COLLEGE ALGEBRA

Cengage Learning Clearly written and comprehensive, the eleventh edition of Gustafson and Hughes' popular book, COLLEGE ALGEBRA, provides in-depth and precise coverage, incorporated into a framework of tested teaching strategy. The authors combine carefully selected pedagogical features and patient explanations to give students a book that preserves the integrity of mathematics, yet does not discourage them with material that is confusing or too rigorous. Long respected for its ability to help students quickly master difficult problems, this book also helps them develop the skills they'll need in future courses and in everyday life. Retaining the mathematical precision instructors have come to expect, the authors have focused on making this new edition more modern to better illustrate to students the importance of math in their world. CALCULUS: AN APPLIED APPROACH

Cengage Learning Designed specifically for business, economics, or life/social sciences majors, **CALCULUS: AN APPLIED APPROACH**, Ninth Edition, motivates students while fostering understanding and mastery. The book emphasizes integrated and engaging applications that show students the real-world relevance of topics and concepts. Applied problems drawn from government sources, industry, current events, and other disciplines provide well-rounded examples and appeal to students' diverse interests. The Ninth Edition builds upon its applications emphasis through updated exercises and relevant examples. Pedagogical features--from algebra review to study tips--continue to provide extra guidance and practice. In addition, the text offers a strong support package--including Enhanced WebAssign and the book's website, CourseMate--that allows students to review the material independently and retain key concepts. INTERMEDIATE ALGEBRA

Cengage Learning Intermediate Algebra offers a practical approach to the study of intermediate algebra concepts, consistent with the needs of today's student. The authors help students to develop a solid understanding of functions by revisiting key topics related to functions throughout the text. They put special emphasis on the worked examples in each section, treating them as the primary means of instruction, since students rely so heavily on examples to complete assignments. The applications (both within the examples and exercises) are also uniquely designed so that students have an experience that is more true to life--students must read information as it appears in headline news sources and extract only the relevant information needed to solve a stated problem. The unique pedagogy in the text focuses on promoting better study habits and critical thinking skills along with orienting students to think and reason mathematically. Through Intermediate Algebra, students will not only be better prepared for future math courses, they will be better prepared to solve problems and answer questions they encounter in their own lives. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. PREALGEBRA AND INTRODUCTORY ALGEBRA: AN APPLIED APPROACH

Cengage Learning As in previous editions, the focus in **PREALGEBRA & INTRODUCTORY ALGEBRA**, remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. The role of active participant is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately work similar problems, helps them build their confidence and eventually master the concepts. To this point, simplicity plays a key factor in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully-constructed hierarchy of objectives. This objective-based approach not only serves the needs of students, in terms of helping them to clearly organize their thoughts around the content, but instructors as well, as they work to design syllabi, lesson plans, and other administrative documents. The Second Edition features a new design, enhancing the Aufmann Interactive Method and the organization of the text around objectives, making the pages easier for both students and instructors to follow. INVESTIGATING YOUR CAREER

Cengage Learning **INVESTIGATING YOUR CAREER, 3E** offers students an opportunity to direct their attention toward an area of interest that might develop into a career path while also identifying high school and college course offerings related to their career choices. This career exploration text uniquely focuses on the student's individual **PATH** to success: their **Passions, Attitude, Talents, and Heart**, as career possibilities are explored. By choosing a career based on what they want to do, students develop the ability to make informed decisions about their future, are more excited about learning, and are more motivated to stay in school. **INVESTIGATING YOUR CAREER, 3E** has been revised to include social networking, personal finance, blog activities, math and financial information, and additional coverage on the 16 Career Clusters. This text takes career exploration to a new level and is the perfect solution for states that now require/recommend a semester length middle school/junior high career course before graduating students. Focusing education on the future, the U.S. Office of Education has grouped careers into 16 clusters based on similar job characteristics. Every chapter in **INVESTIGATING YOUR CAREER, 3E** includes detailed information on a career cluster allowing students to learn about the various career options available to them. The career cluster approach makes it easier for students to understand the relevance of their required courses and helps them select their elective courses more wisely. **Important Notice:** Media content referenced within the product description or the product text may not be available in the ebook version.

MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS

Cengage Learning **MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS, 6E** stresses the direct relevance of math skills in the food service industry while teaching the basic math principles that affect everything from basic recipe preparation to managing food and labor costs in a restaurant operation. All the mathematical problems and concepts presented are explained in a simplified, logical, step-by-step manner. New to this edition, illustrations in full color add visual appeal to the text and help culinary students to master important concepts. Now in its 6th edition, this book demonstrates the importance of understanding and using math concepts to effectively make money in this demanding business. **Part 1** trains your students to use the calculator. **Part 2** reviews basic math fundamentals. Subsequent parts address math essentials and cost controls in food preparation and math essentials in food service record keeping, while the last part of the book concentrates on managerial math. New topics to this 6th edition include controlling beverage costs; clarifying and explaining the difference between fluid ounces and avoirdupois ounces; and an entire new section on yield testing and how to conduct these tests. There are new methods using helpful memory devices and acronyms to help the student remember procedures and formulas, such as **BLT, NO,** and the **Big Ounce**. New strategies and charts are also shown and explained on how to use purchases in order to control food and beverage costs and how transfers affect food and beverage costs. In addition, sections have been added on how to control costs using food (or liquor, or labor) cost percentage guidelines. The content in **MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS, 6E** meets the required knowledge and competencies for business and math skills as required by the American Culinary Federation. **Important Notice:** Media content referenced within the product description or the product text may not be available in the ebook version.

STATISTICS: LEARNING FROM DATA

Cengage Learning STATISTICS: LEARNING FROM DATA, by respected and successful author Roxy Peck, resolves common problems faced by both students and instructors with an innovative approach to elementary statistics. Peck tackles the areas students struggle with most--probability, hypothesis testing, and selecting an appropriate method of analysis--unlike any text on the market. Probability coverage is based on current research that shows how students best learn the subject. Two unique chapters, one on statistical inference and another on learning from experiment data, address two common areas of student confusion: choosing a particular inference method and using inference methods with experimental data. Supported by learning objectives, real-data examples and exercises, and technology notes, this brand new text guides students in gaining conceptual understanding, mechanical proficiency, and the ability to put knowledge into practice. BASIC FINANCE: AN INTRODUCTION TO FINANCIAL INSTITUTIONS, INVESTMENTS, AND MANAGEMENT

Cengage Learning Combining current coverage with a student-friendly modular format, BASIC FINANCE: AN INTRODUCTION TO FINANCIAL INSTITUTIONS, INVESTMENTS & MANAGEMENT, 11E introduces the three primary aspects of finance and examines how they are interrelated to give students a firm foundation in all of finance--not just corporate finance. Each chapter offers a concise, self-contained treatment of one or two finance concepts, or institutions easily covered in a single class period. Students can build on what they learn through the text's Internet resources, number problems, illustrations using financial calculators, and a Microsoft Excel appendix. The time value of money is emphasized throughout. The 11th Edition includes numerous self-help problems with answers and relationships with answers, new coverage of classes of stock/preferred stock, new sections on Internet sources of information, and updated tax laws. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

BRIEF APPLIED CALCULUS

Cengage Learning This text for the one semester applied or business calculus course uses intriguing real-world applications to engage students' interest and show them the practical side of calculus. The book's many applications are related to finance, business, and such general-interest topics as learning curves in airplane production, the age of the Dead Sea Scrolls, Apple and Oracle stock prices, the distance traveled by sports cars, lives saved by seat belts, and the cost of a congressional victory. The Sixth Edition maintains the hallmark features that have made APPLIED CALCULUS so popular: contemporary and interesting applications (including many that are new or updated); careful and effective use of technology, including graphing calculator and spreadsheet coverage; constant pedagogical reinforcement through section summaries, chapter summaries, annotated examples, and extra practice problems; Just-in-Time algebra review material; and a variety of exercises and assignment options including Applied Exercises, Conceptual Exercises, and Explorations and Excursions. This edition also includes new content and features to help students get up to speed-and succeed-in the course, including a Diagnostic Test, an Algebra Review appendix, marginal notes that make connections with previous or future discussions, new learning prompts to direct students to examples or to the Algebra Review, and more.
