Head Games *Kevin Alex Baker* A New Kind of Bleak: Journeys Through Urban Britain *Verso Books* An anatomy of failed-state Britain, by the author of A Guide to the New Ruins of Great Britain. In A Guide to the New Ruins of Great Britain, Owen Hatherley skewered New Labour's architectural legacy in all its witless swagger. Now, in the year of the Diamond Jubilee and the London Olympics, he sets out to describe what the Coalition's altogether different approach to economic mismanagement and civic irresponsibility is doing to the places where the British live. In a journey that begins and ends in the capital, Hatherley takes us from Plymouth and Brighton to Belfast and Aberdeen, by way of the eerie urbanism of the Welsh valleys and the much-mocked splendour of modernist Coventry. Everywhere outside the unreal Southeast, the building has stopped in towns and cities, which languish as they wait for the next bout of self-defeating austerity. Hatherley writes with unrivalled aggression about the disarray of modern Britain, and yet this remains a book about possibilities remembered, about unlikely successes in the midst of seemingly inexorable failure. For as well as trash, ancient and modern, Hatherley finds signs of the hopeful country Britain once was and hints of what it might become. It hardly profits us to conjecture what Stephen Crane might have written about the World War had he lived. Certainly, he would have been in it, in one capacity or another. No man had a greater talent for war and personal adventure, nor a finer art in describing it. Few writers of recent times could so well describe the poetry of motion as manifested in the surge and flow of battle, or so well depict the isolated deed of heroism in its stark simplicity and terror. To such an undertaking as Henri Barbusse's "Under Fire," that powerful, brutal book, Crane would have brought an analytical genius almost clairvoyant. He possessed an uncanny vision; a descriptive ability photographic in its clarity and its care for minutiae - yet unphotographic in that the big central thing often is omitted, to be felt rather than seen in the occult suggestion of detail. Crane would have seen and depicted the grisly horror of it all, as did Barbusse, but also he would have seen the glory and the ecstasy and the wonder of it, and over that his poetry would have been spread.
