NICOMACHEAN ETHICS

Courier Corporation Enduringly profound treatise, whose lasting effect on Western philosophy continues to resonate. Aristotle identifies the goal of life as happiness and discusses its attainment through the contemplation of philosophic truth.

ARISTOTLE'S NICOMACHEAN ETHICS

University of Chicago Press Presents Aristotle's celebrated work setting forth his system of moral philosophy.

NICOMACHEAN ETHICS

Phoemixx Classics Ebooks Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

THE NICOMACHEAN ETHICS

Penguin "One swallow does not make a summer; neither does one day. Similarly neither can one day, or a brief space of time, make a man blessed and happy" Previously published as Ethics, Aristotle's The Nicomachean Ethics addresses the question of how to live well and originates the concept of cultivating a virtuous character as the basis of his ethical system. Here Aristotle sets out to examine the nature of happiness, and argues that happiness consists in 'activity of the soul in accordance with virtue', including moral virtues, such as courage, generosity and justice, and intellectual virtues, such as knowledge, wisdom and insight. The Ethics also discusses the nature of practical reasoning, the value and the objects of pleasure, the different forms of friendship, and the relationship between individual virtue, society and the State. Aristotle's work has had a profound and lasting influence on all subsequent Western thought about ethical matters. This Penguin Classics edition is translated from the Greek by J.A.K. Thomson with revisions and notes by Hugh Tredennick, and an introduction and bibliography by Jonathan Barnes. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

ARISTOTLE: NICOMACHEAN ETHICS

[e-artnow](#) This eBook edition of "Nicomachean Ethics" has been formatted to the highest digital standards and adjusted for readability on all devices. The Nicomachean Ethics is widely considered one of the most important philosophical works of Western Philosophy. The theme of the work is a Socratic question previously explored in the works of Plato, Aristotle's friend and teacher, of how men should best live. The Nicomachean Ethics had a crucial impact upon the European Middle Ages, becoming one of the core works of medieval philosophy. It therefore indirectly became critical in the development of all modern philosophy as well as European law and theology.

NICOMACHEAN ETHICS

[Lulu.com](#) In the Nicomachean Ethics Aristotle asserts that in order to achieve happiness man must live a virtuous life made up of activities in which we use our best human capacities, both ones that contribute to our flourishing as members of a community, and ones that allow us to engage in god-like contemplation. This new 2017 edition of Nicomachean Ethics features an easy to follow translation by William Ross.

COMMENTARY ON ARISTOTLE'S NICOMACHEAN ETHICS

[St. Augustine's Press](#) The fine editions of the Aristotelian Commentary Series make available long out-of-print commentaries of St. Thomas on Aristotle. Each volume has the full text of Aristotle with Bekker numbers, followed by the commentary of St. Thomas, cross-referenced using an easily accessible mode of referring to Aristotle in the Commentary. Each volume is beautifully printed and bound using the finest materials. All copies are printed on acid-free paper and Smyth sewn. They will last.

THE NICOMACHEAN ETHICS OF ARISTOTLE

ARISTOTLE: NICOMACHEAN ETHICS

This new edition provides an accurate, readable and accessible translation of one of the world's greatest ethical works, enabling readers to come close to Aristotle's original. Primarily for non-Greek readers, this book is also of wider interest to students and scholars of ethics, ancient philosophy, Aristotle and classics.

THE CAMBRIDGE COMPANION TO ARISTOTLE'S NICOMACHEAN ETHICS

[Cambridge University Press](#) Aristotle's Nicomachean Ethics is the first and arguably most important treatise on ethics in Western philosophy. It remains to this day a compelling reflection on the best sort of human life and continues to inspire contemporary thought and debate. This Cambridge Companion includes twenty essays by leading scholars of Aristotle and ancient philosophy that cover the major issues of this text. The essays in this volume shed light on Aristotle's rigorous and challenging thinking on questions such as: can there be a practical science of ethics? What is happiness? Are we responsible for our character? How does moral virtue relate to good thinking? Can we act against our reasoned choice? What is friendship? Is the contemplative life the highest kind of life? Covering all sections of the Nicomachean Ethics and selected topics in Aristotle's Eudemian Ethics and Protrepticus, this volume offers the reader a solid foundation in Aristotle's ethical philosophy.

NICOMACHEAN ETHICS

[ReadHowYouWant.com](#) "Nicomachean Ethics" is considered as one of the greatest work by Aristotle. In this book he argues that virtue is more significant for human beings than pride, pleasure and happiness. According to him virtue can be described in two ways, moral virtue and intellectual virtue. A balanced combination of both is the key to an ideal life. Thought-provoking!

THE ROUTLEDGE GUIDEBOOK TO ARISTOTLE'S NICOMACHEAN ETHICS

[Routledge](#) The Routledge Guidebook to Aristotle's Nicomachean Ethics introduces the major themes in Aristotle's great book and acts as a companion for reading this key work.

NICOMACHEAN ETHICS

ARISTOTLE

Createspace Independent Publishing Platform [Nicomachean Ethics by Aristotle](#). The Nicomachean Ethics is the name normally given to Aristotle's best-known work on ethics. The work, which plays a pre-eminent role in defining Aristotelian ethics, consists of ten books, originally separate scrolls, and is understood to be based on notes from his lectures at the Lyceum. The title is often assumed to refer to his son Nicomachus, to whom the work was dedicated or who may have edited it (although his young age makes this less likely). Alternatively, the work may have been dedicated to his father, who was also called Nicomachus. 'EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity - as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others - in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.'

THE BLACKWELL GUIDE TO ARISTOTLE'S NICOMACHEAN ETHICS

Wiley-Blackwell [The Blackwell Guide to Aristotle's Nicomachean Ethics](#) illuminates Aristotle's ethics for both academics and students new to the work, with sixteen newly commissioned essays by distinguished international scholars. The structure of the book mirrors the organization of the Nicomachean Ethics itself. Discusses the human good, the general nature of virtue, the distinctive characteristics of particular virtues, voluntariness, self-control, and pleasure.

INVESTIGATING THE RELATIONSHIP BETWEEN ARISTOTLE'S EUDEMIAN AND NICOMACHEAN ETHICS

Taylor & Francis [Specifically focusing on the relationship between the Eudemian and the Nicomachean Ethics](#), this collection of essays studies major themes from Aristotle's ethics. This volume builds on a recent revival of interest in Aristotle's Eudemian Ethics, which offers an invaluable complement to the Nicomachean Ethics in the study of the development of Aristotle's ethical ideas. It brings together a series of new studies by leading scholars covering the main points of inquiry raised by the relationship between the two works, exploring their continuities and divergences. At the same time, it showcases a variety of approaches to and perspectives on the main questions posed by Aristotle's ethical thought. Investigating the Relationship Between Aristotle's Eudemian and Nicomachean Ethics is offered as a contribution to long-standing debates over Aristotle's ethical thinking, as well as an inspiration for new approaches, which take both of his surviving ethical treatises seriously. The volume will be of interest to students and scholars of ancient philosophy and ethics, particularly Aristotle's two ethics.

THE NICOMACHEAN ETHICS OF ARISTOTLE

Read Books Ltd [One of the philosopher's most studied works, the Nicomachean Ethics, is here made available in the same translation in the World's Classics.](#) Notes of primarily textual importance have

been omitted, leaving only those of more general philosophical interest the index has been adapted for this edition and there is a new Introduction by the translator. Though Aristotle at his death left other ethical works, and this book is therefore called after its first editor Nicomachus, it is this which is usually meant when Aristotle's Ethics is referred to. As such it is of fundamental importance in the development of philosophy. TRANSLATION AND COMMENTARY

Cambridge University Press Presents a new translation with commentary exploring the final book of Aristotle's Ethics in a philosophically rigorous yet interpretatively open way.

BRIEFLY: ARISTOTLE'S NICHOMACHEAN ETHICS

Hymns Ancient and Modern Ltd Briefly: Aristotle's Nicomachean Ethics is a short summary of Aristotle's Nicomachean Ethics which is designed to assist university and school-leaving students in acquiring knowledge and understanding of this key text in the philosophy of religion. The book closely adheres to Aristotle's text, enabling the reader to follow each development in the argument as it occurs. Following the detailed summary which page references the original and includes useful key quotes, is a shorter summary acting as an overview of Nicomachean Ethics, which is intended to aid memory.

ARISTOTLE'S NICOMACHEAN ETHICS

A CRITICAL GUIDE

Cambridge University Press Aristotle's Nicomachean Ethics is one of the most important ethical treatises ever written, and has had a profound influence on the subsequent development of ethics and moral psychology. This collection of essays, written by both senior and younger scholars in the field, presents a thorough and close examination of the work. The essays address a broad range of issues including the compositional integrity of the Ethics, the nature of desire, the value of emotions, happiness and the virtues. The result is a volume which will challenge and advance the scholarship on the Ethics, establishing new ways of viewing and appreciating the work for all scholars of Aristotle.

ARISTOTLE'S NICOMACHEAN ETHICS, BOOK VII

SYMPOSIUM ARISTOTELICUM

OUP Oxford A distinguished international team of scholars under the editorship of Carlo Natali have collaborated to produce a systematic, chapter-by-chapter study of one of the most influential texts in the history of moral philosophy. The seventh book of Aristotle's Nicomachean Ethics discusses weakness of will in its first ten chapters, then turns in the last four chapters to pleasure and its relation to the supreme human good.

PRACTICES OF REASON

ARISTOTLE'S NICOMACHEAN ETHICS

Oxford University Press Practices of Reason is an exploration of the epistemological, metaphysical, and psychological foundations of the Nicomachean Ethics. In a striking reversal of current orthodoxy, Professor Reeve argues that scientific-knowledge (episteme) is possible in ethics, that dialectic and understanding (nous) play essentially the same role in ethics as in an Aristotelian science, and that the distinctive role of practical wisdom (phronesis) is to use the knowledge of universals provided by science, dialectic, and understanding so as to best promote happiness (eudaimonia) in particular circumstances and to ensure a happy life. Turning to happiness itself, the author develops a new account of Aristotle's views on ends and functions, exposing their twofold nature. He argues that the activation of theoretical wisdom is primary happiness, and that the activation of practical wisdom - when it is for the sake of primary happiness - is happiness of a secondary kind. He concludes with an account of the virtues of character, external goods, and friends, and their place in the happy life. The book will be of interest to all those who have unanswered questions about the central arguments, concepts, and presuppositions of the Nicomachean Ethics.

THE ARISTOTELIAN ETHICS

A STUDY OF THE RELATIONSHIP BETWEEN THE EUDEMIAN AND NICOMACHEAN ETHICS OF ARISTOTLE

Oxford University Press Sir Anthony Kenny presents a second edition of his landmark work The Aristotelian Ethics, which transformed Aristotle studies in 1978 by showing, on stylistic, historical, and philosophical grounds, that the Eudemian Ethics was a mature work with as strong a claim to be Aristotle's ethical masterpiece as the more widely studied Nicomachean Ethics. In this new edition Kenny offers a critical survey of developments in the field since The Aristotelian Ethics was first published. Kenny also addresses the criticisms of his first edition, both accepting those he sees as justified and addressing and refuting those which he feels are unfounded. The book remains essential reading for anyone interested in Aristotle's ethical works, arguably the most influential ever written.

ARISTOTLE'S "NICOMACHEAN ETHICS"

BRILL Anyone interested in theories of moral or human practice will find in Aristotle's Nicomachean Ethics one of the few basic models relevant through to today. At the centre of his analysis, both sober and cautious, are such concepts as happiness, virtue, choice, prudence, incontinence, pleasure and friendship. Aristotle's arguments are by no means of merely historical interest, but continue to exert a key influence on present-day ethical debate.

THE NICOMACHEAN ETHICS OF ARISTOTLE

Createspace Independent Pub The Nicomachean Ethics is one of Aristotle's most widely read and influential works.

HAPPY LIVES AND THE HIGHEST GOOD

AN ESSAY ON ARISTOTLE'S "NICOMACHEAN ETHICS"

Princeton University Press Gabriel Richardson Lear presents a bold new approach to one of the enduring debates about Aristotle's Nicomachean Ethics: the controversy about whether it coherently argues that the best life for humans is one devoted to a single activity, namely philosophical contemplation. Many scholars oppose this reading because the bulk of the Ethics is devoted to various moral virtues--courage and generosity, for example--that are not in any obvious way either manifestations of philosophical contemplation or subordinated to it. They argue that Aristotle was inconsistent, and that we should not try to read the entire Ethics as an attempt to flesh out the notion that the best life aims at the "monistic good" of contemplation. In defending the unity and coherence of the Ethics, Lear argues that, in Aristotle's view, we may act for the sake of an end not just by instrumentally bringing it about but also by approximating it. She then argues that, for Aristotle, the excellent rational activity of moral virtue is an approximation of theoretical contemplation. Thus, the happiest person chooses moral virtue as an approximation of contemplation in practical life. Richardson Lear bolsters this interpretation by examining three moral virtues--courage, temperance, and greatness of soul--and the way they are fine. Elegantly written and rigorously argued, this is a major contribution to our understanding of a central issue in Aristotle's moral philosophy.

ARISTOTLE: NICOMACHEAN ETHICS, BOOKS II–IV

TRANSLATED WITH AN INTRODUCTION AND COMMENTARY

OUP Oxford Aristotle: Nicomachean Ethics, Books II—IV Translated with an introduction and commentary

ARISTOTLE'S ETHICS

NICOMACHEAN AND EUDEMIAN THEMES

Cambridge University Press This Element is an examination of the philosophical themes presented in Aristotle's Nicomachean and Eudemian Ethics. Topics include happiness, the voluntary and choice, the doctrine of the mean, particular virtues of character and temperamental means, virtues of thought, akrasia, pleasure, friendship, and luck. Special attention has been paid to Aristotle's treatment of virtues of character and thought and their relation to happiness, the reason why Aristotle is the quintessential virtue ethicist. The virtues of character have not received the attention they deserve in most discussions of the relationship between the two treatises.

ARISTOTLE: EUDEMIAN ETHICS

Cambridge University Press Offers a fluent and readable translation of the Eudemian Ethics, including explanatory notes.

GORGIAS AND RHETORIC

Hackett Publishing By pairing translations of Gorgias and Rhetoric, along with an outstanding introductory essay, Joe Sachs demonstrates Aristotle's response to Plato. If in the Gorgias Plato probes the question of what is problematic in rhetoric, in Rhetoric, Aristotle continues the thread by looking at what makes rhetoric useful. By juxtaposing the two texts, an interesting "conversation" is illuminated—one which students of philosophy and rhetoric will find key in their analytical pursuits. Focus Philosophical Library translations are close to and are non-interpretative of the original text, with the notes and a glossary intending to provide the reader with some sense of the terms and the concepts as they were understood by Aristotle and Plato's immediate audience.

NICOMACHEAN ETHICS

Macat Library Aristotle, a student of Plato, wrote Nicomachean Ethics in 350 BCE, in a time of extraordinary intellectual development. Over two millennia later, his thorough exploration of virtue, reason, and the ultimate human good still forms the basis of the values at the heart of Western civilization. According to Aristotle, the ultimate human good is eudaimonia, or happiness, which comes from a life of virtuous action. He argues that virtues like justice, restraint, and practical wisdom cannot simply be taught but must be developed over time by cultivating virtuous habits, which can be developed by using practical wisdom and recognizing the desirable middle ground between extremes of human behavior.

THE NICOMACHEAN ETHICS OF ARISTOTLE

ARISTOTLE'S "POLITICS"

SECOND EDITION

University of Chicago Press One of the fundamental works of Western political thought, Aristotle's masterwork is the first systematic treatise on the science of politics. For almost three decades, Carnes Lord's justly acclaimed translation has served as the standard English edition. Widely regarded as the most faithful to both the original Greek and Aristotle's distinctive style, it is also written in clear, contemporary English. This new edition of the Politics retains and adds to Lord's already extensive notes, clarifying the flow of Aristotle's argument and identifying literary and historical references. A glossary defines key terms in Aristotle's philosophical-political vocabulary. Lord has made revisions to problematic passages throughout the translation in order to enhance both its accuracy and its readability. He has also substantially revised his introduction for the new edition, presenting an account of Aristotle's life in relation to political events of his time; the character and history of his writings and of the Politics in particular; his overall conception of political science; and his impact on subsequent political thought from antiquity to the present. Further enhancing this new edition is an up-to-date selected bibliography.

ARISTOTLE'S DIALOGUE WITH SOCRATES

ON THE "NICOMACHEAN ETHICS"

University of Chicago Press What is the good life for a human being? Aristotle's exploration of this question in the Nicomachean Ethics has established it as a founding work of Western philosophy, though its teachings have long puzzled readers and provoked spirited discussion. Adopting a radically new point of view, Ronna Burger deciphers some of the most perplexing conundrums of this influential treatise by approaching it as Aristotle's dialogue with the Platonic Socrates. Tracing the argument of the Ethics as it emerges through that approach, Burger's careful reading shows how Aristotle represents ethical virtue from the perspective of those devoted to it while standing back to examine its assumptions and implications. "This is the best book I have read on Aristotle's Nicomachean Ethics. It is so well crafted that reading it is like reading the Ethics itself, in that it provides an education in ethical matters that does justice to all sides of the issues."—Mary P. Nichols, Baylor University

THE ETHICS OF ARISTOTLE

Open Road Media The ancient Greek philosopher's classic work on happiness and its roots in virtue and good character. How should we live? What is the importance of such qualities as courage, generosity, and wisdom? The man who would become one of the greatest influences on Western thinking about morality explores these questions and delves into topics such as practical reasoning, friendship, pleasure, and our role in society and government. This is a classic work on timeless topics, a gift from Aristotle to the modern world.
