THE LION HOUSE

She Winked Press First Digital Edition; Grier Rating: A*** A question looms throughout the pages of *The Lion House*. Can a woman be a lesbian and not be aware of it? As Jo, our lead character, finds out—yes, it possible. Jo practically throws her husband at Frannie, then forgives all their transgressions because she is in love with Frannie. Does Frannie return her love? This is the second big question for our story. Extremely well-written, this tale is the story of two woman's lives—two women who are linked through their everyday activities and their affection for each other. The subtle relationship between two women with its lesbian undertones is described with a skill worthy of Colette. Marjorie Lee has written a book that is both brilliant and brave. She delves beneath the surface of deeds and emotions to deftly expose the savage that lies in all of us, even those who live in supposed serenity in the suburbs. Every woman will recognize parts of herself in the two leading characters. She will share the emotional turmoil of a woman caught in the agony of wanting love but not knowing how to get it because she does not know how to give it. This is an exciting, original book brimming over with dialogue that is devastating in its pungency and its perception. Sometimes you feel like laughing, sometimes like crying, sometimes like gasping in shock as starkly written sexual scenes surge up from the pages. These are not included for mere sensationalism, but come out of an understanding of human nature. Always you care about those whose lives are being portrayed, and this is the true test of a book.

THE BUSINESS OF CHILDREN'S ENTERTAINMENT

Guilford Press For over 20 years, the development of children's television programming has been subsidized by toy manufacturers. The result has been an increased commercialisation of children's popular culture - the creation of a "material world" of childhood characterized by brand-name toys, games, clothing, and television characters. Drawing on historical background and case studies, this book presents a unique look at the development of children as targets of the media and commercial industries, and examines the economic and social forces that have defined the evolution of children's entertainment. This volume is of interest to professionals and students in media studies, mass communication, and related fields; readers interested in contemporary children's culture and the content of children's programming.

GUIDELINES FOR MOUNTAIN LION SAFETY

Transit Lounge "I explained to Tom that dealing with the bully was no different than dealing with the mountain lion. They were both predators looking for easy prey." Poe Ballantine visits his dying Grandfather Bing, receives free rent in return for evicting difficult tenants from the Totalitarian Hotel, models nude for budding artists, reconnects with his parents, befriends a lonely Austrian tourist on the Greyhound bus, cooks and gambles in Vegas, falls in love, returns to his wife's homeland of Mexico to baptize his son, and discovers the true meaning of Guidelines for Mountain Lion Safety. In this new collection of essays, Ballantine is at his soulful and penetrating best. At once hilarious and heart wrenching, the author recounts the trajectory of his own journey from reckless adolescence to the responsibilities of parenthood with disarming honesty, always fearlessly confronting those bullies and demons that threaten to blow us all off course.

THE POLITICS OF EARLY CHILDHOOD EDUCATION

Peter Lang As the conservative political mood of our nation eliminates programs for the increasing numbers of bilingual children, educators are nevertheless expected to teach linguistically and culturally diverse learners with limited background knowledge and resources.
