## Creatures of Old

**African Storybook** Ever wondered what the planet was like millions of years ago? What kind of creatures roamed the Earth? What trees grew in the prehistoric forests? Well, there is a way to find out—through palaeontology, a special science that is all about digging up and unscrambling clues to the past. # The Great Dinosaur Mystery and the Bible

**David C Cook** This classic book explains how dinosaurs fit into the biblical story of creation. Newly revised to reflect recent scientific findings.

# David Digs with the Dinosaur Hunter

**Capstone**

# Reimagining Dinosaurs in Late Victorian and Edwardian Literature

**Cambridge University Press** Reimagining Dinosaurs argues that transatlantic popular literature was critical for transforming the dinosaur into a cultural icon between 1880 and 1920

## Dinosaur Yoga

**Sounds True** An illustrated picture book offering a playful introduction to yoga through dinosaurs. The latest yoga picture book from bestselling author Mariam Gates introduces children to the joys and benefits of yoga—through dinosaurs! Triceratops, Pterodactyl, T-Rex, and others learn to bend, stretch, and breathe through a yoga flow. Instead of being sad, mad, or frustrated when things aren't going their way, the dinosaurs practice yoga to feel better. The book features a parents' guide to the depicted postures and a glossary of dinosaurs at the back. As the creator of the celebrated Kid Power Yoga, Gates knows that teaching children yoga sets them up for better habits of flexibility, fitness, and self-soothing. With Dinosaur Yoga, kids can stomp, stretch, and snort their way to skills that will serve them for a lifetime.

## Dinosaur Summer

**Open Road Media** "Certain to become a new classic of adventure beyond time . . . An unofficial sequel to Sir Arthur Conan Doyle's The Lost World" (Prehistoric Pulp). Fifty years after Professor Challenger's discovery of the Lost World, America's last dinosaur circus has gone bankrupt, leaving a dozen avisaur, centrosaur, ankylosaur, and one large raptor abandoned. Now a daring expedition plans to do the impossible: return the Jurassic giants to the wild. Two filmmakers, a circus trainer, a journalist, and a young Peter Belzoni must find a way to take the dinosaurs across oceans, continents, rivers, jungles, up a mountain that has been isolated for seventy thousand years . . . Then, if they make it, all they will do is face the prehistoric wonders, dangers, and terrors of the Lost World.

## Amazing Origami Dinosaurs

**Hungry Tomato** ® Bring your favorite dinosaurs to life with these exciting origami projects. Create a scary T. Rex, a mighty Diplodocus, and a spiky Stegosaurus. Step-by-step instructions guide readers through projects of varied difficulty, building visual-spatial reasoning skills and increasing the fun!

## Dino-Racing

**Lerner Digital**™ Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! In this installment of dino competition, meat eaters face off against plant eaters in three high-speed auto events: drag racing, off-road racing, and stock-car racing. Lisa Wheeler's rhymes explore thoughtful questions such as: Which dinosaurs would make the best chasers for support in a desert off-road race? Does T-Rex's king status transfer to the track? And can Diplodocus actually fit inside a stock car? Barry Gott's illustrations bring all the hilarious action to life.

## Carnotaurus and Other Odd Meat-

# Eaters

## The Need-To-Know Facts

**Capstone** "Text introduces young readers to odd meat-eating dinosaurs, including their physical characteristics, habitats, and diets"--

## The Adventures of Padma and a Blue Dinosaur

**Harper Collins** Padma and her grandmother, Labhuben, discover that the flatland their cows graze on is not just any ordinary flatland, but home to the dinosaurs that lived in India more than 65 million years ago. It gets more interesting as Palaeontologist Professor Rajan Dinkar, who Padma fondly calls Rock Uncle, reveals many secrets about their hometown, Rahioli, and even gifts her one of his most prized discoveries, a beautiful dinosaur egg. As Padma takes the egg home, little does she know that she would soon be setting off on the adventure of her life with Labhuben, Rock Uncle and a dinosaur called Bluethingosaurus. In an exciting mix of non-fiction and fiction, this book contains curious facts and insights about dinosaurs discovered in India, including:1. A colourful map showing the dinosaurs that have been discovered across India,2. Invaluable inputs from renowned Palaeontologists such as Dr Ashok Sahni and Suresh Srivastava,3. Illustrated fact sheets about the dinosaurs discovered in the Indian sub-continent, and4. An interview with the Dinosaur Princess of India, Aaliya Sultana Babi.

## Little Kids First Big Book Collector's Set

**National Geographic Children's Books** The First Big Book Collector's Set includes three volumes -- Animals; Dinosaurs; and Why? -- providing fascinating, level-appropriate facts alongside bright and colorful photographs and illustrations. Each book encourages interactivity, satisfies curiosity, and launches kids into a lifetime of exploration!

## Christmas!

**Dinosaur That Pooped** This rip-ROARING romp of a Christmas story features a boy, one very hungry dinosaur and lots of POO!!!! Danny wants everything for Christmas. But what he gets is a dinosaur, a very hungry dinosaur. Danny's new dino eats up all of Christmas, but as we all know, what goes in must come out. Danny is about to have the most EXPLOSIVE Christmas of his life! There's poop, presents and prehistoric creatures in this festive feast!

# Dinosaur Bingo

Play bingo with a huge Giganotosaurus, a Pachycephalosaurus with its crash-helmet head, an armour-plated Stegosaurus, and many other fearsome dinosaurs--some familiar and some rather unusual--in this fun and engaging take on the classic game. Easy to play and full of weird and wonderful creatures, Dinosaur Bingo will engage and delight children for hours. It can be played with 3-8 people, making it the perfect game for dino-mad children and their families. Dinosaur Bingo contains 48 chips and a cardboard dino head to store them in, a game board, eight double-sided bingo cards, and Jurassic counters for you to mark up your card.

# Have You Seen My Dinosaur?

**Random House Books for Young Readers** How do you find a missing dinosaur who's large and green and likes to roar? When a little boy's dinosaur decides to play hide-and-seek, he is surprisingly difficult to track down. Veteran illustrator Joe Mathieu's dinomite illustrations and Jon Surgal's saur-ing verse will have kids roaring with laughter as they romp through this funny rhyming Beginner Book. Originally created by Dr. Seuss, Beginner Books encourage children to read all by themselves, with simple words and illustrations that give clues to their meaning.

# Allosaurus and Its Relatives

## The Need-to-know Facts

**Capstone** "Text introduces young readers to dinosaurs related to Allosaurus, including their physical characteristics, habitats, and diets."--

# Adopting a Dinosaur

**Nube Ocho** Ali asks her parents for a pet: a dog, a cat, an elephant, a giraffe... But... but... what about a dinosaur?

# Dinosaurs

## A Concise Natural History

**Cambridge University Press** The ideal textbook for non-science majors, this lively and engaging introduction encourages students to ask questions, assess data critically and think like a scientist. Building on the success of the previous editions, Dinosaurs has been reorganised and extensively rewritten in response to instructor and student feedback. It continues to make science accessible and relevant through its clear explanations and extensive illustrations. Updated to reflect recent fossil discoveries and to include new taxa, the text guides students through the dinosaur

groups, emphasising scientific concepts rather than presenting endless facts. It is grounded in the common language of modern evolutionary biology - phylogenetic systematics - so that students examine dinosaurs as professional paleontologists do. The key emerging theme of feathered dinosaurs, and the many implications of feathers, have been integrated throughout the book, highlighted by the inclusion of stunning new photographs in this beautifully illustrated text, now in full colour throughout.

## Dinosaurs

# Meet the Giants of the Prehistoric World

**Discovery Kids** This fantastic new title is a brilliant addition to your family, offering a concise and useful guide. The stunning images and cutaway illustrations take you on a fantastic visual journey. Includes amazing dinosaur facts, figures, and diagrams that really bring the prehistoric world to life!

## The Dinosaurs Book and Other Prehistoric Life

Everything you need to know about dinosaurs, pterosaurs, marine reptiles, and mammals in this stunning prehistoric encyclopedia for kids. With more than 1,000 images and fascinating facts, The Dinosaur Book brings young readers face-to-face with some of the most incredible creatures ever to exist. Using a range of full-colour images, including spectacular fossilised bones and realistic digital reconstructions, all forms of prehistoric life are covered. The Dinosaur Book includes important, recent prehistoric finds such as the amazing discovery of a 110 million-year-old dinosaur named Nodosaur as well as some of the remarkable feathered dinosaurs recently unearthed in China! Young readers can find out too, about the latest scientific discoveries that have changed the way we see these fascinating prehistoric animals - from new feathered dinosaurs to how and where they lived.

## The Dog That Dug for Dinosaurs

**Simon and Schuster** There once was a little dog named Tray. He lived in England with his owner, Mary Ann Anning. Besides Mary Ann, Tray loved one other thing: He loved to dig for dinosaur bones. Together he and Mary Ann found small bones, big bones, and even entire skeletons! People came from all around the world to see the bones they found. This is the honestly true story of Tray, the dog that dug for dinosaurs.

# The Dinosaur's Diary

**Penguin UK** All fans of Julia Donaldson's should read the enchanting tale of The Dinosaur's Diary. Surviving and finding a safe place to lay her eggs is difficult for Hypsilophodon with dinosaurs like Tyrannosaurus Rex around. When she falls into a mysterious pool and finds herself on a modern farm there are still problems. Finally she finds a safe place to hatch her babies, but how can she keep thirteen baby dinosaurs safe and secret? When the farmer catches one - Hector - and plans to take him to the vet, it's up to Hypsilophodon and her feisty daughter, Henrietta, to get him back. After a daring rescue, Hypsilophodon takes all her youngsters back through the mysterious pool to her own world. \*\*\*A perfect read-aloud book for children age 7+\*\*\* \*\*\*Julia Donaldson is one of today's most loved children's book authors\*\*\* Julia Donaldson has a fast-growing reputation as a children's writer. She won the Smarties Prize and the Blue Peter Award for The Gruffalo, illustrated by Axel Scheffler. Since then, Julie and Axel have collaborated on a number of highly successful and award-winning picture books, including The Gruffalo's Child and Room on the Broom. Julia lives in Glasgow. 'Donaldson's flair for a good story extends way up the age-scale' The Times 'canters along, full of fun and energy' The Scotsman Visit [www.juliadonaldson.co.uk](http://www.juliadonaldson.co.uk) for

## Dinosaurs

**Simon and Schuster** Simple text and lifelike color photos introduce inhabitants of the prehistoric world.

# Danny and the Dinosaur: School Days

**HarperCollins** Why don't dinosaurs go to school? In Danny and the Dinosaur: School Days, the dinosaur gets curious and follows his friend Danny to school! But Danny's buddy is too big to ride the school bus, and school lunch isn't quite right for a dinosaur... So, he decides to do school his own way—dino style—and it turns out to be the best class ever! Readers first fell in love with Danny and his prehistoric pal in the I Can Read classic Danny and the Dinosaur, created by Syd Hoff in 1958. Now the popular pair is together again in this hilarious school-day adventure sure to win over a new generation of beginning readers. Danny and the Dinosaur: School Days is a Level One I Can Read, which means it's perfect for children learning to sound out words and sentences.

## How to Catch a Dinosaur

Within these pages kids will uncover the facts about dinosaur history from the Creation to recent discoveries. Let Ken Ham take you on a journey through time to explore these awesome wonders of God's design. From where dinosaurs lived to what scientists assume they know about these great creatures, dinosaurs have never been this exciting, revealing and simply amazing! The 7 Fs of dinosaur history: formed, fearless, fallen, flood, faded, found, fiction.

## Dinosaur Farm!

**Penny Dale's Dinosaurs** They've built, they've zoomed, they've rescued, they've flown into space and they've even fought off baddy pirates, but now our dynamic team of dinosaurs have moved to pastures new - literally - working hard on the Dinosaur Farm! Join them as they plough the stony soil, feed the sheep, cut the corn in a combine harvester and much more! But what are they preparing all their animals and crops for? And where are they travelling to in their tractor? Why, it's a farm show! But will they win the grand prize?--Provided by publisher.

## Dinosaur Paleobiology

**John Wiley & Sons** The study of dinosaurs has been experiencing a remarkable renaissance over the past few decades. Scientific understanding of dinosaur anatomy, biology, and evolution has advanced to such a degree that paleontologists often know more about 100-million-year-old dinosaurs than many species of living organisms. This book provides a contemporary review of dinosaur science intended for students, researchers, and dinosaur enthusiasts. It reviews the latest knowledge on dinosaur anatomy and phylogeny, how dinosaurs functioned as living animals,

and the grand narrative of dinosaur evolution across the Mesozoic. A particular focus is on the fossil evidence and explicit methods that allow paleontologists to study dinosaurs in rigorous detail. Scientific knowledge of dinosaur biology and evolution is shifting fast, and this book aims to summarize current understanding of dinosaur science in a technical, but accessible, style, supplemented with vivid photographs and illustrations. The Topics in Paleobiology Series is published in collaboration with the Palaeontological Association, and is edited by Professor Mike Benton, University of Bristol. Books in the series provide a summary of the current state of knowledge, a trusted route into the primary literature, and will act as pointers for future directions for research. As well as volumes on individual groups, the series will also deal with topics that have a cross-cutting relevance, such as the evolution of significant ecosystems, particular key times and events in the history of life, climate change, and the application of a new techniques such as molecular palaeontology. The books are written by leading international experts and will be pitched at a level suitable for advanced undergraduates, postgraduates, and researchers in both the paleontological and biological sciences. Additional resources for this book can be found at: <http://www.wiley.com/go/brusatte/dinosaurpaleobiology>.

## The Dinosaur Four

**CreateSpace** They came for the coffee and wound up in the Cretaceous. A ticking sound fills the air as Tim MacGregor enters The Daily Edition Cafe, hoping to meet his new girlfriend for coffee. Moments later, a chunk of building is transported 67 million years back in time, along with everyone inside. Ten unlikely companions find themselves in a world of dinosaurs and prehistoric reptiles. Several survivors compete for leadership as they search for a way home, while one member of the group plots to keep them all trapped in the past..."

## The Complete Book of Dinosaurs
