" -- Don Sakers, *Analog Science Fiction and Fact*, May 2012"... a fine and fast-paced read, very much recommended." -- Paul T. Vogel, *The Midwest Book Review*, January 2012 *Eyewitness RAF The Experience of War, 1939-1945 Pen and Sword Aviation* A detailed, realistic picture of what it was like to serve in the

Royal Air Force during WWII, both on the ground and in the air, using firsthand accounts. Much has been written about the Royal Air Force during the Second World War—memoirs, biographies, histories of Fighter and Bomber commands, technical studies of the aircraft, accounts of individual operations and exploits—but few books have attempted to take the reader on a journey through basic training and active service as air or ground crew and eventual demobilization at the end of the war. That is the aim of James Goult's *Eyewitness RAF*. Using a vivid selection of testimony from men and women, he offers a direct insight into every aspect of wartime life in the service. Throughout the book the emphasis is on the individual's experience of the RAF—the preparations for flying, flying itself, the daily routines of an air base, time on leave, and the issues of discipline, morale, and motivation. A particularly graphic section describes, in the words of the men themselves, what it felt like to go on operations and the impact of casualties—airmen who were killed, injured, or taken prisoner. What emerges is a fascinatingly varied inside view of the RAF that is perhaps less heroic and glamorous than the image created by some postwar accounts—but gives readers today a much more realistic appreciation of the whole gamut of life in the RAF seventy-plus years ago.

King, Governance, and Law in Ancient India Kautilya's Arthashastra Oxford University Press King, Governance, and Law in Ancient India presents an English translation of Kautilya's Arthashastra (AS.) along with detailed endnotes. When it was discovered in 1923, the Arthashastra was described as perhaps the most precious work in the whole range of Sanskrit literature, an assessment that still rings true. This new translation of this significant text, the first in close to half a century takes into account a number of important advances in our knowledge of the texts, inscriptions, and archeological and art historical remains from the period in Indian history to which the AS. belongs (2nd-3rd century CE, although parts of it may be much older). The text is what we would today call a scientific treatise. It codifies a body of knowledge handed down in expert traditions. It is specifically interested in two things: first, how a king can expand his territory, keep enemies at bay, enhance his external power, and amass riches; second, how a king can best organize his state bureaucracy to consolidate his internal power, to suppress internal enemies, to expand the economy, to enhance his treasury through taxes, duties, and entrepreneurial activities, to keep law and order, and to settle disputes among his subjects. The book is accordingly divided into two sections: the first encompassing Books 1-5 deals with internal matters, and the second spanning Books 6-14 deals with external relations and warfare. The AS. stands alone: there is nothing like it before it and there is nothing after it—if there were other textual productions within that genre they are now irretrievably lost. Even though we know of many authors who preceded Kautilya, none of their works have survived the success of the AS. Being "textually" unique makes it difficult to understand and interpret difficult passages and terms; we cannot look to parallels for help. The AS. is also unique in that, first, it covers such a vast variety of topics and, second, it presents in textual form expert traditions in numerous areas of human and social endeavors that were handed down orally. Expert knowledge in diverse fields communicated orally from teacher to pupil, from father to son, is here for the first time codified in text. These fields include: building practices of houses, forts, and cities; gems and gemology; metals and metallurgy; mining, forestry and forest management; agriculture; manufacture of liquor; animal husbandry, shipping, and the management of horses and elephants— and so on. Finally, it is also unique in presenting a viewpoint distinctly different from the Brahmanical "party line" we see in most ancient Indian documents.
