POWERFUL READERS

THINKING STRATEGIES TO GUIDE LITERACY INSTRUCTION IN SECONDARY CLASSROOMS

Pembroke Publishers Limited At any age or grade level, powerful readers are those who are aware of their thinking as they read. The assumption is that high school students don't need to be taught how to read; but even if they can decode words and gain literal understanding, they often don't think deeply about what they are reading. Presenting a balance of theory and practical lessons, *Powerful Readers* demonstrates that instruction in the key strategies of connecting, visualizing, questioning, inferring, determining importance, and transforming can help students develop their reading skills and get more out of their work with fiction and nonfiction. Step-by-step lessons for introducing and using the strategies, connections to literary devices, and reading lists for each strategy are all part of this valuable resource.

CHIPPEWA CHIEF IN WORLD WAR II

THE SURVIVAL STORY OF OLIVER RASMUSSEN IN JAPAN

McFarland This is the true story of Oliver Bullard Rasmussen, a U.S. Navy aircrewman who avoided capture after his plane crashed in Japan on July 14, 1945, leaving his pilot dead and him seriously wounded. He dodged the Japanese on Hokkaido for 68 days until he saw his first fellow American. Rasmussen healed himself, relying on his Chippewa knowledge of how to survive in the wild and staying alive by raiding farms at night. The account is drawn from tapes of interviews with Rasmussen about his ordeal and personal records and other material from his family. Beginning with Rasmussen's life as a young boy growing up on a poverty-stricken Chippewa reservation in northern Wisconsin, the book then details at length Rasmussen's almost unbelievable ordeal. Also included is information on his top-secret role in the Navy's only nuclear weapons squadron.

CONFRONTING GLOBAL NEOLIBERALISM

THIRD WORLD RESISTANCE AND DEVELOPMENT STRATEGIES

SCB Distributors With the world's attention fixed on the travails of leading global economies due to a still unfolding financial crisis of gigantic proportions, there has been a studied silence on the fate of the third world as the malaise increasingly impacts it. This silence is particularly disturbing because questions of potential pitfalls in the neoliberal policy package, which the third world (unlike Western Europe and Japan) was largely forced to adopt, were never countenanced. As one third world state after another discovered that international institutions were in effect hostile to their governments if they chose alternative developmental models or otherwise resisted the neoliberal triage of liberalization, privatization and deregulation. This collection is a tour de force, effectively countering not only the neoliberal ideology of development as a whole but the marginalizing within today's mainstream crisis discourse of any discussion of the monstrous misallocation of global resources wrought by the so-called "Washington Consensus" and the suffering and destruction it has wreaked on third world peoples and economies. This edited volume is intended as both a textbook for introductory classes in global development or area studies and as a conduit for advanced students, policymakers, NGO activists and an educated readership to gain knowledge about the socio-economic conditions existing across much of the world we live in, and the policies that brought them about. The specially commissioned and peer reviewed chapters are written by experts in the fields of economics, politics, sociology and international studies. Chapter authors hail from around the world including: Brazil, Mexico, Canada, United States, United Kingdom, South Africa, South Korea and Thailand. The countries/regions' neoliberal experience and potential futures covered in this book are: Brazil, China, Cuba, Egypt, Mexico, Southeast Asia (Indonesia, Malaysia and Vietnam), South Africa, South Korea, Syria, Thailand and Venezuela.

LEADER OF THE PACK

THE FLEET SUBMARINE USS BATFISH IN WORLD WAR II

iUniverse "Leader of the Pack" recounts the incredible history of USS "Batfish," a record-setting American World War II fleet submarine. "Batfish" entered the pantheon of military lore during its famous sixth patrol in February 1945, where it sank a record three Japanese submarines in seventy-six hours. In addition to offering a rousing and meticulously researched account of the famous sixth patrol, author and military historian Mark W. Allen unravels a nautical mystery that had gone unresolved for over sixty years: the identity of the first Japanese submarine sunk by "Batfish" skipper John K. Fyfe. Controversy has surrounded the identity of the first submarine almost since the day of the sinking, but "Leader of the Pack," through a diligent recreation of the events that unfolded in the days leading up to the sixth patrol, solves the mystery once and for all. Lastly, Allen shares a personal story, never told before in such detail, of "Batfish's" rescue of three downed aviators who were forced to ditch their B-25 Mitchell bomber after it was hit by enemy anti-aircraft fire during a bombing mission on the Japanese homeland.
