Fans' participation in the Harry Potter universe has contributed to its success. This Element examines how fans' labor might continue to support the franchise for future readers. Starting with the context and theoretical frameworks that support a multidimensional analysis of the Harry Potter fan experience, this Element examines tensions between fans and Warner Bros., as fan participation tests the limits of corporate control. **The Truth about Truman School** Albert Whitman & Company They just wanted to tell the truth. When Zebby and Amr create the website thetruthabouttruman.com, they want it to be honest. Evanna Lynch's casting as Luna Lovegood in the Harry Potter films is a tale that grew to almost mythic proportions—a legend of how she faced disordered eating as a young girl, found solace in a beloved book series, and later landed the part of her favorite character. But that is not the whole story. Even after recovery, there remains a conflict at her core: a bitter struggle between the pursuit of perfection and the desire to fearlessly embrace her creative side. Revealing a startlingly accomplished voice, Lynch delves into the heart of her relationship with her body. As she takes the reader through a personal journey of leaving behind the safety of girlhood, Lynch explores the pivotal choices that ultimately led her down the path of creativity and toward acceptance of the wild, sensual, and unpredictable reality of womanhood. Honest, electrifying, and inspiring, this is a story of the battle between self-destruction and creation, of giving up the preoccupation with perfection

Everyday Information Practices A Social Phenomenological Perspective Scarecrow Press *Everyday Information Practices: A Social Phenomenological Perspective* draws on interviews with environmental activists and unemployed people during 2005 and 2006 and explores their practices of information seeking by focusing on how they monitored everyday events and sought information to solve specific problems. Thus, the practice of everyday information seeking tends to change quite slowly. **Becoming Myself Reflections on Growing Up Female** Hyperion "The women in this collection were asked, simply, to recall a significant memory of growing up female. It illuminates the multi-layered, polyvocal ways in which artistic expressions render ecological connections, drawing on scholars working in collaboration with Indigenous artists from all walks of life, including film, literature, performance, and other forms of multimedia to expand existing conversations. Both local and global in its focus, the volume includes essays from multiethnic and Indigenous communities across the world, visiting topics such as Navajo opera, Sami film production history, south Indian tribal documentary, Maori art installations, Native American and First Nations science-fiction literature and film, Amazonian poetry, and many others. Highlighting trans-Indigenous sensibilities that speak to worldwide crises of environmental politics and action against marginalization, the collection alerts readers to movements of community resilience and resistance, cosmological thinking about inter- and intra-generational multi-species relations, and understandings of indigenous aesthetics and material ecologies. It engages with emerging environmental concepts such as multispecies ethnography, cosmopolitics, and trans-indigeneity, as well as with new areas of ecocritical research such as material ecocriticism, biosemiotics, and media studies. In its breadth and scope, this book promises new directions for ecocritical thought and environmental humanities practice, providing thought-provoking insight into what it means to be human in a locally situated, globally networked, and cosmologically complex world. **The Functions of Role-Playing Games How Participants Create Community, Solve Problems and Explore Identity** McFarland This study takes an analytical approach to the world of role-playing games, providing a theoretical framework for understanding their psychological and sociological functions. It asks to what extent audiences are embracing these changes and what 'television' means in a multiplatform media landscape. **Consuming Pleasures Active Audiences and Serial Fictions from Dickens to Soap Opera** University Press of Kentucky "To be continued..." Whether these words fall at the end of *The Empire Strikes Back* or a TV commercial flirtation between coffee-loving neighbors, true fans find them impossible to resist. Ever since the 1830s, when Charles Dickens's *Pickwick Papers* enticed a mass market for fiction, the serial has been a popular means of snaring avid audiences. In *Consuming Pleasures* Jennifer Hayward establishes serial fiction as a distinct genre—one defined by the activities of its audience rather than by the formal qualities of the text. Ranging from installment novels, mysteries, and detective fiction of the 1800s to the television and movie series, comics, and advertisements of the twentieth century, serials are loosely linked by what may be called, after Wittgenstein, "family resemblances." These traits include intertwined subplots, diverse casts of characters, dramatic plot reversals, suspense, and such narrative devices as long-lost family members and evil twins. Hayward chooses four texts—Dickens's novel *Our Mutual Friend* (1864-65), Milton Caniff's comic strip *Terry and the Pirates* (1934-46), and the soap operas *All My Children* (1970-) and *One Life to Live* (1968-)—to represent the evolution of serial fiction as a genre, and to analyze the peculiar draw serials have upon their audiences. Although the serial has enjoyed great marketplace success, traditional literary and social critics have denounced its ties to mass culture, claiming it preys upon passive fans. But Hayward argues that active serial audiences have developed identifiable strategies of consumption, such as collaborative reading and attempts to shape the production process. **A Hymn Before Battle, Second Edition** Baen Publishing Enterprises Now with all new content by John Ringo! *WITH FRIENDS LIKE THESE . . .* With the Earth in the path of the rapacious Posleen, the peaceful and friendly races of the Galactic Federation offer their resources to help the backward Terrans for a price. At the publisher's request, this title is sold without DRM (Digital Rights Management). **Publishers, Readers, and Digital Engagement** Springer This book demonstrates how the roles of "author," "marketer," and "reviewer" are being redefined, as online environments enable new means for young adults to participate in the books they love. Prior to the expansion of digital technologies around reading, teachers, parents and librarians were the primary gatekeepers responsible for getting books into the hands of young people. Now publishers can create disintermediated digital enclosures in which they can communicate directly with their reading audience. This book exposes how teens contribute their immaterial and affective labor as they engage in participatory reading experiences via publishers' and authors' interactive websites and use of social media, and how in turn publishers are able to use such labor as they get invaluable market research, peer-to-peer recommendations, and even content which can be used in other projects all virtually free-of-charge. **Everyday Information The Evolution of Information Seeking in America** MIT Press This book examines the evolution of information seeking in nine areas of everyday American life. --from publisher description **Reading the Vampire** Routledge Insatiable bloodlust, dangerous sexualities, the horror of the undead, uncharted Transylvanian wildernesses, and a morbid fascination with the 'other': the legend of the vampire continues to haunt popular imagination. *Reading the Vampire* examines the vampire in all its various manifestations and cultural meanings. Ken Gelder investigates vampire narratives in literature and in film, from early vampire stories like Sheridan Le Fanu's 'lesbian vampire' tale *Carmilla* and Bram Stoker's *Dracula*, the most famous vampire narrative of all, to contemporary American vampire blockbusters by Stephen King and others, the vampire chronicles of Anne Rice, 'post-Ceausescu' vampire narratives, and films such as FW Murnau's *Nosferatu* and Bram Stoker's *Dracula*. *Reading the Vampire* embeds vampires in their cultural contexts, showing vampire narratives feeding off the anxieties and fascinations of their times: from the nineteenth century perils of tourism, issues of colonialism and national identity, and obsessions with sex and death, to the 'queer' identity of the vampire or current vampiric metaphors for dangerous exchanges of bodily fluids and AIDS. **Journaling for Discovery and Delight Creative Prompts for Your Journey** Createspace Independent Publishing Platform There's more than one way to skin a cat and if you want to eat an elephant one bite at a time that's your business. In addition to its official readership—children—it has to be approved of by adults. *Writers for children*, explains Zohar

Shavit, are constrained to respond to these multiple systems of often mutually contradictory demands. Most writers do not try to bypass these constraints, but accept them as a framework for their work. In the most extreme cases an author may ignore one segment of the readership. If the adult reader is ignored, the writer risks rejection, as is the case of popular literature. If the writer utilizes the child as a pseudo addressee in order to appeal to an adult audience, the result can be what Shavit terms an ambivalent work. Shavit analyzes the conventions and the moral aims that have structured children's literature, from the fairy tales collected and reworked by Charles Perrault and the Brothers Grimm—in particular, "Little Red Riding Hood"—through the complex manipulations of Lewis Carroll in *Alice's Adventures in Wonderland*, to the subversion of the genre's canonical requirements in the chapbooks of the eighteenth century, and in the formulaic Nancy Drew books of the twentieth century. Throughout her study Shavit, explores not only how society has shaped children's literature, but also how society has been reflected in the literary works it produces for its children.
