Samsung built the Galaxy Note brand on delivering the best big-screen phones around. The 6.3-inch Note 10 is one of the most compact big-screen phones yet, thanks to its nearly bezel-free Infinity-O screen - and some features Samsung left on the cutting room floor. The Note 10 also boasts several S-Pen enhancements (including gestures), a better camera for video recording, outstanding hardware, excellent battery life and an easier way to mirror the phone on a PC. However, these devices pack so much inside that setting up and personalizing your Galaxy Note 10 can be an intimidating process - especially if you don't know where the pertinent settings can be found. For instance, all the phone's buttons are on the left side of the Note 10 plus. Pressing and holding the power button activates Bixby instead of offering power options.
