Make These Toys 101 Clever Creations Using Everyday Items Penguin An ingeniously simple and fully-illustrated book for crafting toys from objects found around the house. This clever guide focuses on fun, homemade projects using materials anyone can find around the house or that can be purchased for a fraction of what a commercially-produced toy can cost. Using everyday objects from cardboard tubing to paper to clothespins, readers will discover how to make such projects as: • A milk carton balloon boat • A rubber band banjo • A cardboard tube kaleidoscope • An embroidery hoop tambourine • And more Perfect for parents and teachers, these projects enable families to spend less while keeping entertained. Because fun doesn't always have to come in a box-sometimes, it's the box itself. Toys The Rosen Publishing Group, Inc Working on crafts is always fun, and it's even more so when what you create is fun to play with afterward! By opening this book, readers discover 12 great craft projects that end with pom-pom pets, monster trucks, puppets, and more. Many kinds of crafting are included so there's a project for readers of many different interests. Step-by-step instructions clearly and simply explain each project from beginning to end. Full-color photographs accompany each craft to aid readers as they work through the toy crafts. Unbored The Essential Field Guide to Serious Fun A&C Black Unbored is the book every modern child needs. Brilliantly walking the line between cool and constructive, it's crammed with activities that are not only fun and doable but that also get kids standing on their own

two feet. If you're a kid, you can: -- Build a tipi or an igloo -- Learn to knit -- Take stuff apart and fix it -- Find out how to be constructively critical -- Film a stop-action movie or edit your own music -- Do parkour like James Bond -- Make a little house for a mouse from lollipop sticks -- Be independent! Catch a bus solo or cook yourself lunch -- Make a fake exhaust for your bike so it sounds like you're revving up a motorcycle -- Design a board game -- Go camping (or glamping) -- Plan a road trip -- Get proactive and support the causes you care about -- Develop your taste and decorate your own room -- Make a rocket from a coke bottle -- Play farting games There are gross facts and fascinating stories, reports on what stuff is like (home schooling, working in an office...), Q&As with inspiring grown-ups, extracts from classic novels, lists of useful resources and best ever lists like the top clean rap songs, stop-motion movies or books about rebellion. Just as kids begin to disappear into their screens, here is a book that encourages them to use those tech skills to be creative, try new things and change the world. And it gets parents to join in. Unbored is fully illustrated, easy to use and appealing to young and old, girl and boy. Parents will be comforted by its anti-perfectionist spirit and humour. Kids will just think it's brilliant. Essential Play Therapy Techniques Time-tested Approaches Guilford Publications Highly practical and user friendly, this book presents 58 play therapy techniques that belong in every child clinician's toolbox. The expert authors draw from multiple theoretical orientations to showcase powerful, well-established approaches applicable to a broad range of childhood problems. Activities, needed materials, and variations of each technique are succinctly described. Of critical importance for today's evidence-based practitioner, each chapter also includes a historical perspective on the technique at hand, a rationale explaining its therapeutic power, and a review of relevant empirical findings. The book enables readers to determine which strategies are appropriate for a particular child or group and rapidly incorporate them into practice. Play These Games 101 Delightful Diversions Using Everyday Items Penguin Using simple, everyday items found around the house, Play These Games will inspire kids and the young at heart with a spectrum of ingenious games to make and play so they'll never be bored again! •Gather family photos to create a personalized set of Go Fish cards •Grab loose buttons for button golf, shuffle button, and button hockey •Unleash your inner pinball wizard with a clothespin and cardboard box version of the arcade classic •Get out the hula hoops and brooms for a backyard jousting tournament •Try one of fifteen variations of the classic game of Tag Whether it's competitive or cooperative, for large groups or duos, the games in this clever guide are fun to create and a blast to play. Parenting Matters Supporting Parents of Children Ages 0-8 National Academies Press Decades of research have demonstrated that the parent-child dyad and the environment of the family"which includes all primary caregivers"are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States. Luscious Lemon Simon and Schuster She's finally seeing the fruits of her labors. Chef Ellie "Lemon" Manelli's hip East Village bistro is suddenly all the rage; Lemon and her staff of wildly talented friends plucked from New York City's finest eateries can barely keep pace. Good thing she has her loyal, dotting, bankrolling Georgia peach of a boyfriend, Eddie, to lean on -- not to mention a gaggle of loving relations over the river in Brooklyn. In fact, Lemon's life is turning out exactly as she planned -- except for the fact that she's late. As in late. Nobody said anything about, you know, labor. Having a baby right now would jeopardize everything Lemon has worked so hard to accomplish, so the pregnancy test results leave her feeling a little sour. Eddie, bless his heart, wants to just go ahead and get married, but Lemon's not sure the timing's right. She's about to

learn a lesson or two about love and loss, though. And in the end she'll discover that there's a reason things work out the way they do -- and that when life gives you lemons, you can make lemonade, or lemon tarts, or lemon meringue pie. Or, you can just be a plain ole Lemon, if that's what you were meant to be. **The Psychosocial Implications of Disney Movies MDPI** In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward. **Democracy and Education Read Books Ltd** This antiquarian volume contains a comprehensive treatise on democracy and education, being an introduction to the 'philosophy of education'. Written in clear, concise language and full of interesting expositions and thought-provoking assertions, this volume will appeal to those with an interest in the role of education in society, and it would make for a great addition to collections of allied literature. The chapters of this book include: 'Education as a Necessity of Life'; 'Education as a Social Function'; 'Education as Direction'; 'Education as Growth'; 'Preparation, Unfolding, and Formal Discipline'; 'Education as Conservative and Progressive'; 'The Democratic Conception in Education'; 'Aims in Education', etcetera. We are republishing this vintage book now complete with a new prefatory biography of the author. **Popular Mechanics** Popular Mechanics inspires, instructs and influences readers to help them master the modern world.
