East India Company at Home, 1757-1857

UCL Press The East India Company at Home, 1757-1857 explores how empire in Asia shaped British country houses, their interiors and the lives of their residents. It includes chapters from researchers based in a wide range of settings such as archives and libraries, museums, heritage organisations, the community of family historians and universities. It moves beyond conventional academic narratives and makes an important contribution to ongoing debates around how empire impacted Britain. The volume focuses on the propertied families of the East India Company at the height of Company rule. From the Battle of Plassey in 1757 to the outbreak of the Indian Uprising in 1857, objects, people and wealth flowed to Britain from Asia. As men in Company service increasingly shifted their activities from trade to military expansion and political administration, a new population of civil servants, army officers, surveyors and surgeons journeyed to India to make their fortunes. These Company men and their families acquired wealth, tastes and identities in India, which travelled home with them to Britain. Their stories, the biographies of their Indian possessions and the narratives of the stately homes in Britain that came to house them, frame our explorations of imperial culture

and its British legacies.

Triumph of the City

How Urban Spaces Make Us Human

Pan Macmillan Understanding the modern city and the powerful forces within it is the life's work of Harvard urban economist Edward Glaeser, who at forty is hailed as one of the world's most exciting urban thinkers. Travelling from city to city, speaking to planners and politicians across the world, he uncovers questions large and small whose answers are both counterintuitive and deeply significant. Should New Orleans be rebuilt? Why can't my nephew afford an apartment in New York? Is London the new financial capital of the world? Is my job headed to Bangalore? In *Triumph of the City*, Glaeser takes us around the world and into the mind of the modern city - from Mumbai to Paris to Rio to Detroit to Shanghai, and to any number of points in between - to reveal how cities think, why they behave in the manners that they do, and what wisdom they share with the people who inhabit them. 'A masterpiece' Steven D. Levitt, co-author of *Freakonomics* 'A brilliant read: persuasive and provocative' *Time Out* 'Replete with lightly borne learning, this is a tremendous book' Bryan Appleyard, *Literary Review* 'Fascinating' *Sunday Telegraph* 'Comprehensive,

compelling and strongly recommended" Tim Harford, author of *The Undercover Economist* and *Adapt* 'A hymn to the city' Metro

Computer Assisted Mass Appraisal

An International Review

Routledge First published in 1997, this volume emerged in response to the need for material on the research, development, use and application of mass appraisal techniques for ad valorem property tax systems. The primary paradigms discussed include regression, base home technique, adaptive estimation procedure and artificial neural networks. Intending to address a wide range of property types, the authors explored residential, condominiums, retail, office and industrial property as well as agricultural and forestry land.

India Infrastructure Report, 2009

Land - a Critical Resource for Infrastructure

Oxford University Press, USA The IIR 2009: Land - A Critical Resource for Infrastructure presents one of the most critical issues in recent times that has caught the attention of policymakers and the general public. The salient features of this Report are: 1. land management strategies, 2. Land rights and acquisition: policy and processes, 3. conceptual framework for land use: private and government, 4. resettlement and rehabilitation, 5. documentation of land administration and compensation practices, 6. conflict resolution. With the help of case studies of compensation practices in three countries, China, Ethiopia and Mozambique, and also from within India, IIR 2009 seeks to examine the reasons for land market distortions and explores ways to reduce them.

The World's Great Dailies

Profiles of Fifty Newspapers

New York : Hastings House This completely revised and extended updating of John Merrill's The Elite Press, published over a decade ago, provides a provocative and thoroughly researched look into the characteristics of "great" or "quality" journalism in an international context. The introductory chapters define newspaper "greatness" by describing

those journals that are serious, intellectually oriented, cosmopolitan, courageous, impartial, interpretive, reliable, responsible and socially-concerned. Here the authors place newspapers in their political environments, depicting the differences between authoritative and liberatarian press systems.

Women in India: A Social and Cultural History [2 volumes]

A Social and Cultural History

ABC-CLIO Are Indian women powerful mother goddesses, or domestic handmaidens trailing behind men in literacy, wages, opportunities, and rights? Have they been agents of their own destinies, or voiceless victims of patriarchy? Behind these colorful over-simplifications lies the reality of many feminine personas belonging to various classes, ethnicities, religions, and castes. This two-volume set looks at Indian history from ancient to modern times, revealing precisely why ideas of gender rights were not static across eras or regions. Raman's work is a reflection on the various ways in which women in a non-Western culture have developed and expressed their own feminist agenda. Raman's work is a reflection on the various ways in which women in a non-western culture have developed and expressed their own feminist agenda. Individual chapters highlight the enduring legacies of many important male and female figures, illustrating how each played a key role in modifying the substance of women's lives. Political movements are examined as well, such as the nationalist reform movement of 1947 in which the ideal of Indian womanhood became central to the nation and the push for independence. Also included is a survey of women in contemporary India and the role they played in the resurgence of militant Hindu nationalism. Aside from being an engaging and readable narrative of Indian history, this set integrates women's issues, roles, and achievements into the general study of the times, providing a clear presentation of the social,

cultural, religious, political, and economic realities that have helped shape the identity of Indian women.

eMarketing eXcellence

Routledge 'eMarketing eXcellence' offers an exciting new approach to help you build a customer-driven e-business. As the core text for the CIM's E-marketing award, the book offers a highly structured and accessible guide to a critical subject, providing a useful reference point for all students and managers involved in marketing strategy and implementation. A practical guide to creating and executing e-marketing plans, this book combines established approaches to marketing planning with the creative use of new e-models and e-tools. It is designed to support both marketers who are integrating e-marketing into their existing marketing and communications strategies and experienced e-marketers looking to optimise their e-marketing. The book shows how to:

- Draw up an outline e-marketing plan
- Evaluate and apply e-marketing principles & models
- Integrate online and offline communications
- Implement customer-driven e-marketing
- Reduce costly trial and error
- Measure and enhance your e-marketing
- Drive your e-business forward

As the core text for the CIM's new professional E-marketing Award, it provides comprehensive, critical coverage of the key areas of e-marketing planning for marketing professionals. Established marketing concepts such as customer relationship management, the marketing mix and the widely adopted SOSTAC® planning system, are re-examined in the new media context - and new approaches are defined, including business models, traffic building and web site design.

Chocolates on the Pillow Aren't Enough

Reinventing The Customer Experience

John Wiley & Sons Praise for Chocolates on the Pillow Aren't Enough "Jonathan recognizes that in today's Internet-fed, savvy-consumer world, it is the people-to-people connections, regardless of price point, that differentiate a customer's experience. Gimmicks come and go, but without sincere and caring people delivering the overall experience, from start to finish, well, it's true--chocolates on the pillow are not enough. A great read!" —David Neeleman, founder and CEO, JetBlue Airways Corporation "If you don't work for your customer, you're not doing your job. Who better to turn to for lessons in great customer experiences than Jonathan Tisch? He has long been one of the most respected leaders in travel and hospitality, and when it comes to treating all customers like guests, to put it simply, he gets it. And then some." —Millard S. Drexler, Chairman and CEO, J. Crew Group "What brings customers back to my restaurants? Why do viewers watch my TV show? It's more than Bam! It's delivering a kicked-up customer experience. Tisch is the guy who knows how to do this best. His book gives the inside scoop on how to excite your customers and bring 'em back for more." —Emeril Lagasse "Attention to detail, passion, and dedication are a few of the things that made me successful

as an athlete. Jonathan knows that by doing the same in business, you maximize the customer's experience and outscore the competition." —Tiki Barber

Leaving India

My Family's Journey from Five Villages to Five Continents

HMH The PEN Award-winning chronicle of the Indian diaspora told through the stories of the author's own family. In this "rich, entertaining and illuminating story," Minal Hajratwala mixes history, memoir, and reportage to explore the collisions of choice and history that led her family to emigrate from India (San Francisco Chronicle). "Meticulously researched and evocatively written" (The Washington Post), Leaving India looks for answers to the eternal questions that faced not only Hajratwala's own Indian family but all immigrants, everywhere: Where did we come from? Why did we leave? What did we give up and gain in the process? Beginning with her great-grandfather Motiram's original flight from British-occupied India to Fiji, where he rose from tailor to department store mogul, Hajratwala follows her ancestors across the twentieth-century to explain how they came to be spread across five continents and nine countries. As she delves into the relationship between personal choice and the great historical forces—British colonialism, apartheid, Gandhi's salt march, and American immigration policy—that helped shape her family's experiences, Hajratwala brings to light for the very first time the story of the Indian diaspora. A luminous narrative from "a fine daughter of the continent, bringing insight, intelligence and compassion to the lives and sojourns of her far-flung kin," Leaving India offers a deeply intimate look at what it means to call more than one part of the world home (Alice Walker).

Biopolis

Patrick Geddes and the City of Life

MIT Press An examination of the work and influence of Scottish urban planner and theorist Patrick Geddes. The Scottish urbanist and biologist Patrick Geddes (1854-1932) is perhaps best known for introducing the concept of "region" to architecture and planning. At the turn of the twentieth century, he was one of the strongest advocates of town planning and an active participant in debates about the future of the city. He was arguably the first planner to recognize the importance of historic city centers, and his renewal work in Edinburgh's Old Town is visible and impressive to this day. Geddes's famous analytical triad—place, work, and folk, corresponding to the geographical, historical, and spiritual aspects of the city—provides the basic structure of this examination of his urban theory. Volker Welter examines Geddes's ideas in the light of nineteenth-century biology—in which Geddes received his academic training—showing Geddes's use of biological concepts to be far more sophisticated than popular images of the city as an organic entity. His urbanism was informed by his lifelong interest in the theory of evolution and in ecology, cutting-edge areas in the late nineteenth century. Balancing Geddes's biological thought is his interest in the historical Greek concept of polis, usually translated as city-state but implying a view of the city as a cultural and spiritual phenomenon.

Although Geddes's work was far-ranging, the city provided the unifying focus of nearly all of his theoretical and practical work. Throughout the book, Welter relates Geddes's theory of the city to contemporary European debates about architecture and urbanism.

Recent Advances

Springer Nature The series **Topics in Current Chemistry Collections** presents critical reviews from the journal **Topics in Current Chemistry** organized in topical volumes. The scope of coverage is all areas of chemical science including the interfaces with related disciplines such as biology, medicine and materials science. The goal of each thematic volume is to give the non-specialist reader, whether in academia or industry, a comprehensive insight into an area where new research is emerging which is of interest to a larger scientific audience. Each review within the volume critically surveys one aspect of that topic and places it within the context of the volume as a whole. The most significant developments of the last 5 to 10 years are presented using selected examples to illustrate the principles discussed. The coverage is not intended to be an exhaustive summary of the field or include large quantities of data, but should rather be conceptual, concentrating on the methodological thinking that will allow the non-specialist reader to understand the information presented. Contributions also offer an outlook on potential future developments in the field. The chapter "Mechanochemical Forces as a Synthetic Tool for Zero and One-Dimensional Titanium Oxide-Based Nano-photocatalysts" is available open access under a CC BY 4.0 License via link.springer.com.

Marketing Strategy In The Digital Age: Applying Kotler's Strategies To Digital Marketing

World Scientific The market changes faster than marketing. In essence, marketing strategy has undergone only two eras, the entity era and the bit era, also known as the industrial age and the digital age. In the age of digital society, all CEOs, CMOs and senior marketing executives must consider how to change their strategies, improve the role of marketing and adopt emerging technological and data tools to integrate with the Internet. The goal of digital marketing strategy is not to disrupt existing marketing strategies, but to complement, integrate and develop the two at the same time. In this book, the authors provide detailed discussion and practical analysis on the relationship between marketing and digital technologies and propose a marketing implementation framework for digital strategy platforms. Standing for Recognize, Reach, Relationship and Return, the 4R system is a powerful strategic trading tool for digital implementation, especially for CEOs and CMOs. All other tools, such as data platforms, content marketing, DSP digital advertising and digital marketing ROI design essentially serve the 4R system. As such, the authors advocate for firms to restructure their digital marketing strategy around the 4R system.

SAP HR TIME MANAGEMENT

TECHNICAL REFERENCE AND LEARNING GUIDE

PHI Learning Pvt. Ltd. This book explains all the concepts underpinning SAP's HR Time Management Module. It is a comprehensive technical manual which explains every single node of the User Menu and the Configuration. The book first gives an overview of a concept explaining what it is, how it is used and how it relates to the other concepts. It then explains its properties, which are fields in a configuration node. This book is designed to be used both as a reference manual and a learning guide. As a learning guide, it offers four views, each for a different target audience. • It can be read from the Senior Management's perspective to gain a broad understanding of the subject and what SAP can do for them. • Business Process Owners can achieve a higher level of understanding by getting to know more of

SAP concepts and how to perform different tasks in SAP. • Users can acquire a thorough understanding of different tasks and concepts underlying them. • Functional consultants and proficient users can read the book to gain a complete understanding of the system. As a technical reference, the book can be used to locate the relevant material through the Table of Contents, Index, 'SAP Menu' and 'SAP Customizing Implementation Guide (IMG)'. The last two follow the Table of Contents. If the reader is in SAP's User Menu or Configuration, the chapter number for these nodes can be found in 'SAP Menu' and 'IMG'. If a node is not covered in the book, the reason for not doing so is mentioned. The implementation of SAP HR Time Management and documentation can also be guided by the structure of this book.

A BETTER WORLD : There is a lot we can do to make our world a better world, just as we discover better ways to support our businesses. Read short articles inside on some of the ideas of World Integration and Improvement Initiative. World Government 691 World Language 693 Good Governance 699 City without Traffic Lights 705 SAP is a great software. One needs to fully understand its features in order to effectively exploit them for the benefit of customers. Mr. Agrawal's books on SAP HR have a unique approach. A chapter usually focuses on a single business concept, and discusses the user interface as well as its associated configuration. This logical division makes it easier for readers to understand the functionality. Another important feature of these books is the level of detail. Each screen and each field in a screen is explained. Explanation includes meaning, use case and in some cases guidelines. Details are balanced by overviews explaining the concepts and their relationships. While explaining functionality, Mr. Agrawal has taken efforts to highlight what can be done and how it is to be done. This is particularly important for less experienced users and consultants. Indicating chapter numbers against each menu and configuration item is a very useful innovation, as it establishes direct link between the SAP system and the book. Another useful feature is that these books can be read not only by consultants, but also by users, business process owners and even by senior managers. The importance of each topic for each category of users is specified. Mr. Agrawal has taken considerable pain in writing these books, and I congratulate Mr. Agrawal on his achievement and thank him for his contribution to the SAP community. K. An important aim of the guidelines is to help countries construct internationally comparable satellite accounts and thus, lead to improved cost-based measurement of human capital.

Information Technology in Developing Countries

Proceedings of the IFIP TC9/TC8 Working Conference on the Impact of Information Systems on Developing Countries, New Delhi, India, 24-26 November 1988

North Holland Many developing countries are waking up to the potential of information technology and the role it can play in accelerating the pace of development. This book reports on the situation in various countries, looking at the problems and at successful strategies, methodologies and procedures. The papers are organized in three sections. The first includes six papers which discuss a theoretical framework for developing and implementing information systems in a developing country context. The next section of five papers presents the country reports covering many aspects of computerization in these countries. The third section includes five papers which present a regional/comparative status of computer use in selected countries, three papers that deal with framework/specific applications in some sectors, and finally two papers focusing on the software industry and ergonomics.

Spatial Justice in the City

Routledge In the context of increasing division and segregation in cities across the world, along with pressing concerns around austerity, environmental degradation, homelessness, violence, and refugees, this book pursues a multidisciplinary approach to spatial justice in the city. Spatial justice has been central to urban theorists in various ways. Intimately connected to social justice, it is a term implicated in relations of power which concern the spatial distribution of resources, rights and materials. Arguably there can be no notion of social justice that is not spatial. Philippopoulos-Mihalopoulos has argued that spatial justice is the struggle of various bodies - human, natural, non-organic, technological - to occupy a certain space at a certain time. As such, urban planning and policy interventions are always, to some extent at least, about spatial justice. And, as cities become ever more unequal, it is crucial that urbanists address questions of spatial justice in the city. To this end, this book considers these questions from a range of disciplinary perspectives. Crossing law, sociology, history, cultural studies, and geography, the book's overarching concern with how to think spatial justice in the city brings a fresh perspective to issues that have concerned urbanists for several decades. The inclusion of empirical work in London brings the political, social, and cultural aspects of spatial justice to life. The book will be of interest to academics and students in the field of urban studies, sociology, geography, planning, space law, and cultural studies.
