Cornell Guide to Growing Fruit at Home

Growing fruit at home can be an enjoyable activity that provides nutritious food for your family. This publication describes how to choose the best varieties; select sites; prepare soil; plant, prune and train shrubs and trees; and deal with diseases and pests.

Environmental Engineering Dictionary and Directory

CRC Press Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.

Scars, Marks & Tattoos

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.

Court Culture in Dresden

Springer This is the first cultural history of Baroque Dresden, the capital of Saxony and the most important Protestant territory in the Empire from the mid-sixteenth to the early eighteenth century. Helen Watanabe-O'Kelly shows how the art patronage of the Electors fits into the intellectual climate of the age and investigates its political and religious context. Lutheran church music and architecture, the influence of Italy, the cabinet of curiosities and the culture of collecting, alchemy, mining and early technology, official image-making and court theatre are some of the wealth of colourful subjects dealt with during the period 1553 to 1733.

Magic, Stage Illusions and Scientific Diversions, Including Trick Photography

Good Press "Magic, Stage Illusions and Scientific Diversions, Including Trick Photography" by Albert A. Hopkins. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Who Cares Wins

Reasons For Optimism in Our Changing World

Penguin UK Global warming has reached terrifying heights of severity, human consumption has caused the extinction of countless species and neoliberalism has led to a destructive divide in wealth and a polarization of mainstream politics. The climate crisis demands action. Your planet needs you! Can we shop our way out of a crisis? Will technology save the day? What does it mean to be a citizen and not a consumer? Are the real solutions inside of us? *Who Cares Wins* provides a plethora of solutions guaranteed to inspire and create lasting global change. Lily Cole has met with some of the millions of people around the world who are working on creative, innovative solutions to our biggest challenges and are committed to creating a more sustainable and peaceful future for humanity. Embracing debate and exploring issues from fast fashion to fast food, farming to plastic waste, renewable energy to gender equality, the book features interviews with diverse voices from entrepreneurs like Stella McCartney and Elon Musk, to activists such as Extinction Rebellion co-founder Dr Gail Bradbrook, Farhana Yamin, Isabella Tree, Putanny Yawanawa and Alice Waters, to offer a beacon of possibility and celebrate the joy and power of collective global creativity in challenging times. *Who Cares Wins* is a rousing call to action that will instil hope and leave you feeling equipped with the solutions and practical steps needed to make a difference. We are the ancestors of our future: a generation that will either be celebrated for its activism or blamed for its apathy. It is time for us to choose solutions over despair, to act now and create a better future. 'It's a positive, useful book - how to make choices. We need to get governments on board. I wish Lily was world controller' Vivienne Westwood, fashion designer and founder of Vivienne Westwood Ltd 'A welcome and thorough overview of some of the many aspects of the crisis humanity is now facing alongside the visionary possibilities for change at our fingertips. If we don't act it isn't for lack of good ideas' Dr Gail Bradbrook, co-founder of Extinction Rebellion 'Your book is golden, like you' Patti Smith

UX Storytellers - Connecting the Dots

Jan Jursa

Meyler's Side Effects of Herbal Medicines

Elsevier "This book summarizes the adverse effects of a large range of herbal medicines and the active ingredients that they contain. It includes extensive lists of the families of plants that are used as herbal medicines, including the Latin names of genera and species as well as the common names of individual plants. The material is drawn from the 15th edition of the internationally renowned encyclopedia, *Meyler's Side Effects of Drugs: The Encyclopedia of Adverse Drug Reactions and Interactions*, and the latest volumes in the companion series, *Side Effects of Drugs Annuals*."--BOOK JACKET.

You'll find tips that will save you time and money. You will find tips on getting your mail while traveling, internet access, boondocking, and work camping. You'll learn how to save money on camping fees just by choosing where to stay and staying longer. You will get tips on how you can customize your RV to make your home. Chapter Titles RV Care & Maintenance Tips RV Boondocking - Dry-Camping - Overnighting Tips RV Camping Tips/li> RV Park Reservation & Check-In Checklists RV Travel & Destination Tips RV Driving Tips RV Lifestyle Tips Work Camping Tips RV Accessories Tips RV Battery Tips RV Holding Tanks & Toilet Tips RV Fresh Water System Tips RV Electrical System Tips RV Refrigerator Tips Miscellaneous RV Tips Tips for RVing With Pets This book and includes over 400 tips. You pay pennies for tips that can save you hundreds of dollars. About the Editors: As most folks do, we started out tent camping. In the late 1970s we ventured across the country from northern California to western Pennsylvania and back through Washington and Oregon in Steven's boxy old 1965 Chevy van. Those were the days, my friends. That trip had a lasting effect and over time we realized we were destined to be full time RVers. In 1995 we sold our house and a Recreational Vehicle became our home. An RV has been our home every since.

The Cruellest Journey

600 Miles by Canoe to the Legendary City of Timbuktu

Random House In retracing explorer Mungo Park's fatal journey down West Africa's Niger River, author and adventuress Salak became the first person to travel alone from Mali's Old Segou to Timbuktu, the legendary "doorway to the end of the world." This is her story.

Monteverde

Ecology and Conservation of a Tropical Cloud Forest

Oxford University Press on Demand The Monteverde Cloud Forest Reserve has captured the attention of biologists, conservationists and ecologists and has been the setting for extensive investigation over the past 30 years. This provides information on this ecosystem and the biota.

Reasons for Optimism

Optimism demands action. Optimism is an active choice. Optimism is not naive and it is not impossible. We are living in an age of turmoil, destruction and uncertainty. Global warming has reached terrifying heights of severity, human expansion has caused the extinction of countless species, and Neoliberalism has led to a destructive divide in wealth and a polarisation of mainstream politics. But, there is a constructive way to meet this challenge, there is a reason to keep on fighting and there are plenty of reasons for optimism. Lily Cole has met with some of the millions of people around the world who are working on solutions to our biggest challenges and committed to creating a more sustainable and peaceful future for humanity. Exploring issues from fast fashion to fast food and renewable energy to gender equality, and featuring interviews with Sir David Attenborough, Sir Paul McCartney, Elon Musk and Extinction Rebellion co-founder Professor Gail Bradbrook, Reasons for Optimism is a beacon of hope in dark times. This book is a rousing call to action that will leave you feeling hopeful that we can make a difference. We are the ancestors of our future- a generation who will either be celebrated for their activism or blamed for its apathy. It is for us to choose optimism, to make a change and to show what is possible.

Lost Connections

Bloomsbury Publishing THE INTERNATIONAL BESTSELLER 'A book that could actually make us happy' SIMON AMSTELL 'This amazing book will change your life' ELTON JOHN 'One of the most important texts of recent years' BRITISH JOURNAL OF GENERAL PRACTICE 'Brilliant, stimulating, radical' MATT HAIG 'The more people read this book, the better off the world will be' NAOMI KLEIN 'Wonderful' HILLARY CLINTON 'Eye-opening' GUARDIAN 'Brilliant for anyone wanting a better understanding of mental health' ZOE BALL 'A game-changer' DAVINA MCCALL 'Extraordinary' DR MAX PEMBERTON 'Beautiful' RUSSELL BRAND Depression and anxiety are now at epidemic levels. Why? Across the world, scientists have uncovered evidence for nine different causes. Some are in our biology, but most are in the way we are living today. Lost Connections offers a radical new way of thinking about this crisis. It shows that once we understand the real causes, we can begin to turn to pioneering new solutions – ones that offer real hope.

The Lean Startup

How Today's Entrepreneurs Use Continuous Innovation to Create Radically Successful Businesses

Crown Business

Twelve Years a Slave

Prabhat Prakashan "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Hands-On Artificial Intelligence for Cybersecurity

Implement smart AI systems for preventing cyber attacks and detecting threats and network anomalies

Packt Publishing Ltd Build smart cybersecurity systems with the power of machine learning and deep learning to protect your corporate assets Key Features Identify and predict security threats using artificial intelligence Develop intelligent systems that can detect unusual and suspicious patterns and attacks Learn how to test the effectiveness of your AI cybersecurity algorithms and tools Book Description Today's organizations spend billions of dollars globally on cybersecurity. Artificial intelligence has emerged as a great solution for building smarter and safer security systems that allow you to predict and detect suspicious network activity, such as phishing or unauthorized intrusions. This cybersecurity book presents and demonstrates popular and successful AI approaches and models that you can adapt to detect potential attacks and protect your corporate systems. You'll learn about the role of machine learning and neural networks, as well as deep learning in cybersecurity, and you'll also learn how you can infuse AI capabilities into building smart defensive mechanisms. As you advance, you'll be able to apply these strategies across a variety of applications, including spam filters, network intrusion detection, botnet detection, and secure authentication. By the end of this book, you'll be ready to develop intelligent systems that can detect unusual and suspicious patterns and attacks, thereby developing strong network security defenses using AI. What you will learn Detect email threats such as spamming and phishing using AI Categorize APT, zero-days, and polymorphic malware samples Overcome antivirus limits in threat detection Predict network intrusions and detect anomalies with machine learning Verify the strength of biometric authentication procedures with deep learning Evaluate cybersecurity strategies and learn how you can improve them Who this book is for If you're a cybersecurity professional or ethical hacker who wants to build intelligent systems using the power of machine learning and AI, you'll find this book useful. Familiarity with cybersecurity concepts and knowledge of Python programming is essential to get the most out of this book.

A Hoosier Chronicle

ReadHowYouWant.com Books for All Kinds of Readers. ReadHowYouWant offers the widest selection of on-demand, accessible format editions on the market today. Our 7 different sizes of EasyRead are optimized by increasing the font size and spacing between the words and the letters. We partner with leading publishers around the globe. Our goal is to have accessible editions simultaneously released with publishers' new books so that all readers can have access to the books they want to read.

Reconceptualizing Early Mathematics Learning

Springer Science & Business Media This book emanated primarily from concerns that the mathematical capabilities of young children continue to receive inadequate attention in both the research and instructional arenas. Research over many years has revealed that young children have sophisticated mathematical minds and a natural eagerness to engage in a range of mathematical activities. As the chapters in this book attest, current research is showing that young children are developing complex mathematical knowledge and abstract reasoning a good deal earlier than previously thought. A range of studies in prior to school and early school settings indicate that young learners do possess cognitive capacities which, with appropriately designed and implemented learning experiences, can enable forms of reasoning not typically seen in the early years. Although there is a large and coherent body of research on individual content domains such as counting and arithmetic, there have been remarkably few studies that have attempted to describe characteristics of structural development in young students' mathematics. Collectively, the chapters highlight the importance of providing more exciting, relevant, and challenging 21st century mathematics learning for our young students. The chapters provide a broad scope in their topics and approaches to advancing young children's mathematical learning. They incorporate studies that highlight the importance of pattern and structure across the curriculum, studies that target particular content such as statistics, early algebra, and beginning number, and studies that consider how technology and other tools can facilitate early mathematical development. Reconceptualising the professional learning of teachers in promoting young children's mathematics, including a consideration of the role of play, is also addressed.

Free Prize Inside

The Next Big Marketing Idea

Penguin UK Read *Free Prize Inside* and learn how to create something incredible that your customers won't be able to resist. Make something happen! Remember when cereal boxes came with a free prize inside? You already liked the cereal, but once you saw that there was a free prize inside - something small yet precious - it became irresistible. In his new book, Seth Godin shows how you can make your customers feel that way again. Here's a step-by-step way to get your organization to do something remarkable: quickly, cheaply and reliably. You don't need an MBA or a huge budget. All you need is a strategy for finding great ideas and convincing others to help you make them happen. *Free Prize Inside* is jammed with practical ideas you can use right now to MAKE SOMETHING HAPPEN, no matter what kind of company you work for. Because everything we do is marketing - even if you're not in the marketing department.

Digital Disciplines

Attaining Market Leadership via the Cloud, Big Data, Social, Mobile, and the Internet of Things

John Wiley & Sons Leverage digital technologies to achieve competitive advantage through market-leading processes, products and services, customer relationships, and innovation How does Information Technology enable competitive advantage? *Digital Disciplines* details four strategies that exploit today's digital technologies to create unparalleled customer value. Using non-technical language, this book describes the blueprints that any company, large or small, can use to gain or retain market leadership, based on insights derived from examining modern digital giants such as Amazon, Netflix, and Uber, established firms such as Burberry, GE, Nike, and Procter & Gamble, and lesser-known innovators such as Alvio, Fruition Sciences, Opower, and Quirky. Companies can develop a competitive edge through four digital disciplines—information excellence, solution leadership, collective intimacy, and accelerated innovation—that exploit cloud computing, big data and analytics, mobile and wireline networks, social media, and the Internet of Things. These four disciplines extend and update the value disciplines of operational excellence, product leadership, and customer intimacy originally defined by Michael Treacy and Fred Wiersema in their bestselling business classic *The Discipline of Market Leaders*. Operational excellence must now be complemented by information excellence—leveraging automation, information, analytics, and sophisticated algorithms to make processes faster, better, and more cost-effective, seamlessly fuse digital and physical worlds, and generate new revenue through techniques such as exhaust data monetization Product leadership must be extended to solution leadership—smart digital products and services ranging from wind turbines and wearables to connected healthcare, linked to each other, cloud services, social networks, and partner ecosystems, focused on customer outcomes and creating experiences and transformations Customer intimacy is evolving to collective intimacy—as face-to-face relationships not only go online, but are collectively analyzed to provide individually targeted recommendations and personalized services ranging from books and movies to patient-specific therapies Traditional innovation is no longer enough—accelerated innovation goes beyond open innovation to exploit crowdsourcing, idea markets, innovation networks, challenges, and contest economics to dramatically improve processes, products, and relationships This book provides a strategy framework, empirical data, case studies, deep insights, and pragmatic steps for any enterprise to follow and attain market leadership in today's digital era. It addresses improved execution through techniques such as gamification, and pitfalls to beware, including cybersecurity, privacy, and unintended consequences. *Digital Disciplines* can be exploited by existing firms or start-ups to disrupt established ways of doing business through innovative, digitally enabled value propositions to win in competitive markets in today's digital era.

Moral Issues in the Natural Sciences and Technologies

AOSIS This book reflects academically on important and relevant natural scientific disciplines, important technologies and related media to determine and communicate the moral issues and challenges within those specific fields of study, and how to deal with them morally and from a multidimensional South African context. It aims to add scientific, technological and ethical value, locally and globally, by reflecting mainly from the viewpoint of a specific scholars, writing about the most pressing moral issues or challenges raised by problems within their specific field of study. It is written mainly from a qualitative methodological perspective, including autobiographical and participatory views. The co-authors present in respective chapters their research systematically and intersectionally, based on profound theoretical analysis and reasoning. Current research in the basic and implied sciences and technologies requires sound ethical practice based on a defensible moral stance. Moral norms, in our view, are deeply grounded and evolved convictions about justice and injustice, right and wrong, good and bad. It is not about rules. This scholarly book combines the insights and expertise of established South African scholars from different disciplines and backgrounds. The contributors are all deeply committed to the value and validity of science and ethical practice across the moral spectrum. Open and responsible discussions around this topic can lead to the introduction of moral guidelines and regulations to protect the rights of individuals, animals and the environment, while simultaneously facilitating the growth of scientific practice. This collected work, with its very specific and carefully selected grouping of academic fields, aims to innovatively assist in alleviating the shortage of academic publications reflecting on the moral issues in these specific fields.
