ALFA ROMEO ALL-ALLOY TWIN CAM COMPANION, 1954-1994

FOUR-CYLINDER HISTORY, CARE, AND RESTORATION : GIULIETTA, GIULIA, AND ALFETTA FAMILIES

Bentley Pub *Alfa Romeo All-Alloy Twin Cam Companion provides an excellent technical and historical overview of the Giulietta and Giulia family of small sporting roadsters, coupes and sedans. If an Alfa Romeo had one of the all-alloy four-cylinder engines and reached production, it's covered in the Alfa Romeo All-Alloy Twin Cam Companion. That means that even after the Giulia name was dropped - particularly in the United States - the many variants of Duetto, GTV, Berlina and Alfetta are covered, from 1954 through 1994 when the final Alfas-including the four-cylinder Spiders-were sold in the United States. When it came to Alfa Romeos, author Pat*

Braden was an enthusiast's enthusiast. Pat didn't just write about Alfas - he lived and breathed Alfas. From the mid-1950s when he first owned a Giulietta Sprint until his death in August 2002, Pat had owned scores of Alfa Romeos, ranging from a 6C 1750GTC and an 8C 2300 to 1900s, Giuliettas, Giulias and countless later models. Alfa models are discussed according to history, engine, chassis and trouble spots. Without being a repair manual, this book contains important technical information needed to understand and enjoy one of these Alfas, as well as to perform many minor repair, maintenance, and service tasks. Braden starts with a brief overview of Alfa Romeo history, followed by a look at Alfa's presence in America. He also explores the major models of coupe, spider and berlina that used the all-alloy four-cylinder, as well as the limited production variants. Of course, he also gives much attention to that mighty engine itself. Braden explains the design and history of the engine, as well as exploring trouble spots and offering extensive advice and tips. Additional technical sections focus on the fuel system, transmission, brakes and chassis, not to mention overall restoration. Alfa Romeo All-Alloy Twin Cam Companion is a key to getting the absolute maximum benefit and enjoyment out of Alfa.

ALFA ROMEO 105 SERIES SPIDER

THE COMPLETE STORY

The Crowood Press *The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.*

This book, which first appeared in 2010 when Alfa Romeo (under the title 'Alfa Romeo 1910-2010') celebrated its first century, was written by the late Maurizio Tabucchi, an expert on the history of the marque, who passed away a few years ago. His work has now been updated to include all the latest models produced from 2017 to the present day such as the Stelvio and the Giulia Quadrifoglio Verde. ALFA ROMEO TZ-TZ2

BORN TO WIN

Giorgio Nada Editore Srl *Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.*

ALFA ROMEO BERLINAS

Veloce Publishing Ltd *There is something special about Alfa Romeo cars which can't be defined precisely but is, perhaps, best described as a vitality that creates a symbiosis between driver and machine: a oneness that no other marque seems to replicate. Alfa's Berlinas have always tended to be overshadowed by their spotlight-grabbing Coupé and Spider siblings, but enthusiasts with family car needs have always known that any saloon/sedan with the famous Alfa Romeo badge would deliver pure driving pleasure in equal measure. Here is the full story of Alfa's quirky but characterful Berlinas, from their beginnings in the early 1900s through to the start of a new millennium. Not only does the book describe and picture every model, it also contains useful information on restoring classic Alfa Romeos and details of marque specialists.*

ALFA ROMEO COUPES AND SPIDERS IN DETAIL SINCE 1945

Herridge & Sons Limited *When you think of Alfa Romeo, it is the Italian's company's sports cars, above all, that fire the imagination, since they encapsulate everything that is great about the brand. In successive dynasties of fixed-roof coupés and*

convertible spiders, Alfa Romeo has built one of the greatest canons of work of any car maker in the world. The appeal of Alfa Romeo's sports cars is, of course, partly down to their aesthetic eminence. A host of talented designers created their best work for Alfa - Giorgetto Giugiaro's Giulia Sprint GT, Franco Scaglione's 33 Stradale and Pininfarina's Duetto Spider, to name but a few - but style was only ever a part of the story. Drivers love Alfa Romeo coupés and spiders, too, because technically speaking, these cars were in a class of their own. Alfa Romeo consistently employed elements from much more expensive machinery, democratising them into its sports cars. One can cite gearboxes with multiple ratios, all-round disc brakes, lightweight aluminium engines, perfectly balanced weight distribution and many more. Alfa Romeo Coupes and Spider In Detail since 1945 celebrates Alfa Romeo's most iconic sporting machinery. From the earliest sports cars of its formative years right up to the present day, every Alfa coupé and spider is described in detail. Included are exotics like the 6C 2500 Freccia d'Oro, Montreal and 8C Competizione; focused enthusiast cars like the Giulietta Sprint Veloce, Giulia GTA and 4C; comfortable touring machines such as the 2600 Spider and Giulia GTC; iconic "everyman" sports cars like the Giulia Spider, Alfetta GTV and Alfasud Sprint; and genuinely unique projects such as the ES-30 SZ. Also included are many coachbuilt cars, official concepts and show cars.
