## Twelve Years a Slave

**Prabhat Prakashan** *"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt*

## The Perfume Handbook

**Springer Science & Business Media** *In 1948 I was posted, as a Political Officer, to a remote part of south-west Arabia on the edge of the great desert called the Empty Quarter. In valleys made fertile by seasonal flood-waters lay the remains of an ancient civilization. I found inscriptions and the ruin sites of towns, palaces and temples. Almost buried under the sand dunes were the tumbled walls of a great city. From here, two thousand years before, huge camel caravans had trudged their way along 1600 miles of burning sand and rocks to Petra and Gaza, burdened with a most precious cargo - frankincense, myrrh and other perfume materials for the courts, temples and perfume shops of Rome. My book Frankincense and Myrrh delved into the details of this romantic trade and led to a broader interest in the perfumes of ancient times. Then, researching on behalf of a perfume house into the Arab contribution to perfumery, I came across the collection of perfume recipes assembled by the Arab philosopher-scientist Yaqub al-Kindi, which have never been translated into English (some, which I have translated myself, are now included in an appendix to this book). I realized that in that work I had found key evidence to demonstrate how the medieval Arab perfume makers had been the bridge in perfume history between ancient and modern times. Perfumery could now be seen*

as an art with a continuous history of development since the dawn of civilization.

## A Cultural History of Disability:

**Cultural Histories** *How has our understanding and treatment of disability evolved in Western culture? How has it been represented and perceived in different social and cultural conditions? In a work that spans 2,500 years, these ambitious questions are addressed by over 50 experts, each contributing their overview of a theme applied to a period in history. The volumes describe different kinds of physical and mental disabilities, their representations and receptions, and what impact they have had on society and everyday life. Individual volume editors ensure the cohesion of the whole, and to make it as easy as possible to use, chapter titles are identical across each of the volumes. This gives the choice of reading about a specific period in one of the volumes, or following a theme across history by reading the relevant chapter in each of the six. The six volumes cover: 1. - Antiquity (500 BCE - 500 CE); 2. - Middle Ages (500 - 1450); 3. - Renaissance (1400 - 1650) ; 4. - Long Eighteenth Century (1650 - 1800); 5. - Long Nineteenth Century (1800 - 1920); 6. - Modern Age (1920 - 2000+). Themes (and chapter titles) are: atypical bodies; mobility impairment; chronic pain and illness; blindness; deafness; speech; learning difficulties; mental health. The page extent is approximately 2,000pp with c. 200 illustrations. Each volume opens with Notes on Contributors, a series preface and an introduction, and concludes with Notes, Bibliography and an Index.*

# Theorising the Popular

**Cambridge Scholars Publishing** *While chiefly a site of popular pleasure and merriment, popular culture also offers a profound sense of meaning-making, where it functions as a site and source through which identities are inhabited, brokered and contested. As a significant domain within contemporary society, popular culture is both shaped by and has the capacity to shape developments occurring at the wider social, cultural and political levels of human life. Taking popular culture seriously – as an arena of everyday life that has merit in its own right – the contributors to this wide-ranging collection of essays offer unique insight into various elements of contemporary popular culture. Drawn from across the humanities and social sciences, as well as the performing arts and creative industries, this volume offers theoretical reflections on the significance of particular elements of popular culture: from the performative effects of interactive and immersive theatre, through developments in the shifting cultural landscape of a post-television age, to contemporary popular literature of various sorts and its basis for identity and fandom. Above all else, what these essays demonstrate is the radically porous nature of popular culture, and the ways in which it continually defies attempts at neat categorisation by transcending traditional boundaries and genres.*

## Intelligent Projects Using Python

## 9 real-world AI projects leveraging machine learning and deep learning with TensorFlow and Keras

**Packt Publishing Ltd** *Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in*

*the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learn*

*Build an intelligent machine translation system using seq-2-seq neural translation machines*

*Create AI applications using GAN and deploy smart mobile apps using TensorFlow*

*Translate videos into text using CNN and RNN*

*Implement smart AI Chatbots, and integrate and extend them in several domains*

*Create smart reinforcement, learning-based applications using Q-Learning*

*Break and generate CAPTCHA using Deep Learning and Adversarial Learning*

*Who this book is for* This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

**The Stationery Office** *The Government, in consultation with the Territories and other stakeholders, has developed a strategy of re-engagement: strengthening links between the Territories and the UK; strengthening governance; and enhancing support to the Territories. This White Paper sets out priorities for action in terms of defending the Territories; supporting successful economic development; preserving the Territories' rich environmental heritage and addressing the challenges of climate change; making government work better; community issues; and strengthening links with international and regional organisations or other countries. Taking this forward will require a partnership between the UK Government and Territory Governments. The UK wants to strengthen political engagement between Ministers in the UK and the Territories, particularly through the proposed Joint Ministerial Council, and is determined to live up to its responsibilities to the Territories*

## Antifascisms

## Cultural Politics in Italy, 1943-46 : Benedetto Croce and the Liberals, Carlo Levi and the "actionists"

**Fairleigh Dickinson Univ Press** *This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.*

### British Children's Cinema

## From the Thief of Bagdad to Wallace and Gromit

**Bloomsbury Publishing** *British children's films have played a part in the childhoods of generations of young people around the world for over a century. Until now, however, their cherished status has remained largely unexplored. In this book, Noel Brown relates the history of children's cinema in Britain from the early years of commercial cinema to the present day, to reveal the reasons behind its acclaim in international popular culture. Drawing on multiple sources, Brown provides in-depth analysis of a range of iconic films, including The Railway Children, The Thief of Bagdad, Bugsy Malone, the Harry Potter films, Mary Poppins, Nanny McPhee, Paddington, Oliver!, and Aardman's Wallace and Gromit series. Furthermore, he investigates industrial and commercial contexts, such as the role of the Children's Film Foundation; and includes revealing insights on changing social and cultural norms, such as the once-sacred tradition of Saturday morning cinema. Brown challenges common prejudices that children's films are inherently shallow or simplistic, revealing the often complex strategies that underpin their enduring appeal to audiences of all ages and backgrounds. In addition, he shows how the films allow a privileged access to historic cultures and the nation's political past. In doing so, Brown firmly establishes children's cinema as an important genre not only for students and scholars of film studies but also for those interested in socio-cultural history, the production and reception of popular entertainment and anyone looking for entertainment, escapism and nostalgia.*

## Calvin's Calvinism

**Theclassics.Us** *This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1856 edition. Excerpt: ... observes, " Whom He will, He hardeneth." He would not have added this unless, under the expression " raised thee up," he had meant to comprehend that purpose of God, by which Pharaoh was ordained to magnify, by his obstinacy, the redemption of God's people, Israel. For if any one should say, that Pharaoh's being "raised up" signified his being raised from above to the summit of kingly honour; that indeed is some part, but not the whole, of the matter. For the LXX. Greek interpreters have here used the same expression as that by which they render the verb Hiphil, derived from the radical Kum "to arise." Moreover, God is said to "raise up" that, which He causes, by an outstretched arm, as it were, to accomplish the end He has ordained. The Scripture here principally looks at the beginning, or first-cause, of that which it is recording; that it may ascribe the whole to God alone. In this same manner, God is also said to "raise up " prophets, and ministers of salvation; that no man might claim any of these things to himself, on the ground of his own industry. Therefore, the meaning of Moses has been faithfully expressed by the term, "raised up," if you will but so receive it; nor did Paul receive it otherwise. And most certainly, the expression "raised up" comprehends, not less distinctly than summarily, what he had touched upon, both concerning the elect, and the reprobate; since he is claiming for God the right and the power to have mercy on whom He will, and to harden whom He will, according to his own pleasure and purpose. The apostle therefore maintains, that the right of hardening, and of showing mercy, is in the power of God alone; and that no law can be imposed on him as a rule for his works; because no law or rule can be thought of, ...*

## Project Based Teaching

## How to Create Rigorous and Engaging Learning Experiences

**ASCD** *It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in Setting the Standard for Project Based Learning and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include*

## Brutified

*Brutified is a collection of poetry written by the author Robert Benefiel. The poems contained within it are from a larger cache of poems written in 2019. The pieces themselves range from narrative to abstract, bibliographical to fictionalized, allowing for a fuller range of expression and voice. What each piece carries is the idea of surviving the brutality of the world, others, and even one's self, in hopes of gaining insight and retaining one's compassion. Whether the piece is addressing the idea of finding one's own art at a junk store, or stumbling across a love note written before, but after, a lover has left them, or even watching a young midget be chased through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.*

*transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. Narratives Unfolding is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.*

## The Rejection of Consequentialism

### A Philosophical Investigation of the Considerations Underlying Rival Moral Conceptions

**Oxford University Press** *In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.*

# The Art of Perfumery

**Createspace Independent Publishing Platform** *The Art of Perfumery And Methods of Obtaining the Odors of Plants* by G.W. Septimus Piesse s. Among the nations of antiquity, an offering of perfumes was regarded as a token of the most profound respect and homage. Incense, or Frankincense, which exudes by incision and dries as a gum, from *\_Arbor-thurifera\_*, was formerly burnt in the temples of all religions, in honor of the divinities that were there adored. Many of the primitive Christians were put to death because they would not offer incense to idols. "Of the use of these luxuries by the Greeks, and afterwards by the Romans, Pliny and Seneca gives much information respecting perfume drugs, the method of collecting them, and the prices at which they sold. Oils and powder perfumery were most lavishly used, for even three times a day did some of the luxurious people anoint and scent themselves, carrying their precious perfumes with them to the baths in costly and elegant boxes called NARTHECIA." In the Romish Church incense is used in many ceremonies, and particularly at the solemn funerals of the hierarchy, and o We are delighted to publish this classic book as part of our extensive Classic Library collection.
