THE 9TH SYMBOL

Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. ". . . And we will all dance at the Grand Ball," her sisters would always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent vision of a furry white animal, holding a gold metal object and exclaiming, "Oh dear! Oh dear! I shall be too late!"

PETEY (NEW COVER)

Hyperion **In 1922, at the age of two, Petey's distraught parents commit him to the state's insane asylum, unaware that their son is actually suffering from severe cerebral palsy. Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to remain kind and generous despite the horrific conditions in his new "home." Through**

the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. Petey is a touching story of friendship, discovery, and the uplifting power of the human spirit.

THE WITNESS AS OBJECT

VIDEO TESTIMONY IN MEMORIAL MUSEUMS

Berghahn Books **In recent years, historical witnessing has emerged as a category of "museum object." Audiovisual recordings of interviews with individuals remembering events of historical importance are now integral to the collections and research activities of museums. They have also become important components in narrative and exhibition design strategies. With a focus on Holocaust museums, this study scrutinizes for the first time the new global phenomenon of the "musealization" of the witness to history, exploring the processes, prerequisites, and consequences of the transformation of video testimonies into exhibits.**

PHYSICAL SCIENCES FOR NGSS

STUDENT EDITION

Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations.Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

THE OFFICIAL GNOME 2 DEVELOPER'S GUIDE

Developers who write programs for GNOME use the GNOME API. Working with the GNOME API is preferable because the program will conform to the standard GNOME program look and feel. It also allows the developer to use the GNOME specific libraries in the program, greatly simplifying the development process. The Official GNOME 2 Developer's Guide is the official GNOME Foundation guide to programming GUIs and applications using the GTK+ and GNOME API. Developed in partnership with the GNOME Foundation, this book is for programmers working with the GNOME 2 desktop environment. Each section begins with an example program that serves as a tutorial, then develops into a reference on the topic. Includes abundant, well-annotated examples. Knowledge of the C programming language is required, but no GUI programming experience is necessary.

EXHIBIT A

<u>Vintage Uk</u> **Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era -glamorous, hard-edged, cleverly spiced with vulgarity.. .rich with implied narratives and strong erotic undercurrents'**
