GM 6.2 & 6.5 LITER DIESEL ENGINES

HOW TO REBUILD

CarTech Inc **Finally, a rebuild and performance guide for GM 6.2 and 6.5L diesel engines! In the late 1970s and early 1980s, there was considerable pressure on the Detroit automakers to increase the fuel efficiency for their automotive and light-truck lines. While efficient electronic engine controls and computer-controlled gas engine technology was still in the developmental stages, the efficiency of diesel engines was already well documented during this time period. As a result, General Motors added diesel engine options to its car and truck lines in an attempt to combat high gas prices and increase fuel efficiency. The first mass-produced V-8 diesel engines of the era, the 5.7L variants, appeared in several General Motors passenger-car models beginning in 1978 and are often referred to as the Oldsmobile Diesels because of the number of Oldsmobile cars equipped with this option. This edition faded from popularity in the early 1980s as a result of falling gas prices and quality issues with diesel fuel suppliers, giving the cars a bad reputation for dependability and reliability. The 6.2L appeared in 1982 and the 6.5L in 1992, as the focus for diesel applications shifted from cars to light trucks. These engines served faithfully and remained in production until 2001, when the new Duramax design replaced it in all but a few military applications. While very durable and reliable, most of these engines have a lot of miles on them, and many are in need of a rebuild. This book will take you through the entire rebuild process step by step from diagnosis to tear down, inspection to parts sourcing, machining, and finally reassembly. Also included is valuable troubleshooting information, detailed explanations of how systems work, and even a complete Stanadyne DB2 rebuild section to get the most out**

of your engine in the modern era. If you have a 6.2, or 6.5L GM diesel engine, this book is a must-have item for your shop or library.

REVEALED BIODIVERSITY

AN ECONOMIC HISTORY OF THE HUMAN IMPACT

World Scientific Revealed Biodiversity: An Economic History of the Human Impact aims to show that for several centuries environmental conditions have been substantially the product of economic fluctuations. It contests the notion of perpetual decline in species composition. The arguments are supported by far more precise historical detail than is usual in books about ecology. The need to take the gains to human society into account when assessing environmental change is strongly emphasized. The book features case studies including England, the Netherlands, USA, East Asia, Brazil, and the areas of modern agricultural 'land grab'. This book is important for its close attention to the documented historical record of environmental change in several countries over several centuries; for its demonstration of how much wildlife populations have been influenced by fluctuations in market activity; for revealing the need to be sensitive to historical baselines; and for emphasizing the imperative of taking the gains to human society into account when assessing environmental change. It, therefore, has considerable significance for environmental and conservation policies as well as for future studies in ecological history.

Readership: Students, academics (including

economic/environmental historians, ecologists, historical geographers) or general readers interested in environmental history or economic history. **Keywords:**Biodiversity;Economic History;Birds;Landscape;Environmental History;Nature Conservation**Key Features:**Differs from most academic works in being written in a particularly readable style without compromising the level of detailPresents an unusual depth of historical work and geographical coverage while analyzing the effects of the market economy on wildlifeEmphasizes the unfamiliar point that gains to human society must in fairness be considered when discussing environmental change**Reviews:** "This remarkable book by Eric Jones is the first comprehensive treatment of human impact on global biodiversity from the perspective of economic history. Jones traces both the benefits and costs of this exploitation, taking into account the global spread of Europeans and the impact of growth and income of East Asia today. This book is important reading for anyone interested in how the world has reached — and should deal with — our current ecological and biodiversity crises." Edward B Barbier John S Bugas Professor of Economics, University of Wyoming, USA and author of Scarcity and Frontiers: How Economies Have Developed through Natural Resource Exploitation "Revealed Biodiversity offers an outstanding synthesis, one that takes the debate forward in leaps and bounds and challenges false assumptions on all sides. Eric Jones is ideally equipped for the task, for he combines a supreme grasp of economic and social history with a thoroughly-grounded knowledge of the many problems raised by the history of biodiversity and moves between the illuminating local case study and the large-scale perspective with consummate ease." Robert A Dodgshon Emeritus Professor of Human Geography Institute of Geography and Earth Sciences Aberystwyth University, UK "Revealed Biodiversity refers both to the possibilities of enjoying nature in the modern world and the importance of understanding it through a well-argued and accessibly written economic history. Environmentalists will not find this book a comfortable read, but it is an essential one if they are to engage meaningfully with the issue of biodiversity." Patrick Dillon Professor of Applied Education Sciences University of Eastern Finland, Finland "It is best to view Revealed Biodiversity as a starting point for future studies of biodiversity that takes seriously the mutual interaction between the economy and the surrounding environment. In this respect, the book is in the best tradition of environmental histories which examine the complex interplay between the economy, society, and the environment." EH.Net

DISCIPLE IV

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase **DISCIPLE** program and is prepared for those who have completed **BECOMING DISCIPLES THROUGH BIBLE STUDY**. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for **DISCIPLE IV: UNDER THE TREE OF LIFE**. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

SLAVE STEALERS

TRUE ACCOUNTS OF SLAVE RESCUES: THEN AND NOW

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--

Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
