### Hinduism and Christianity

**Springer** *A selection of themes from the two religions of Hinduism and Christianity, chosen to highlight the central concerns of both, while not neglecting their internal diversity and also maintaining a balance between doctrine and practice, in order to compare like with like. The themes addressed are the nature of the divine, divine interaction with mankind, authority and mediation, devotionism and personal piety, meditation and asceticism, social values and morality, and teleology; the final chapter then outlines the history of contact and dialogue between the two religions. Although the treatment is thematic, the process of historical development is given due attention.*

## Reading the Hindu and Christian Classics

## Why and How Deep Learning Still Matters

**University of Virginia Press** *We live in an era of unprecedented growth in knowledge. Never before has there been so great an availability of and access to information in both print and online. Yet as opportunities to educate ourselves have greatly increased, our time for reading has significantly diminished. And when we do read, we rarely have the patience to read in the slow, sustained fashion that great books require if we are to be truly transformed by them. In *Reading the Hindu and Christian Classics*, renowned Harvard Divinity School professor Francis Clooney argues that our increasing inability to read in a concerted manner is particularly notable in the realm of religion, where the proliferation of information detracts from the learning of practices that require slow and patient reading. Although awareness of the world's many religions is at an all-time high, deep knowledge of the various traditions has suffered. Clooney challenges this trend by considering six classic Hindu and Christian texts dealing with ritual and law, catechesis and doctrine, and*

devotion and religious participation, showing how, in distinctive ways, such texts instruct, teach truth, and draw willing readers to participate in the realities they are learning. Through readings of these seminal scriptural and theological texts, he reveals the rewards of a more spiritually transformative mode of reading—and how individuals and communities can achieve it.

## The Routledge Handbook of Hindu-Christian Relations

**Routledge Handbooks in Religion** *The tension between the two historical realities, Hinduism as an ancient Indian religion and Christianity as a religion associated with foreign power and colonialism, continues to animate Hindu-Christian relations today. On the one hand, The Routledge Handbook of Hindu-Christian Relations describes a rich history of amicable, productive, even sometimes syncretic Hindu-Christian encounters. On the other, this handbook equally attends to historical and contemporary moments of tension, conflict, and violence between Hindus and Christians. Comprising thirty-nine chapters by a team of international contributors, this handbook is divided into 7 parts: Theoretical and Methodological Considerations Historical Interactions Contemporary Exchanges Sites of Bodily and Material Interactions Significant Figures Comparative Theologies Responses The handbook explores: how the study of Hindu-Christian relations has been and ought to be done, the history of Hindu-Christian relations through key interactions, ethnographic reflections on current dynamics of Hindu-Christian exchange, important key thinkers, and topics in comparative theology, ultimately providing a framework for further debates in the area. The Routledge Handbook of Hindu-Christian Relations is essential reading for students and researchers in Hindu-Christian studies, Hindu traditions, Asian religions and studies in Christianity. This Handbook will also be very useful for those in related fields, such as anthropology, political science, theology and history.*

## The Relation of Christianity to Hinduism

*The Relation of Christianity to Hinduism by Robert Caldwell first published in 1885. The following paper "On Foreign Missions, especially in relation to the Oriental Systems of Religion," was read at the Brighton Congress in 1874. The Appendix was added subsequently. Robert Caldwell (7 May 1814 - 28 August 1891) was a missionary for London Missionary Society. He arrived in India at age 24, studied the local language to spread the word of Bible in a vernacular language, studies that led him to author a text on comparative grammar of the South Indian languages. The Government of Tamil Nadu has created a memorial in his honor and a postage stamp has been issued in his name.*

# All about Hinduism

## Hinduism as a Missionary Religion

**SUNY Press** *Reconsiders whether Hinduism can be considered a missionary religion. Is Hinduism a missionary religion? Merely posing this question is a novel and provocative act. Popular and scholarly perception, both ancient and modern, puts Hinduism in the nonmissionary category. In this intriguing book, Arvind Sharma reopens the question. Examining the historical evidence from the major Hindu eras, the Vedic, classical, medieval, and modern periods, Sharma's investigation challenges the categories used in current scholarly discourse and finds them inadequate, emphasizing the need to distinguish between a missionary religion and a proselytizing one. A distinction rarely made, it is nevertheless an illuminating and fruitful one that resonates with insights from the comparative study of religion. Ultimately concluding that Hinduism is a missionary religion, but not a proselytizing one, Sharma's work provides us with insights both about Hinduism and about religion in general. Sharma is a prolific author who has made significant contributions to Hindu studies Readers will gain insight from Sharma's careful inquiry.* CHOICE

## Jesus as Guru

## The Image of Christ Among Hindus and Christians in India

**Rodopi** *People in India form images of Jesus Christ that link up with their own culture. Hindus have given Jesus a place among the teachers and gods of their own religion, seeing in his life something of the wisdom and mysticism that is so central to Hinduism. Christians in India also make use of the concepts provided by Hinduism when they wish to express the meaning of Christ. Thus, in any case, Jesus is--for Hindus and Christians--a guru, a teacher of wisdom who speaks with divine authority. But for many Hindu philosophers and Christian theologians there is much more that can be said about him within the Indian framework. He can be described as an avatara, a divine descent, or linked to the Brahman, the all-encompassing Reality. This study looks at both Hindu and Christian views of Christ, starting with that of the*

*Hindu reformer Rammohan Roy at the beginning of the nineteenth century, as well as those of the first Christian theologians of India. The views of Mahatma Gandhi and the monks of the Ramakrishna Mission are discussed, and those of influential Christian schools such as the Ashram movement and dalit theology. **CreateSpace** *WHAT EVERY HINDU SHOULD KNOW ABOUT CHRISTIANITY leverages cutting-edge scholarly researches in textual criticism and cognitive sciences to arrive at a reasonable understanding of Christian beliefs. The findings it presents reveal a hitherto unknown face of Christianity to the rational Hindu. ## Parallel Teachings in Hinduism and Christianity

## Hindu-Christian Dialogue

# Theological Soundings and Perspectives

**BRILL** *Dialogue is an integral part of the mission of the Christian church. The immensity of the ocean of Hindu doctrine and thought presents a significant obstacle to Christians who have been invited by the Roman Catholic Church to "scrutinize the divine Mystery" present in other religions. Many, fascinated by Hindu mysticism, confuse permanent Hindu beliefs with certain current Western religious movements. India's quest for the divine embodies multiple forms. Its millennia-old methods of meditation and varieties of asceticism often confuse those who are less inclined to experience of an inner spiritual nature. This book attempts to address some of these difficulties and questions. It is the author's belief that in the Hindu-Christian encounter the Christian believer will also rediscover the originality and newness of the Christian revelation, viz. the intervention of God in the history of salvation*

whereby God reveals his salvific love in Jesus Christ. Possessing expert knowledge of both Hinduism and Christianity, the author approaches the Hindu-Christian dialogue with sympathy and discernment.

## Engaging with Hindus

Hindus represent the third largest faith in the world, and yet many Christians know very little about their beliefs and lifestyle. This short book is designed to help both Christians and whole churches understand more about Hindus, and to reach out to them with the good news of the gospel. Both practical and warm, this book shows that every Christian is able to share their faith with Hindu friends and neighbors.

## A Comparative Study of Religions

**Motilal Banarsidass Publ.** *This book has been written by a scholar who has occupied himself with the subject of religion for over fifty years. But no finality can be claimed. The reason is that religion deals with what is transcendent, in the sense that it deals with what man is going to be. Advaitism terms this futuristic end as becoming Brahman. However, Bergson and other evolutionists would say that religion is a collective and cooperative effort of men to become gods. This simply means the divinising of man what Aurobindo calls super-mind. The terms gods and supermind are vague and imprecise. They refer to a state beyond human ills, beyond human infatuation and beyond the befogging of human intellect. One thing is clear that fighting with other human beings in the name of religion is sub-human. As religious men we are fellow-travellers in the direction of the realm of spirit. Here the nomenclature of Hindus, Muslims, Christians, etc., ceases to be meaningful. Hence, the religion of man to which we are looking forward is not so much in the past as it is yet to be. Of course, we have to go very far and we have not made any beginning yet. However, at present the advaitic principle of differenceless Brahman can serve the purpose of harmonizing all religions. Here this principle has been adopted and key-concepts of different religions have been shown to mingle into one another.*

**Prabhat Prakashan** Gandhiji was born a Hindu. But his Hinduism was his own. It had its roots firm in ancient Hinduism, but it grew and developed in the light of his contact with other religions, more especially Christianity, as will be seen from Section Two of this volume. He sought to drink at the spring of all religions, and therefore he felt that he belonged to every religion. And yet, if he had to have a label, the label he preferred and which was his not only by right of birth but also intrinsically, was Hinduism, the religion of his forefathers.
