do not want to sound obsequious, but the work you have done is nothing less than tremendous. Thank you, and keep it up.--- I have verified Nilesh Oak's elimination of "errors." A bow Excellent --- Your rigorous methodology was simply a pleasure to read and that got me started off on my efforts to dabble in archaeoastronomy.

Infant and Child Mortality in the Past [Oxford University Press](#) This volume examines the trends of early-age mortality across time and space and the methodological and theoretical problems inherent in such studies. The approach is interdisciplinary, with contributions from demography, biology, medicine, and economic and social history. The geographical range encompasses Europe, North America, Japan, and India. It makes clear the need for cautious treatment of historical data and points towards the design of techniques for appraising their quality, correcting distortions, and filling gaps.

The Bṛihajjâtakam of Varâha Mihira Nakshatras The Stars Beyond the Zodiac [The Wessex Astrologer](#) Komilla Sutton is a co-founder of the British Association for Vedic Astrology. She is renowned as both a practitioner and teacher of the science with students and clients all over the world. Readers of her previous books (The Essentials of Vedic Astrology, The Lunar Nodes and Personal Panchanga) have long been asking for a book on the nakshatras, the lunar mansions - so here it is.

The Growth and Development of Astronomy and Astrophysics in India and the Asia-Pacific Region [ICOA-9, Pune, India, 15-18 November 2016 Springer](#) This book discusses the study of astronomy in different cultures, applied historical astronomy and history of multi-wavelength astronomy, and the genesis of recent research. It contains peer-reviewed papers gathered from the International Conference on Oriental Astronomy 9 (ICOA-9) held at the Indian Institute of Science Education and Research Pune, India. It covers the areas like megalithic and other prehistoric astronomy, astronomical records in ancient texts, astronomical myths and architecture, astronomical themes in numismatics and rock art, ancient astronomers and their instruments, star maps and star catalogues, historical records and observations of astronomical events, calendars, calendrical science and chronology, the relation between astronomy and mathematics, and maritime astronomy. This book will be a valuable complement to a future generation of students and researchers who develop an interest in the field of Asian and circum-Pacific history of astronomy.

Brihat Parasara hora sastra of Maharshi Parasara Classical work on Hindu astrology. **The Historic Rama Indian Civilization at the End of Pleistocene** [Createspace Independent Pub](#) From the author of 'When did the Mahabharata War happen? The Mystery of Arundhati'. Employing tools of Archeo-astronomy and the logic of scientific discovery, coupled with fantastic intuition, Nilesh Oak tests, with scientific precision, observations from the oldest epic of humanity - Valmiki Ramayana. He takes us on an exciting tour from the present, into remote antiquity of human civilization. Here is the book for everyone who is interested in antiquity of civilizations, Ramayana, ancient Indian history and Archeo-astronomy

Praise for 'The Historic Rama' It was a fascinating ride. The pictures helped enormously. It is funny, logical, unapologetic, interesting, thought-

provoking and most importantly, it requires a higher amount of reader participation. This is not a book for reading before bed or in a leisurely mood. This book is best read with a pen and a paper nearby. --- Congratulations for an amazing, meticulous and painstaking work. I salute your devotion and hard work. I have no knowledge or appreciation of arguments connected with astronomy. I had read Pushkar Bhatnagar's book and also heard his lecture. Your book has prompted me to read books by Vartak, Yardi and others. I had found Bhatnagar's dates very attractive because they tally with the anthropological history of India. A date of 12000 BCE will need pushing back the history of agriculture in India to almost 5000 years earlier than its documented evidence. However, who knows, some new discoveries are waiting to be made as has happened in case of the use of iron. --- As I was reading, I got transported to Rama's time and went through the journey. I liked your set of questions that the dating of Ramayana does to the world history. Overall I am impressed and this will do a lot to revive interest in Ramayana and lend credence to the epic just as the discovery of Troy did to Homer's Iliad. --- The book is excellent. I also enjoyed the last appendix on the 'origins of weekday names and division'. It seemed like a relief when I reached the appendix, but ended up re-reading it in order to fully comprehend the gist of it. -- - Thank you so much for the work you have done to unearth the timelines of Ramayana. Reading the book gives me Goosebumps. I never had such an experience before. Hindus were blamed for not keeping track of time. Your research disproves it totally, clearly showing how the use of motion of celestial bodies serves as the ultimate timekeeper. --- I love the quotations you give at the beginning of every chapter which sets the tone of that chapter. --- It is a great piece of work! Some parts I enjoyed more than others, particularly, the re-appearance of Brahma-Rashi. If it truly refers to star Abhijit (Vega), then description of it 'shining brightly' is clearly explained. An excellent observation indeed! --- It was an incredible experience to read your wonderful book. I did not realize that our tradition and history went so far back! Thanks again for this wonderful book. I am looking forward to reading your next book. --- I had a wonderful evening today explaining to my family how the 24 hour day, the 7 day week, the names of the weekdays, the sequence of weekday names, are all based on a system founded on logic of astronomy observations. And the week had an Out-of-India migration just like the Zero! So next time some AIT-Nazi talks you down, ask him what weekday it is! Nilesch ji, a big thank you to you, Sudarshan Bharadwaj and Shri Suhas Gurjar. --- BHARAT is REBORN, as its most famous son, Lord Rama, has finally found a throne on world's timeline! And it is an open challenge from Nilesch Nilkanth Oak to the world to try and dethrone Lord Rama from that throne if they think they are intellectually up to the task. --- The book is gripping, fascinating and hard to put it down. Bṛhat Nakṣatra Starts with the nakshatra systems under the first part. Untold Vaastu Shastra Building Blocks of Prosperous and Joyful Home [Gaurish Borkar](#) Bhṛgu Nandī Nārī A classical work based on nārī technique of prediction. The Divine Forces of the Lunar Naksatras As Originally Portrayed in the Vedas [CreateSpace](#) In The Divine Forces of the Lunar Naksatras, the ancient Vedic portrayal of the twenty-seven nakshatra rulers are revealed. Included are their characterizations, mystical powers, sacrificial roles, myths and legends. The translation of several critical Sanskrit texts never before available to the Jyotisa community are presented. Testimonial: "The Divine Forces of the Lunar Nakshatras is a great resource for any Vedic astrologer who is truly interested in understanding the mythology behind the Nakshatras. It is a scholarly work that deserves a place on every Jyotishi's bookshelf!" James Kelleher "This book is an extraordinary labor of love birthed after a decade-long gestation period. I have not encountered any other work on nakshatras deities that has been so thoroughly researched and has woven together the Vedic and Puranic references into a coherent thesis. The attention to detail is astounding as is the dedication to faithful transliteration of the Sanskrit and the care given to cite the original sources. It is a serious work that will greatly facilitate further research and inquiry on the part of lovers of the Vedic tradition." Penny Farrow Conservation and Utilization of Horticultural Genetic Resources [Springer](#) The conservation of crop genetic resources is one of the important elements in efforts to sustainably increase agricultural production in low-income countries, and to guarantee long-term food security, especially for the low-income population groups in these countries. Horticultural crops, as high-value crops, have an important role to play in revitalizing rural economies and can add significantly to national economies. Moreover, horticulture provides more than twice the number of jobs compared to traditional cereal crop production, and the shifting of conventional agriculture towards high-value horticulture has increased employment opportunities in developing countries. To exploit this potential, researchers need a vast array of horticultural genetic resources and information on new traits. Horticultural crops, which are only a part of PGRFA (Plant Genetic Resources for Food and Agriculture), are characterized by a wide and varied range of species. In fact, there are five major horticultural crop groups: fruit and nut crops, vegetables, food legumes, roots and tubers, and lastly the ornamental and medicinal group. In this context, the present book provides a comprehensive overview of the current state of conservation and utilization of horticultural genetic resources, addressing contemporary approaches to conservation in connection with different technologies, including biotechnological approaches as practised in India and in some cases, globally. It includes a brief chapter on the unique nature of horticultural genetic resources, providing a rationale for viewing them as being distinct from field crop genetic resources. Subsequent chapters share insights on protocols for the conservation of selected horticultural crops ex situ, and focus on the increased need to complement these efforts with in situ conservation approaches. Geospatial tools are also briefly described, emphasizing their utility with regard to mapping and managing resources. The book also explores the wild gene pool in horticulture crops; discusses legal aspects related to horticultural genetic resources and biotechnological aspects; and describes the key aspects of sustainable management and replenishment. Given its scope, the book offers a valuable resource for all horticulturists, graduate students, researchers, policymakers, conservationists, and NGOs engaged in horticulture in particular and biodiversity in general. Predict With Navamsha [Sagar Publications](#) Comprehensive Prediction By Divisional Charts - an original research work. About the Author: Shri Vinod Prakash Goel is a former officer of the Indian Engineering and has served

with the Ministry of Defence, India. He has held managerial positions with private companies in India and abroad setting up an engineering manufacturing and contracting firm. Presently he is consultant to the Defence Research and Development Organisation. Shri Goel has an M. Tech. degree from IIT Kharagpur and B. Sc Mechanical Engineering (Honours) degree from Benaras Hindu University. In the years 1999 and 2000, he was awarded Gold Medals for Jyolish and Jyotish Acharya at the Institute of Astrology, Bhartiya Vidya Bhavan. Delhi. He is now on the faculty of the Institute. He is a published author of four books on Astrology prior to this presentation. About the Book: Three distinguishing features of Hindu Astrology are divisional charts, dasha systems and yogas. This book deals with divisional charts. We all know the concept of divisional charts after we go through the Brihat Parashar Hora Shastra. It is for the first time that the practical application of these are given. The book deals with all Parashari and non Parashari divisional charts and brings out their predictive value and the technique. The high lights of the book are: 1 . Rules for examination of each divisional chart. 2. House significations of divisional charts. 3. Linking of divisional charts. I hope that this book will be helpful to all students and scholars of Astrology in sharpening their predictive accuracy. Nakshastras The Lunar Mansions of Vedic Astrology [Motilal Banarsidass Publ.](#) The Book by Dr. Dennis Harness provides an excellent practical presentation to this important astrological system. Clarity of style, masterly exposition of abstruse astrological tenets, and insight into human problems in wider cosmic perspective are outstanding attributes of the book BEPIN BEHARI, an alumnus of Patna and London Universities, has retired from the Indian Economic Service of the Government of India. He comes from a family where every member is nurtured in an astrological atmosphere. The Swiss Myer Foundation awarded its premier international prize from Bepin Behari s work A study in Astrological Occultism, which soon became very popular among European astrologers. He writes on esoteric astrology which goes to the root of inner man and shows how planetary impulses besides giving an indication of the purpose of very life reveal the divinity in man. Bepin Behari is an internationally recognized Hindu astrologer trying to revive ancient spiritual eminence of vedic astrology. He was invited by American Council of Astrology to be guest of honour at the fifth Internation Seminar at San Diego; Washington State Astrological Association also invited him to address its members. Bepin Behari conducted an International workshop for the British Association for Vedic Astrology. He is a frequent contributor to international Astrological Journals.. Timing of Events Through Dasha & Transit [All India Federation of Astrologers' Societies](#) This book deals with the determination of method of timing of events through dasha and transit. The horoscope and related divisional charts can simply give an indication about the auspicious and inauspicious probabilities on the basis of the study of house, house lord and significator whereas the timing of an event cannot be calculated without understanding the impact of major period & transit in operation so for getting timing of events in one's life, we use Dasha and transits. Dasha tells which planet is affecting the native at a particular time, whereas transit tells us which natal planet is vibrating because of the transiting planet. A combined result of Dasha and transit gives us the behavior of the native at a particular time. In nutshell the Horoscope and concerned divisional charts only indicate the promise in the horoscope, negative or positive, according to the position of house, house lord, significator, concerned house from the significator. But the time of fructification of event is indicated by the Dasha/Anterdasha of different planets. If a good dasha is in operation, the native will get good results according to the significations of the concerned dasha nath and its lordship in the horoscope. For determining the timing of events for various events such as education, profession, marriage, children, acquiring of vehicle, land and property, foreign travels, each subject is discussed in detail in different chapters. The principles to identify the timing of events are given with illustrations / examples. Managing by the Bhagavad Gītā Timeless Lessons for Today's Managers [Springer](#) Drawing upon the timeless wisdom of the Bhagavad Gītā, a philosophical-spiritual world classic, this professional book highlights the spiritual and moral dimensions of management using an inside-out leadership development approach. It interprets the Bhagavad Gītā's teachings on the personality types and psychological makeup of managers and employees; self-knowledge and self-mastery; and the leadership concepts of vision, motivation, and empowerment. This book covers topics such as training of the mind, ethical leadership, communication, stress management, and corporate social responsibility (CSR). Collectively, the enclosed contributions provide managers with an enhanced outlook on management functions such as leading, planning, organizing, and controlling in today's organizations, particularly those run by knowledge workers. Management research in the 20th century has mainly focused on the industrial paradigm characterized by a hierarchical structure of authority and responsibility with an individualistic focus on the personality of the manager. However, this traditional paradigm cannot solve many of the problems that confront leaders and mangers today. Recent studies have shown that values traditionally associated with spirituality—such as integrity, honesty, trust, kindness, caring, fairness, and humility—have a demonstrable effect on managerial effectiveness and success. Although traditionally interpreted as a religious-spiritual text, the Bhagavad Gītā teaches these values which can be extrapolated and applied to practical management lessons in today's corporate boardrooms. Applying the text of the Bhagavad Gītā to the context of management, this book views the manager as an “enlightened sage” who operates from higher stance, guided

by self-knowledge and self-mastery. It demonstrates how character is the key ingredient for effective management and leadership. This book is therefore applicable to all managers, from first-line to CEOs, in their management and leadership roles in organizations. Essentials of Predictive Hindu Astrology The information contained in the text are well-supported by over a hundred actual horoscopes studied by the author. Even hard-nuts to crack, like birth time rectification, horary astrology, longevity calculations, marriage, female horoscopy and Nadi, horoscopes have been made simpler to cater to all sections of readers. The Mueller Report The Final Report of the Special Counsel on Russian Interference in the 2016 Presidential Election [Courier Dover Publications](#) This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.
