**Accounting** The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

**Night Noise Guidelines for Europe**

**WHO Regional Office Europe**

**The WHO Regional Office for Europe** set up a working group of experts to provide scientific advice to the Member States for the development of future legislation and policy action in the area of assessment and control of night noise exposure. The working group reviewed available scientific evidence on the health effects of night noise, and derived health-based guideline values. In December 2006, the working group and stakeholders from industry, government and nongovernmental organizations reviewed and reached general agreement on the guideline values and key texts for the final document of the "Night noise guidelines for Europe". Considering the scientific evidence on the thresholds of night noise exposure indicated by "L<sub>night,outside</sub>" [L suffix night,outside] as defined in the Environmental Noise Directive (2002/49/EC), an L<sub>night, outside</sub> of 40 dB should be the target of the night noise guideline (NNG) to protect

the public, including the most vulnerable groups such as children, the chronically ill and the elderly. "Night, outside" value of 55 dB is recommended as an interim target for the countries where the NNG cannot be achieved in the short term for various reasons, and where policy-makers choose to adopt a stepwise approach. These guidelines are applicable to the Member States of the European Region, and may be considered as an extension to, as well as an update of, the previous WHO "Guidelines for community noise" (1999). But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names. The Gardeners' Chronicle and Agricultural Gazette Whitaker's Five-year Cumulative Book List Tacitus, Annals, 15.20-23, 33-45 Latin Text, Study Aids with Vocabulary, and Commentary Open Book Publishers e emperor Nero is etched into the Western imagination as one of ancient Rome's most infamous villains, and Tacitus' Annals have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat. This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero's reign, chronicling the emperor's fledgling stage career including his plans for a grand tour of Greece; his participation in a city-wide orgy climaxing in his publicly consummated 'marriage' to his toy boy Pythagoras; the great fire of AD 64, during which large parts of central Rome went up in flames; and the rising of Nero's 'grotesque' new palace, the so-called 'Golden House', from the ashes of the city. This building project stoked the rumours that the emperor himself was behind the conflagration, and Tacitus goes on to present us with Nero's gruesome efforts to quell these mutterings by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire: Christianity. All this contrasts starkly with four chapters focusing on one of Nero's most principled opponents, the Stoic senator Thrasea Paetus, an audacious figure of moral fibre, who courageously refuses to bend to the forces of imperial corruption and hypocrisy. This course book offers a portion of the original Latin text, study aids with vocabulary, and a commentary. Designed to stretch and stimulate readers, Owen's and Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus' prose and discussion of the most recent scholarly thought. rules affecting the practice of female prostitution at Rome approximately from 200 B.C. to A.D. 250. It examines the formation and precise content of the legal norms developed for prostitution and those engaged in this profession, with close attention to their social context. McGinn's unique study explores the "fit" between the law-system and the socio-economic reality while shedding light on important questions concerning marginal groups, marriage, sexual behavior, the family, slavery, and citizen status, particularly that of women.

**Man of High Empire The Life of Pliny the Younger Oxford University Press, USA** Pliny the Younger (c. 60-112 C.E.)--senator and consul in the Rome of emperors Domitian and Trajan, eyewitness to the eruption of Vesuvius in 79, and early 'persecutor' of Christians on the Black Sea--remains Rome's best documented private individual between Cicero and Augustine. No Roman writer, not even Vergil, ties his identity to the regions of Italy more successfully than Pliny. His individuality can be captured by focusing on the range of locales in which he lived: from his hometown of Comum (Como) at the foot of the Italian Alps, down through the villa and farms he owned in Umbria, to the senate and courtrooms of Rome and the magnificent residence he owned on the coast near the capital. Organized geographically, Man of High Empire is the first full-scale biography devoted solely to the Younger Pliny. Reserved, punctilious, occasionally patronizing, and perhaps inclined to overvalue his achievements, Pliny has seemed to some the ancient equivalent of Mr. Collins, the unctuous vicar of Jane Austen's *Pride and Prejudice*. Roy K. Gibson reveals a man more complex than this unfair comparison suggests. An innovating landowner in Umbria and a deeply generous benefactor in Comum, Pliny is also a consul who plays with words in Rome and dispenses summary justice in the provinces. A solicitous, if rather traditional, husband in northern Italy, Pliny is also a literary modernist in Rome, and--more surprisingly--a secret pessimist about Trajan, the 'best' of emperors. Pliny's life is a window on to the Empire at its zenith. The book concludes with an archaeological tour guide of the sites associated with Pliny.

**Health and Wellbeing in Sexual Orientation and Gender Identity MDPI** This is a collection of published papers from a variety of authors from around the world on the topic of the health and wellbeing of minority sexual orientation and gender identity populations. Some of the included papers focused on health inequality and inequity and some focussed on healthcare delivery. Many showed how health inequities in LGBT+ groups of people were found across a wide variety of political environments and health and wellbeing topics and frequently inadequate healthcare delivery. The increasing interest in research in this area, which has been neglected in the past, shows its growing importance.
