THE FEAR OF ISLAM, SECOND EDITION

AN INTRODUCTION TO ISLAMOPHOBIA IN THE WEST

Fortress Press **The Fear of Islam** investigates the context of Western views of Islam and offers an introduction to the historical roots and contemporary anxiety regarding Islam within the Western world. Tracing the medieval legacy of religious polemics and violence, Green orients readers to the complex history and issues of Western relations to Islam, from early and late modern colonial enterprises and theories of "Orientalism," to the production of religious discourses of otherness and the clash of civilizations that proliferated in the era of 9/11 and the war on terror. In this second edition, Green brings the reader up to date, examining the Islamophobic rhetoric of the 2016 US presidential election and the ongoing success of populist and far right parties in Europe. Green provides updated data on the rise of anti-Muslim legislation--for example, the Muslim ban in the United States and a wave of full-face veil bans in Europe--as well as the rise in anti-Muslim hate crimes on both sides of the Atlantic since 2015. This important book is essential reading for anyone who wants to better understand current views of Islam and to work toward meaningful peace and understanding between religious communities.

MUSLIM IDENTITIES

AN INTRODUCTION TO ISLAM

Columbia University Press Rather than focus solely on theological concerns, this well-rounded introduction takes an expansive view of Islamic ideology, culture, and tradition, sourcing a range of historical, sociological, and literary perspectives. Neither overly critical nor apologetic, this book reflects the rich diversity of Muslim identities across the centuries and counters the unflattering, superficial portrayals of Islam that are shaping public discourse today. Aaron W. Hughes uniquely traces the development of Islam in relation to historical, intellectual, and cultural influences, enriching his narrative with the findings, debates, and methodologies of related disciplines, such as archaeology, history, and Near Eastern studies. Hughes's work challenges the dominance of traditional terms and concepts in religious studies, recasting religion as a set of social and cultural facts imagined, manipulated, and contested by various actors and groups over time. Making extensive use of contemporary identity theory, Hughes rethinks the teaching of Islam and religions in general and helps facilitate a more critical approach to Muslim sources. For readers seeking a non-theological, unbiased, and richly human portrait of Islam, as well as a strong grasp of Islamic study's major issues and debates, this textbook is a productive, progressive alternative to more classic surveys.

INTRODUCTION TO ISLAMIC ECONOMICS

THEORY AND APPLICATION

John Wiley & Sons Gain deeper insight into the principles and theory of Islamic economics **Introduction to Islamic Economics: Theory and Application** provides an overview of the organizing principles and fundamentals of an Islamic economy. With deep discussion of the characteristics, rationale, key institutions, objectives, and instruments at work, the book addresses the core economic principles underlying a system based on the foundational teachings of Islam, and examines the implications for economic policies. Social welfare, economic justice, market functionality, efficiency, and equity are explored from an Islamic perspective, and the role and instruments of fiscal and monetary policy in Islamic systems are used to illustrate contemporary applications. Universities around the globe are offering courses on Islamic economics and finance, but despite the industry's rapid growth, most research has been focused on the financial principles rather than underlying economic principles. The first book of its kind, **Introduction to Islamic Economics** brings all the key concepts together into one reference volume. By outlining the ways in which Islamic finance and Islamic economics interrelate, this book can help readers to: Develop an understanding of the Islamic economic system and its institutional scaffolding Differentiate between the major characteristics of the dominant conventional economy and one based on the fundamental sources of Islam Understand the conditions that must be met for a just, well-balanced, stable, and growing economy Clarify the role of State, public policy, and risk-sharing in the Islamic financial system The Islamic financial system is expanding quickly, and those looking to increase their relevance in a changing economic landscape must get up to speed. **Introduction to Islamic Economics** provides a comprehensive overview of underlying economic system offering a deeper understanding of the feature of the system. This book is an excellent complement to **Introduction to Islamic Finance, 2E** by Iqbal and Mirakhor.

INTRODUCTION TO ISLAMIC BANKING AND FINANCE

John Wiley & Sons **Introduction to Islamic Banking and Finance** is a succinct guide to the key characteristics of Islamic banking highlighting how these differ from conventional banking. This detailed book illustrates how Islamic banking is consistent with the Sharia'a, a key element of which is the prohibition on collecting and paying interest. This central religious precept appears to rule out most aspects of modern finance but it does allow money to be used for trading tangible assets and business, which can then generate a profit. Brian Kettell's book looks at all aspects of Islamic banking, including chapters on its creation and evolution through to detailed discussions of the issues involved in the Sharia'a contracts of Murabaha, Mudaraba, Musharaka, Ijara, Istisna'a, and Salam. Islamic insurance (Takaful) is also covered. Finally the book takes a look at Sharia'a law and Sharia'a boards, indicating the roles and responsibilities that come with membership. Islamic banks have been operating in places such as Bahrain, Saudi Arabia, Malaysia and Dubai for some time. Conventional bankers have traditionally viewed the sector as a small, exotic niche but recent years have seen a dramatic surge in popularity. A number of Western investment banks have started working with Muslim clerics to create new ranges of financial products designed for devout Muslims, a large and growing market. Although estimates of the size of the Islamic finance industry vary greatly, everyone agrees that it is expanding rapidly and this is the perfect book for anyone looking to understand the industry.

INTRODUCING ISLAM

A GRAPHIC GUIDE

Icon Books Ltd Islam is one of the world's great monotheistic religions. Islamic culture, spanning 1,500 years, has produced some of the finest achievements of humanity. Yet the religion followed by a fifth of humankind is too often seen in the West in terms of fundamentalism, bigotry and violence- a perception that couldn't be more wrong. Introducing Islam recounts the history of Islam from the birth of Prophet Muhammad in the 6th century to its status as a global culture and political force today. Charting the achievements of Muslim civilisation, it explains the nature and message of the Qur'an, outlines the basic features of Islamic law, and assesses the impact of colonialism on Muslim societies. Ziauddin Sardar and Zafar Abbas Malik show how Muslims everywhere are trying to live their faith and are shaping new Islamic ideas and ideals for a globalised world.

INTRODUCTION TO ISLAM

Oxford University Press " Whether the issue is violence, terrorism, women's rights or slavery, Muslims are today expected to provide answers and to justify what Islam is-or is not. Whether the issue is violence, terrorism, women's rights or slavery, Muslims are today expected to provide answers and to justify what Islam is-or is not. But little opportunity exists, either in the media or in society as a whole, to describe Islam. In simple, direct language, an Introduction to Islam introduces readers to Islam and to its principles, rituals, diversity, and evolution. In this book, Tariq Ramadan focuses upon the realities of Islam today. Avoiding ideology and idealism, Ramadan brings to life an essence of the true meaning of Islam and its implications today. No prior knowledge of Islam is required; the book makes the complexity of Islam easy to understand by looking closely at its multi-faceted reality as a religion, and at the civilization that arose from it. The book begins with definitions, and basic principles of Islam. It then delves into history: from the beginnings in the prophetic mission and the Sunni-Shia schism, to the rise of legal schools and the construction of the "Islamic sciences," and to its theological, philosophic mainstream, and mystical (Sufi) undercurrents. The six pillars of faith will also be presented, along with the five pillars of practice, as well as Islam's prescribed rights, duties and prohibitions, the principles of Muslim mysticism and the elements of Islamic philosophy and ethics. The two final chapters focus on the modern era, offering a broad overview of the debates and controversies that are shaking Muslim-majority societies, and reshaping the lives of those who live as minorities elsewhere." --

INTRODUCTION TO ISLAMIC COSMOLOGICAL DOCTRINES, AN

State University of New York Press This is the only book to deal with classical Islamic cosmology as it was formulated by the Ikhwan al-S'afa al Biruni and Ibn Sina during the tenth and eleventh centuries. These figures influenced all the later centuries of Islamic history and in fact created the cosmological framework within which all later scientific activity in the Islamic world was carried out--the enduring image of the cosmos within which Muslims have lived during the past millennium. Nasr writes from within the Islamic tradition and demonstrates how, based on the teachings of the Quran and the Prophet, the figures treated in this work integrated elements drawn from various ancient schools of philosophy and the sciences. This book is unique in its treatment of classical Islamic cosmology as seen from within the Islamic world-view and provides a key for understanding of traditional Islamic thought. -- Back cover.

Al-Basheer Publications & Translations

ISLAM IN HISTORICAL PERSPECTIVE

Routledge Islam in Historical Perspective integrates history of Islamic societies with discussion of how Muslim scriptures, laws, moral values and myths have shaped lives and thought of individual Muslims and various Muslim communities from the rise of Islam until today. It provides carefully selected historical and scriptural evidence that enables readers to form a comprehensive balanced vision of Islam's evolution. Author Alexander Knysh shows Muslims have made sense of their life experiences by constantly interpreting and re-interpreting Islam's foundational ideas in accordance with ever-changing social and political conditions. In addition to the combined historical and chronological approach, the author offers in-depth discussions of intellectual dialogues and struggles within Islamic tradition. He shows Islam to be a social and political force, while addressing Muslim devotional practices, artistic creativity and structures of everyday life and provides a wealth of historical anecdotes and quotations from original sources that are designed to illustrate principal points.

OPENING THE QUR'AN

INTRODUCING ISLAM'S HOLY BOOK

University of Notre Dame Press Opening the Qur'an can be a bewildering experience to non-Muslim, English-speaking readers. Those who expect historical narratives, stories, or essays on morals are perplexed once they pass the beautiful first Surah, often shocked and then bogged down by Surah 2, and even offended by Surah 3's strictures against nonbelievers. Walter H. Wagner "opens" the Qur'an by offering a comprehensive and extraordinarily readable, step-by-step introduction to the text, making it accessible to students, teachers, clergy, and general readers interested in Islam and Islam's holy Book. Wagner first places the prophet Muhammad, the Qur'an, and the early Muslim community in their historical, geographical, and theological contexts. This background is a basis for interpreting the Qur'an and understanding its role in later Muslim developments as well as for relationships between Muslims, Jews, and Christians. He then looks in detail at specific passages, moving from cherished devotional texts to increasingly difficult and provocative subjects. The selected bibliography serves as a resource for further reading and study. Woven into the discussion are references to Islamic beliefs and practices. Wagner shows great sensitivity toward the risks and opportunities for non-Muslims who attempt to interpret the Qur'an, and sympathy in the long struggle to build bridges of mutual trust and honest appreciation between Muslims and non-Muslims.

NON-WESTERN EDUCATIONAL TRADITIONS

LOCAL APPROACHES TO THOUGHT AND PRACTICE

Taylor & Francis Informative and mind-opening, this text uniquely provides a comprehensive overview of a range of non-western approaches to educational thought and practice. The approach is deliberately and profoundly pedagogical, based in the author's own teaching practice. Designed to be used in pre-service and in-service teacher education courses where substantial critical discussion and debate are encouraged, the text is enhanced by Questions for Discussion and Reflection in each chapter. INTRODUCTION TO ISLAMIC LAW

ISLAMIC LAW IN THEORY AND PRACTICE

IUR Press "The world today has become one large village. Muslims and non-Muslims live side by side and have to learn about one another, share commonalities and respect differences. At this time more than one and a half billion Muslims live in this village. Some of them are pious Muslims, trying to live in accordance with Islamic rules, whereas others do not while believing that these rules come from God (the Qur'an), from interpretations of His Messenger (the Sunnah) or the consensus of Muslim jurists (ijmâ'), and are at least rules derived via analogy (qiyâs) from the main sources of Islam. Most Muslims think along these lines and agree with the above. The reader should remember that Muslim individuals should live according to Islamic rules in private, but no individual is responsible for implementing Islamic law. In any event, the need to learn the facts about Islamic law is necessary for Muslims as well as for non-Muslims if they live in the same society with Muslims, at least in the sense of general information. In any event, the need to learn the facts about Islamic law is necessary for Muslims as well as for non-Muslims if they live in the same society with Muslims, at least in the sense of general information. We should keep in mind here that only sovereign Muslim states/governments have the legal authority to implement Islamic law. An individual Muslim has no legal authority or power to implement Islamic law. The law of Islam certainly does not say that every Muslim is obliged to implement Islamic law. It matters not how efficient and popular that individual may be as a brave warrior or a meticulous planner of unlawful and immoral schemes of hatred, terror and destruction. Only people who are properly qualified and trained, and hold a license from Muslim governmental authorities, have the authority to issue fatwâs. Not every Muslim individual qualifies as a Muftî (a jurist-consult or scholar of law who has been given a license to issue fatwâs.). For this reason Bediuzzaman says: "And we know that the fundamental aims of the Qur'an and its essential elements are fourfold: divine unity (al-tawhîd), prophethood (al-nubuwwah), the resurrection of the dead (al-hashr), and justice (al-'adalah). Al-Adâlah means law. He adds in another treatise: "Let our ulul-amr (satesmen and political authorities) think over implementing these rules". This book is divided into eight chapters. Chapter I. Because of the many misunderstandings that arise, some terms related to Islamic Law, such as Shari'ah, fiqh, qânûn, 'urf, Islamic Law, and Muhammadan Law are explained. Chapter II. Here, in this chapter dedicated to references on Islamic Law, the real added value of this book is found. Chapter III. This chapter looks at four periods of Islamic Law: the period of the Prophet Muhammad, the period of the Companions, the period of the Tabi'in, and an introduction to the period of Mujtahidin. Chapter IV. We will provide detailed information here on the different law schools and theological divisions. Chapter V. This chapter will be devoted to a period of Islamic law that has been neglected in both old and new books and articles, i.e. the period of Islamic Law after the Turks converted to Islam (1960-1926). Chapter VI. This chapter will focus also on three main subjects: Anglo-Muhammadan law (Indo-Muslim law), Syariah or Islamic Law in Southeast Asia, and Islamic Law in contemporary Muslim states like Egypt, Pakistan, Morocco, Indonesia and Jordan. Chapter VII. We will explain the system and methodology of Islamic Law in this chapter. Chapter VIII. We will give some brief information here on the implementation of Islamic Law, its future; some encyclopedical works on Islamic law, and new institutions of Islamic fiqh."

AN INTRODUCTION TO HADITH

HISTORY AND SOURCES

MIU Press As the second main source of the true religion of Islam, hadith has a history full of ups and downs as far as the manner of its transmittal and the periods of its compilation and publication are concerned. Those who are acquainted with Islamic history have all acknowledged that from the time of transmittal up to now, hadith as been associated with many desirable as well as undesirable events, and its compilation and publication in some periods have had both faithful advocates and stern adversaries. For this reason, learning the "history of hadith" - though a piece of knowledge outside the different branches of the science of hadith - is essential for all those who want to benefit from the Sunnah and the corpus of hadith especially in view of the fact that the beginning of hadith compilation and its mechanism have not been the same for the proponents of the various Islamic schools of thought, each of them having a different opinion whose outcome may adversely affect the credibility and status of the existing traditions (ahadith). The present book, which has been written as a textbook in the tertiary level of Islamic studies, endeavors to present the general subjects relevant to hadith and its history as well as to acquaint the students of this field with the Sunni hadith collections and the Four Books (Kutub al-Arba'ah) of the Shi'ah in a simple and easy-to-understand approach.
