### Putin Country

### A Journey into the Real Russia

Farrar, Straus and Giroux Short-listed for the Pushkin House Russian Book Prize More than twenty years ago, the NPR correspondent Anne Garrels first visited Chelyabinsk, a gritty military-industrial center a thousand miles east of Moscow. The longtime home of the Soviet nuclear program, the Chelyabinsk region contained beautiful lakes, shuttered factories, mysterious closed cities, and some of the most polluted places on earth. Garrels's goal was to chart the aftershocks of the U.S.S.R.'s collapse by traveling to Russia's heartland. Returning again and again, Garrels found that the area's new freedoms and opportunities were exciting but also traumatic. As the economic collapse of the early 1990s abated, the city of Chelyabinsk became richer and more cosmopolitan, even as official corruption and intolerance for minorities grew more entrenched. Sushi restaurants proliferated; so did shakedowns. In the neighboring countryside, villages crumbled into the ground. Far from the glitz of Moscow, the people of Chelyabinsk were working out their country's destiny, person by person. In Putin Country, Garrels crafts an intimate portrait of Middle Russia. We meet upwardly mobile professionals, impassioned activists who champion the rights of orphans and disabled children, and ostentatious mafiosi. We discover surprising subcultures, such as a vibrant underground gay community and a circle of determined Protestant evangelicals. And we watch doctors and teachers trying to cope with inescapable payoffs and institutionalized negligence. As Vladimir Putin tightens his grip on power and war in Ukraine leads to Western sanctions and a lower standard of living, the local population mingles belligerent nationalism with a deep ambivalence about their country's direction. Through it all, Garrels sympathetically charts an ongoing identity crisis. In the aftermath of the Soviet Union, what is Russia? What kind of pride and cohesion can it offer? Drawing on close friendships sustained over many years, Garrels explains why Putin commands the loyalty of so many Russians, even those who decry the abuses of power they regularly encounter. Correcting the misconceptions of Putin's supporters and critics alike, Garrels's portrait of Russia's silent majority is both essential and engaging reading at a time when cold war tensions are resurgent.

### Beyond Possible

### One Soldier, Fourteen Peaks -- My Life in the Death Zone

Fourteen mountains on Earth tower over 8,000 metres above sea level, an altitude where the brain and body withers and dies. Until recently, the world record for climbing them all stood at nearly eight years. So I announced I was summiting them in under seven months. People laughed. They told me I was crazy, even though I'd sharpened my climbing skills on the brutal Himalayan peaks of Everest and Dhaulagiri. But I possessed more than enough belief, strength and resilience to nail the job, having taken down enemy gunmen and terrorist bomb makers while serving with the Gurkhas and the UK Special Forces.

Nanga Parbat

The Killer Mountain

Nanga Parbat, The Killer Mountain, is the ninth highest mountain in the world and second highest peak in Pakistan. The Sanskrit word parvata means mountain rocks and nanga means bare, in reference to the exposed rock buttresses of the south face. The north face is equally intimidating but in contrast to the south face's steep rock and ice, the snowy north face is guarded by a broad barrier of seracs that extend the width of the mountain.

Kiss or Kill

Confessions of a Serial Climber

The Mountaineers Books \* Mark Twight's collected works, some never before published in North America \* Includes dramatic black and white mountaineering photos \* Features brand new epilogues to all of the stories They call him Dr. Doom. Raving and kicking against mediocrity, his anger and pain simmer close to the surface. He speaks and writes the language of the punk music that defined him. He is extreme alpinist Mark Twight, and he doesn't back down from the truth. He's a one-man literary punk band. If you have any doubt, here comes his knockout punch: the only collection of writing Twight swears he'll ever publish. Kiss or Kill: Confessions of a Serial Climber is raw, unfiltered Twight. These author's cut are the real deal, not the homogenized fluff offered up by magazine editors who are often unwilling to offend. Twight's words make it clear that climbing is only distantly about the summit. Several of these pieces are new to U.S. readers. Twight edited all of the selections and appended each with a current author's note; confessing his inspiration, events that followed, and lessons learned (or not learned, some might say). It adds up to a frightfully lucid look into Twight's personal life as both man and hardcore alpine climber. The dissection scares me sometimes... Whether railing against the spinelessness of American siege-style mountaineering, admitting addiction to pushing the bounds of the possible, or reveling in his ability to cut away anything in life that holds him back, Twight never blinks. Along the way, there is the drama of new and epic routes, unbreakable bonds between climbing partners, and Twight's evolution as a climber and a man. He tells every story in a unique, in-your-face style. Kiss or Kill is not an easy read. It may scare some readers-but that's the point. "I want this book to help you recognize your own anger, which will help you understand mine", says Twight. "Somewhere out there somebody understands these words and knows they matter. They were written in blood, learned by heart."

Beyond the Mountain

Vertebrate Publishing "An exceptional book." - Winner - Boardman Tasker Prize 2009 Winner - Mountain Literature Award, Banff Mountain Book Festival 2009 Reinhold Messner calls Steve House the best high-altitude climber in the world today, an honour he declines. "Being called the 'best,'" says Steve, "makes me very uncomfortable. My intention is to be as good as I can be. Mountaineering is too complex to be squeezed into a competition. It is simply not something that lends itself to comparison. Climbing is about process, not achievement. The moment your mind wanders away from the task of the climbing at hand will be the moment you fail." Beyond the Mountain is the award-winning title from Steve House - arguably the world's leading high-altitude climber. Winner of the prestigious Boardman Tasker Prize for Mountain Literature in 2009, Beyond the Mountain is now available in the UK and Ireland thanks to Vertebrate Publishing. Steve House built his reputation on ascents throughout the Alps, Canada, Alaska, the Karakoram and the Himalaya that have expanded the possibilities of style, speed and difficulty. In 2005, Steve and fellow alpinist Vince Anderson pioneered a direct new route on the Rupal Face of 26,660-foot Nanga Parbat, which had never before been climbed in alpine style. It was the third ascent of the face and the achievement earned Steve and Vince the first Piolet d'Or (Golden Ice Axe) awarded to North Americans. Steve is an accomplished and spellbinding storyteller in the tradition of Maurice Herzog and Lionel Terray. Beyond the Mountain is a gripping read - already a mountain classic. It addresses many issues common to non-climbing life - mentorship, trust, failure, success, goal

setting, heroes, partnership - as well as the mountaineer's heightened experience of risk and the deaths of friends. *Beyond the Mountain* is a window into the process of a man working to be the best he can be through an endeavour very few can begin to imagine.

## The Reader's Adviser

## Dilip Kumar

## The Substance and the Shadow

Hay House, Inc An authentic, heartfelt and compelling narrative - straight from the horse's mouth - that reveals for the first time numerous unknown aspects of the life and times of one of the greatest legends of all time who stands out as a symbol of secular India. Dilip Kumar (born as Yousuf Khan), who began as a diffident novice in Hindi cinema in the early 1940s, went on to attain the pinnacle of stardom within a short time. He came up with spellbinding performances in one hit film after another - in his almost six-decade-long career - on the basis of his innovative capability, determination, hard work and never-say-die attitude. In this unique volume, Dilip Kumar traces his journey right from

his birth to the present. In the process, he candidly recounts his interactions and relationships with a wide variety of people not only from his family and the film fraternity but also from other walks of life, including politicians. While seeking to set the record straight, as he feels that a lot of what has been written about him so far is 'full of distortions and misinformation', he narrates, in graphic detail, how he got married to Saira Banu, which reads like a fairy tale! Dilip Kumar relates, matter-of-factly, the event that changed his life: his meeting with Devika Rani, the boss of Bombay Talkies, when she offered him an acting job. His first film was *Jwar Bhata* (1944). He details how he had to learn everything from scratch and how he had to develop his own distinct histrionics and style, which would set him apart from his contemporaries. After that, he soon soared to great heights with movies such as *Jugnu*, *Shaheed*, *Mela*, *Andaz*, *Deedar*, *Daag* and *Devdas*. In these movies he played the tragedian with such intensity that his psyche was adversely affected. He consulted a British psychiatrist, who advised him to switch over to comedy. The result was spectacular performances in laugh riots such as *Azaad* and *Kohinoor*, apart from a scintillating portrayal as a gritty tonga driver in *Naya Daur*. After a five-year break he started his 'second innings' with *Kranti* (1981), after which he appeared in a series of hits such as *Vidhaata*, *Shakti*, *Mashaal*, *Karma*, *Saudagar* and *Qila*.

## Preventing Suicide

### A Global Imperative

"Suicides are preventable. Even so, every 40 seconds a person dies by suicide somewhere in the world and many more attempt suicide. Suicides occur in all regions of the world and throughout the lifespan. Notably, among young people 15-29 years of age, suicide is the second leading cause of death globally. Suicide impacts on the most vulnerable of the world's populations and is highly prevalent in already marginalized and discriminated groups of society. It is not just a serious public health problem in developed countries; in fact, most suicides occur in low- and middle-income countries where resources and services, if they do exist, are often scarce and limited for early identification, treatment and support of people in need. These striking facts and the lack of implemented timely interventions make suicide a global public health problem that needs to be tackled imperatively. This report is the first WHO publication of its kind and brings together what is known in a convenient form so that immediate actions can be taken. The report aims to increase the awareness of the public health significance of suicide and suicide attempts and to make suicide prevention a higher priority on the global public health agenda. It aims to encourage and support countries to develop or strengthen comprehensive suicide prevention strategies in a multisectoral public health approach. For a national suicide prevention strategy, it is essential that governments assume their role of leadership, as they can bring together a multitude of stakeholders who may not otherwise collaborate. Governments are also in a unique position to develop and strengthen surveillance and to provide and disseminate data that are necessary to inform action. This report proposes practical guidance on strategic actions that governments can take on the basis of their resources and existing suicide prevention activities. In particular, there are evidence-based and low-cost interventions that are effective, even in resource-poor settings. This publication would not have been possible without the significant contributions of experts and partners from all over the world. We would like to thank them for their important work and support. The report is intended to be a resource that will allow policy-makers and other stakeholders to make suicide prevention an imperative. Only then can countries develop a timely and effective national response and, thus, lift the burden of suffering caused by suicide and suicide attempts from individuals, families, communities and society as a whole."--Preface, page 03.

## The Modi Doctrine

### New Paradigms in India's Foreign Policy

SCB Distributors States today are far more engaged in diplomacy than ever before, actively building relations with other states to harness their mutual commercial and cultural strengths. Prime Minister Narendra Modi's outlook to global affairs is no different, yet there is a nuanced approach in linking India's foreign policy to domestic transformation. While on the one hand, his policies seek to attract foreign capital, technology and open foreign markets for Indian products, on the other, they are geared towards regional stability, peace and prosperity. All events are texts to be analysed and the authors in this volume do so but emphatically underline that India's diplomacy under Modi has got a go-getting edge, that it is no longer foreign anymore but a matter of public affairs and that with Modi at the helm, India is set to leverage its role and make itself a 'diplomatic superpower'. The nuanced and thought-provoking essays, by some of the most well-respected analysts and practitioners of diplomacy, make this book a must-read for not just professionals and serious readers but for the uninitiated as well.

### K2

### Life and Death on the World's Most Dangerous Mountain

Crown A thrilling chronicle of the tragedy-ridden history of climbing the world's most difficult and unpredictable mountain, by the bestselling authors of *The Mountain and No Shortcuts to the Top* "Gripping . . . reveals a good deal about the rarefied noble-gonzo world of high-altitude mountaineering."—*The New York Times* Ed Viesturs, one of the world's premier high-altitude mountaineers, explores the remarkable history of K2 and of those who have attempted to conquer it. At the same time, he probes the mountain's most memorable sagas in order to illustrate lessons about the fundamental questions mountaineering raises—questions of risk, ambition, loyalty to one's teammates, self-sacrifice, and the price of glory. Viesturs knows the mountain firsthand. He and renowned alpinist Scott Fischer climbed it in 1992 and got caught in an avalanche that sent them sliding to almost certain death before Ed managed to get into a self-arrest position with his ice ax and stop both his fall and Scott's. Focusing on seven of the mountain's most dramatic campaigns, from his own troubled ascent to the 2008 tragedy, Viesturs crafts an edge-of-your-seat narrative that climbers and armchair travelers alike will find unforgettably compelling. With photographs from Viesturs's personal collection and from historical sources, this is the definitive account of the world's ultimate mountain, and of the lessons that can be gleaned from struggling toward its elusive summit.

## Victory Over K2, Second Highest Peak in the World

## Space Below My Feet

**Hachette UK** A classic mountaineering memoir by one of the UK's foremost female climbers. 'A story of climbing and compulsive love of mountains ... magnificent' OBSERVER In 1945, when Gwen Moffat was in her twenties, she deserted from her post as a driver and dispatch rider in the Army and went to live rough in Wales and Cornwall, climbing and living on practically nothing. She hitch-hiked her way around, travelling from Skye to Chamonix and many places in

between, with all her possessions on her back, although these amounted to little more than a rope and a sleeping bag. When the money ran out, she worked as a forester, went winkle-picking on the Isle of Skye, acted as the helmsman of a schooner and did a stint as an artist's model. And always there were the mountains, drawing her away from a 'proper' job. Throughout this unique story, there are acutely observed accounts of mountaineering exploits as Moffat tackles the toughest climbs and goes on to become Britain's leading female climber - and the first woman to qualify as a mountain guide.

## 8000 metres

## Climbing the World's highest mountains

**Cicerone Press Limited** In this stunning large-format book, British mountaineer Alan Hinkes describes for the first time in one place his experiences of climbing all 14 of the peaks over 8000m: the world's highest mountains, in the Himalaya and Karakoram. While the photographs - despite being taken in impossible conditions - capture the beauty and majesty of the mountain landscapes of the roof of the world, the text describes the minute-by-minute struggle to survive in 'the death zone', let alone climb to the summits, often solo and in roaring winds and Arctic temperatures. As well as reflecting on the Yorkshire childhood and first Alpine ascents that got him to his first 8000m summit attempt, and the life that he has led and plans to lead since becoming the first Briton to reach all the 8000ers, Alan recalls the climbing companions he met along the way, several of whom have died in their beloved mountains, the trek-ins, the base camps, the setbacks and the triumphs. A book to challenge and inspire mountain-lovers everywhere.

## Sherpa Hospitality as a Cure for Frostbite

## A personal perspective on the tigers of Himalayan mountaineering

**Mountain Footsteps Press** The heroic story of how Sherpas stood up and took control of their destiny Ever since Europeans started exploring the world's highest mountains and trying to reach their summits in the early 20th century, Sherpas have been an integral part of mountaineering expeditions to the Himalayas. In this anthology curated from his popular Footsteps on the Mountain blog, Mark Horrell explores the evolution of Sherpa mountaineers, from the porters of early expeditions to the superstar climbers of the present day. Writing with trademark warmth and humour, he starts by bringing to life the Sherpa characters of the early days, describing their customs and superstitions, and putting their contributions and achievements into context. In the deeply personal second section of the book, he covers some of the conflicts of the 21st century, when a series of high-profile controversies highlighted the tensions between Sherpas and western climbers on Everest. He was a witness to a devastating avalanche in the Khumbu Icefall that killed 16 Nepali mountain workers and led to a labour dispute, and he describes the events that followed from a commercial client's perspective. In the final section of the book, he brings the story up to date and looks to the future, as Sherpas have moved out of the limelight of westerners, running successful mountaineering expedition companies and becoming celebrated climbers in their own right. "It's uncommon to come across stories that look beneath the surface to investigate deeper issues while remaining accessible and humorous. Sherpa Hospitality achieves this." Alex Roddie
