## The NexStar User's Guide II

### For the LCM, SLT, SE, CPC, SkyProdigy, and Astro Fi

**Springer** Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this - one that provides a complete, detailed guide to buying, using and maintaining NexStar telescopes. Although this book is highly comprehensive, it is suitable for beginners - there is a chapter on "Astronomy Basics" - and experts alike.

Celestron's NexStar telescopes were introduced in 1999, beginning with their first computer controlled "go to" model, a 5-inch. More models appeared in quick succession, and Celestron's new range made it one of the two dominant manufacturers of affordable "go to" telescopes.

### BMW Boxer Twins

All air-cooled R45, R50, R60, R65, R75, R80, R90, R100, RS, RT & LS (Not GS) models 1969 to 1994

**Veloce Publishing** There are lots of books about the classic BMW Boxers; their history, performance, lineage, and the minutiae of its specification. But none of them concentrate entirely on telling you what to look for when buying one secondhand. That's what this book is about - it is a straightforward, practical guide to buying a used Boxer twin. It doesn't list all the correct colour combinations for each year or analyse the bike's design philosophy - there are excellent books listed at the end of this one that do all of that - but it will help you avoid buying a dud. Point by point, it takes the reader through everything that needs looking at when buying a Boxer, plus spares prices, which is the best model to buy for your needs, and a look at auctions, restorations and paperwork The last of the 'classic' air-cooled Boxer twins, these bikes are now collector's items, and many have been saved, restored and continue to be ridden - this book tells the reader how to be part of the Boxer's ongoing story.

## Lotus 98T

### Includes all Lotus-Renault F1 cars, 1983 to 1986 (93T, 94T, 95T, 97T & 98T)

**Haynes Publishing UK** The Lotus 98T was the 1986-season, JPS-liveried F1 car driven by Ayrton Senna and team-mate Johnny Dumfries. Senna took eight podium positions, including two wins in the car, taking the fight to the superior McLarens and Williams. The 98T was one of the ultimate incarnations of an F1 car, powered by a Renault V6 turbo engine, which is conservatively estimated to have produced up to 1,300bhp at full boost. Senna was mighty to behold at the wheel of the 98T - he took pole position at eight of the season's 16 races, with victories in Spain and Detroit, famously crossing the line alongside Nigel Mansell in Spain, to win by 0.014s. This Manual, extensively illustrated with both period photographs and technical illustrations and photographs of a recently restored car, provides a fascinating insight into the design, evolution, operation, maintenance and restoration of the Lotus 98T.
