Routledge **Participatory Creativity: Introducing Access and Equity to the**

Creative Classroom presents a systems-based approach to examining creativity in education that aims to make participating in invention and innovation accessible to all students. Moving beyond the gifted-versus-ungifted debate present in many of today's classrooms, the book's inclusive framework situates creativity as a participatory and socially distributed process. The core principle of the book is that individuals are not creative, ideas are creative, and that there are multiple ways for a variety of individuals to participate in the development of creative ideas. This dynamic reframing of invention and innovation provides strategies for teachers, curriculum designers, policymakers, researchers, and others who seek to develop a more equitable approach towards establishing creative learning experiences in various educational settings.

depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

SOVIET MILK

[Peirene Press](#) **The literary bestseller that took the Baltics by storm now published for the first time in English. This novel considers the effects of Soviet rule on a single individual. The central character in the story tries to follow her calling as a doctor. But then the state steps in. She is deprived first of her professional future, then of her identity and finally of her relationship with her daughter. Banished to a village in the Latvian countryside, her sense of isolation increases. Will she and her daughter be able to return to Riga when political change begins to stir? Why Peirene chose to publish this book: At first glance this novel depicts a troubled mother-daughter relationship set in the the Soviet-ruled Baltics between 1969 and 1989. Yet just beneath the surface lies something far more positive: the story of three generations of women, and the importance of a grandmother giving her granddaughter what her daughter is unable to provide - love, and the desire for life. 'Nora Ikstena is proving that Latvia is speaking in a bold and original voice.'** Rosie Goldsmith, broadcaster and reviewer 'Nora Ikstena's fiction opens up new paths not only for Latvian literature in English translation but for English literature itself.' FALLING AWAKE

Random House Winner of the 2016 Costa Poetry Award Shortlisted for the 2016 T. S. Eliot Award Shortlisted for the 2016 Forward Prize A Daily Telegraph / Guardian / Herald / New Statesman / Sunday Times / Times Literary Supplement Book of the Year Alice Oswald's poems are always vivid and distinct, alert and deeply, physically, engaged in the natural world. Mutability - a sense that all matter is unstable in the face of mortality - is at the heart of this new collection and each poem is involved in that drama: the held tension that is embodied life, and life's losing struggle with the gravity of nature. Working as before with an ear to the oral tradition, these poems attend to the organic shapes and sounds and momentum of the language as it's spoken as well as how it's thought: fresh, fluid and propulsive, but also fragmentary, repetitive. These are poems that are written to be read aloud. Orpheus and Tithonus appear at the beginning and end of this book, alive in an English landscape, stuck in the clockwork of their own speech, and the Hours - goddesses of the seasons and the natural apportioning of Time - are the presiding figures. The persistent conditions are flux and falling, and the lines are in constant motion: approaching, from daring new angles, our experience of being human, and coalescing into poems of simple, stunning beauty.

RELIGION OF WHITE RAGE

RELIGIOUS FERVOR, WHITE WORKERS AND THE MYTH OF BLACK RACIAL PROGRESS

Edinburgh University Press Critically analyses the historical, cultural and political dimensions of white religious rage in America, past and present. This book sheds light on the phenomenon of white rage, and maps out the uneasy relationship between white anxiety, religious fervour, American identity and perceived black racial progress. Contributors to the volume examine the sociological construct of the "white labourer", whose concerns and beliefs can be understood as religious in foundation, and uncover that white religious fervor correlates to notions of perceived white loss and perceived black progress. In discussions ranging from the Constitution to the Charlottesville riots to the evangelical community's uncritical support for Trump, the authors of this collection argue that it is not economics but religion and race that stand as the primary motivating factors for the rise of white rage and white supremacist sentiment in the United States.

INSIDE THE BOX

A PROVEN SYSTEM OF CREATIVITY FOR BREAKTHROUGH RESULTS

Simon and Schuster "This counterintuitive and powerfully effective approach to creativity demonstrates how every corporation and organization can develop an innovative culture. The traditional attitude toward creativity in the American business world is to 'think outside the box'-- to brainstorm without restraint in hopes of coming up with a breakthrough idea, often in moments of crisis. Sometimes it works, but it's a problem-specific solution that does nothing to engender creative thinking more generally. 'Inside the Box' demonstrates Systematic Inventive Thinking (SIT), which systemizes creativity as part of the corporate culture."--Provided by publisher.

THE BOOK OF HIDDEN THINGS

Titan Books From "one of the most significant figures of the last generation of fantasy", comes Francesco Dimitri's debut novel in English, an enthralling and seductive fantasy following four old friends and the secrets they keep. Four old school friends have a pact: to meet up every year in the small town in Puglia they grew up in. Art, the charismatic leader of the

group and creator of the pact, insists that the agreement must remain unshakable and enduring. But this year, he never shows up. A visit to his house increases the friends' worry; Art is farming marijuana. In Southern Italy doing that kind of thing can be very dangerous. They can't go to the Carabinieri so must make enquiries of their own. This is how they come across the rumours about Art; bizarre and unbelievable rumours that he miraculously cured the local mafia boss's daughter of terminal leukaemia. And among the chaos of his house, they find a document written by Art, *The Book of Hidden Things*, which promises to reveal dark secrets and wonders beyond anything previously known. Francesco Dimitri's first novel written in English, following his career as one of the most significant fantasy writers in Italy, will entrance fans of Elena Ferrante, Neil Gaiman and Donna Tartt. Set in the beguiling and seductive landscape of Southern Italy, this story is about friendship and landscape, love and betrayal; above all it is about the nature of mystery itself.

USING THE SCHOOLWIDE ENRICHMENT MODEL WITH TECHNOLOGY

The Schoolwide Enrichment Model-Technology is an extension of a talent development model implemented in more than 2,500 schools across the U.S. and widely used internationally. More than 40 years of research and development has documented the effectiveness of the SEM approach to promoting higher level thinking skills and creative productivity. Our effective skills for using technology transcend time by focusing on how to find and use digital resources and tools rather than listing the resources that already exist. Focusing on the skills that support critical thinking and problem solving, decision-making, and communication, the authors seamlessly merge technology to launch students toward independent productivity. This accessible and highly practical guide is rich with examples that will change the way you think about education while providing hands-on "how-to" guidance for creating a culture of excellence and innovation in your school and classroom.

To help readers become intentional teachers, the author offers a set of questions to guide them and models best practices through classroom examples.
