PLUNKETT'S AUTOMOBILE INDUSTRY ALMANAC 2009

THE ONLY COMPREHENSIVE GUIDE TO AUTOMOTIVE COMPANIES AND TRENDS

Plunkett Research, Ltd. Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies,

and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

PLUNKETT'S AUTOMOBILE INDUSTRY ALMANAC 2007

Plunkett Research, Ltd. Provides information on the truck and specialty vehicles business, including: automotive industry trends and market research; mergers, acquisitions, globalization; automobile manufacturers; truck makers; makers of specialty vehicles such as RVs; automobile loans, insurance and other financial services; dealerships; and, components manufacturers.

PLUNKETT'S AUTOMOBILE INDUSTRY ALMANAC 2008

THE ONLY COMPREHENSIVE GUIDE TO AUTOMOTIVE COMPANIES AND TRENDS

Plunkett Research, Ltd. The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-

commerce ; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. This book also includes statistical tables, an automobile industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of the 400 leading companies in all facets of the automobile industry. Purchasers may also receive a free copy of the company profiles database on CD-ROM.

LIGHT STRATEGIES FOR INNOVATION

Simon and Schuster From a leading business scholar comes this analysis of strategies and practices for sparking innovation within several of the world's major companies. Willard Zangwill's study of the innovation he addresses world-class practices of leading companies like General Electric, 3M, Canon, and others, providing a multi-step strategy for cultivating new products and development. Zangwill also explains the philosophy behind concurrent engineering, rapid learning cycles, target pricings, and more—in order to influence and promote the innovative process.

WORKING FOR THE JAPANESE

Simon and Schuster This book is an exploration into the relations between Americans and Japanese at the Mazda-Flat Rock plant. The presence of Japan Inc. looms larger than ever for millions of American managers and workers, as hundreds of Japanese companies open plants and offices in

local communities across the United States. What is it like to work for the Japanese? Can Americans, with their strong tradition of individualism, adjust to a Japanese "team system" that emphasizes harmony and close cooperation? How do Americans and Japanese resolve the misunderstandings that arise from differences in language and culture? Journalists Joseph and Suzy Fucini sought the answers by studying relations between Americans and Japanese at the Mazda plant in Flat Rock, Michigan, the first wholly-owned Japanese auto plant to employ a unionized American workforce. For three years, the Fucinis followed events at the plant, interviewing more than one hundred workers, managers and outside suppliers. The authors conclude that for all its strengths, the team system requires the sacrifice of individual interests to the good of the group, and that no matter how hard an individual tries to become part of the Mazda team, advancement for both managers and workers will be limited by the fact that they are not Japanese.

FLAT ROCK

Arcadia Publishing Located between Monroe and Detroit in Michigan, Flat Rock's history begins with the Wyandot, Huron, and Seneca Indians who once hunted and fished along the Huron River. Founded in 1823 by Michael Vreelandt, the area started to grow and prosper when settlers discovered the fertile lands and waterpower of the Huron River. The power of the river attracted settlers to build and operate two sawmills, a flour mill, and a blacksmith shop. When Pres. Abraham Lincoln called for volunteers to join the Civil War, many men from Flat Rock enlisted under Walter H. Wallace's encouragement. The largest number of volunteers came from Michigan, and that state suffered the largest number of wounded at the Battle of Gettysburg. Discover the town's story through these archival images from the Flat Rock Historical Society, showcasing the businesses, churches, community, and people whose hard work helped the city to prosper.

DRIVING FROM JAPAN

JAPANESE CARS IN AMERICA

McFarland This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing.

Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.
