KEY=OF - LYRIC MYLA

The Big Book of Bugs Introductory spreads explain that bugs live nearly everywhere on Earth and give tips on how to become a young bug spotter. The book is divided into key groups of bugs, including beetles, moths, butterflies, bees, snails, crickets, grasshoppers, worms and spiders, all illustrated with scenic compositions. Some spreads approach the world of bugs thematically, such as bugs that come out at night, baby creepy-crawlies and life cycles, how bugs hide and show off and how some bugs love to live in your home. The text is chatty, funny and full of amazing facts. **The Big Book of Bugs! Welcome Books** A collection of unusual facts, games, puzzles, activities, and artwork centering around the world of insects. **The Big Book of Bugs** A collection of unusual facts, games, puzzles, activities, and artwork centering around the world of insects. **Big Book of Bugs DK Children Text** and detailed photographs offer facts about a wide variety of insects, including beetles, wasps, and stick and leaf insects. **Big Book of Big Bugs** Usborne From an amazing stick insect longer than your arm to gigantic spiders as big as a dinner plate, this book's huge fold-out pages let readers discover how big some of the biggest bugs in the world really are. **Little Kids First Big Book of Bugs** National Geographic Children's Books A lavishly photographed, fact-filled introduction to a variety of jumping, crawling and creeping insects expands from backyard favorites, including ladybugs and fireflies, to more exotic species from the world's rain forests and deserts. **The Big Book of the Blue** Following the wild success of **The Big Book of Bugs** and **The Big Book of Beasts**, **The Big Book of the Blue** is the third installment in Yuval Zommer's beloved series. Alongside everything the young oceanographer needs to know, Zommer's charming illustrations bring to life some of the slipperiest, scaliest, strangest, and most monstrous underwater animals. The book opens by explaining how different types of animals are able to breathe and survive underwater, and the different families to which they belong. Subsequent pages are dedicated to specific creatures, including sea turtles, whales, sharks, stingrays, and seahorses, and show varied life in specific habitats, such as a coral reef or deep sea bed. **The Big Book of the Blue** also explores the underwater world thematically, looking at animals in danger, learning how to spot creatures at the beach, and discovering how to do our part to save sea life. Beautiful and filled with fascinating facts, young, curious readers won't be able to tear their eyes away from the page. **The Big Bug Book** Discover the Amazing World of Beetles, Bugs, Butterflies, Moths, Insects and Spiders JG Press Big Bug with audio recording Simon and Schuster Size is relative, but everything is worth seeing in this concept book from the illustrator of **And Tango Makes Three**—now available as a Classic Board Book. Beginning with a beautiful close-up of a “big” ladybug, this adorable board book artfully depicts the concept of scale as it zooms out from the bug, to a flower, to a cow, all the way to an expansive spread of sky. Then author Henry Cole masterfully zooms back in from that sky, to a tree, to a house, to a window, all the way to the end where an adorable dog is taking a “little” nap. Young readers will love the lush illustrations of the animals, objects, and scenery of a farm, and they'll delight in seeing how something “big” can suddenly seem “little” with every turn of a page! **Big Bug, Little Bug** A Book of Opposites Cartwheel Books Little bugs of all shapes and sizes show off their differences in rhyming text. **Big Bugs** Capstone Learn about big bugs and the special features that help them survive. **The Book of Brilliant Bugs** Dorling Kindersley Ltd Enter the kingdom of bugs and their close relatives for a magical journey through the forest floor, down into the deepest caves, and even across the open ocean. Insects, arachnids, worms, and molluscs are crawling across the pages of this colourful bug book, which combines gorgeous illustrations and photos to help young animal enthusiasts spot and learn all the main bug groups. From dancing bees to cartwheeling spiders, from butterfly athletes to the beetles that eat poo, they'll learn all about the incredible secret world of creepy-crawlies. And they'll find out how bugs help to look after our planet too. **The Book of Brilliant Bugs**, written by insect expert Jess French and illustrated by Claire McElfrick, takes children on a fascinating journey of exploration, showing them just how amazing creepy-crawlies are, what they do for our planet, and how we can help them. It includes bug relatives such as slimy slugs, web-spinning spiders and scuttling centipedes, plus amazing facts on how bugs pass on messages, compete for food, seek true love, and fill the air with buzzing wings. **Big Bugs Life-size** Did you know that the first specimen of the world's largest butterfly was blasted out of the sky with a shot-gun? Or that the world's longest beetle can break a pencil with its powerful jaws? **Biggest Bugs Life-size** is the first book to feature life-size photographs of the world's largest and most spectacular bugs. George Beccaloni brings together all the essential facts about 35 of the biggest and heaviest bugs in the world including where they live, what they eat and who discovered them. Unearth the biggest cockroach in the world which has a wingspan of 185 mm. Marvel at the world's longest insect from the island of Borneo which measures a staggering 567 mm long - that's over half a metre! **Stunningly** illustrated throughout, including an amazing fold-out of the world's longest bug, **Biggest Bugs Life-size** gives readers an accurate idea of just how huge these creatures really are. **My Magical Choices** The Magic of Me Series

The Really Big I Didn't Know That Book This book includes the content of all four "I Didn't Know That" books PLUS one BONUS BOOK, "I Didn't Know That Some Trains Run On Water", in one really big book! The Giant Book of Bugs and Creepy Crawlies Millbrook Press Highlights facts about insects and members of the spider family, covering their evolution, physical characteristics, and behavior. Hank's Big Day The Story of a Bug Schwartz & Wade Perfect for reading aloud, this spare, charming picture book about a day in the life of a pill bug in suburbia is also about an unusual friendship. Hank is a pill bug with a busy life—for a pill bug, that is. His daily routine involves nibbling a dead leaf, climbing up a long stick, avoiding a skateboarder, and playing pretend with his best friend, a human girl named Amelia, in her backyard. And when day is done, Hank likes nothing better than returning home to his cozy rock. The Big Book of Beasts This book opens with introductory spreads explaining that beasts are wild animals that can't be tamed and gives tips on how to spot them in their natural habitats. Subsequent spreads, illustrated with scenic compositions, are dedicated to specific beasts, including armadillos, bears, tigers and the Tasmanian Devil. Later spreads approach the world of beasts thematically, looking at mythical beasts, Ice-Age beasts, beasts on your street and how to save beasts in danger. The text is chatty, funny and full of amazing facts. The Big Bug Search Usborne Pub Limited Describes different types of insects and invites readers to find a specific number of each insect within the pictures. Bugs Don't

Hug Six-Legged Parents and Their Kids Charlesbridge Publishing Meet the mamas and papas of the insect world in this fresh and funny nonfiction look at how bugs are like us from popular science author and teacher Heather Montgomery. Most insects don't take care of their young, but some do--in surprising ways. Some bugs clean up after their messy little ones, cater to their picky eaters, and yes--hug their baby bugs. A fun and clever look at parenting in the insect world, perfect for backyard scientists and their own moms and dads. Back matter includes further information about the insects and a list of resources for young readers. **Bumble Bugs and Elephants A Big and Little Book** HarperCollins Start with something that is great big. A bumble bug? Then add more animals -- two great big chickens? -- for a sing songy read-aloud perfect for the youngest reader. The best part of this colorful book of opposites is that it never ends! Do you know something that is great big? Do you know something that is tiny little? **Hello, World! Backyard Bugs** Doubleday Books for Young Readers **Hello, World!** is a series designed to help parents introduce simple nonfiction concepts to their babies and toddlers. Now even the youngest children can enjoy learning about the world around them! Told in simple terms and accompanied by bright, cheerful illustrations, **Hello, World!** makes learning easy for young children and offers useful prompts to the adult reader in order to help them engage with their child on each page. Every young child loves to look at bugs. Now they can learn all about the insects in their backyards—with colors, sounds, sizes, and super-simple facts (“Chomp! A bright red ladybug munches on a leaf. Point to each of its spots.”). It's a perfect way to bring the outside world of natural science into the busy world of a toddler, where learning never stops. **If Your Monster Won't Go To Bed** Knopf Books for Young Readers For fans of **How to Babysit a Grandpa** comes a tongue-in-cheek story that is a step-by-step manual for putting your monster to bed. If you have a monster that won't go to bed, don't bother asking your parents to help. They know a lot about putting kids to bed, but nothing about putting monsters to bed. It's not their fault; they're just not good at it. Read this book instead. It will tell you what to feed your monster before bed (it's not warm milk), and what to sing to your monster (it's not a soothing lullaby), and what to read to your monster to send him off to dreamland in no time (the scarier, the better). Just make sure you don't get too good at putting monsters to bed—or you might have a BIG problem on your hands! Praise for Zachariah OHora: “The text is pitch-perfect, and the art is its match.” —Chicago Tribune (Wolfie the Bunny) “Picture books with hip, quirky illustrations that are not just funny but also have plenty of heart are hard to find. The stylish **My Cousin Momo** by Zachariah OHora has it all.” —The Boston Globe (My Cousin Momo) [set star] “OHora's acrylic paintings are the heart of this tale. They clearly show everyone's feelings . . . and there are brilliant bits of humor and whimsy.” —School Library Journal, starred review (Wolfie the Bunny) “OHora could paint stones in the street and make them funny.” —Publishers Weekly (My Cousin Momo) **I Love Bugs!** Hachette UK Come on a creepy-crawly bug safari through one little boy's garden . . . with a brilliant surprise at the end. Perfect for bug-lovers and budding scientists everywhere! With fun rhyming text and bright, bold artwork, perfect for sharing and reading aloud. From Emma Dodd, the artist behind the best-selling, award-winning **I Love You** series. **The Big Bug Book A Pop-up Celebration** by David A. Carter Little Simon Just in time for the 20th anniversary of the bestselling **How Many Bugs in a Box?**, David Carter is back with the biggest book of bugs yet! Everyone's favorite bugs from titles such as **Alpha Bugs**, **Bed Bugs**, and **Love Bugs** make cameos in this all new Bugs adventure.
