#### THE SOLUTION REVOLUTION

#### HOW BUSINESS, GOVERNMENT, AND SOCIAL ENTERPRISES ARE TEAMING UP TO SOLVE SOCIETY'S TOUGHEST PROBLEMS

**Harvard Business Press** Government Alone Can't Solve Society's Biggest Problems World hunger. Climate change. Crumbling infrastructure. It's clear that in today's era of fiscal constraints and political gridlock, we can no longer turn to government alone to tackle these and other towering social problems. What's required is a new, more collaborative and productive economic system. The Solution Revolution brings hope—revealing just such a burgeoning new economy where players from across the spectrum of business, government, philanthropy, and social enterprise converge to solve big problems and create public value. By erasing public-private sector boundaries, the solution economy is unlocking trillions of dollars in social benefit and commercial value. Where tough societal problems persist, new problem solvers are crowdfunding, ridesharing, app-developing, or impact-investing to design innovative new solutions for seemingly intractable problems. Providing low-cost health care, fighting poverty, creating renewable energy, and preventing obesity are just a few of the tough challenges that also represent tremendous opportunities for those at the vanguard of this movement. They create markets for social good and trade solutions instead of dollars to fill the gap between what government can provide and what citizens need. So what drives the solution economy? Who are these new players and how are their roles changing? How can we grow the movement? And how can we participate? Deloitte's William D. Eggers and Paul Macmillan answer these questions and more, and they introduce us to the people and organizations driving the revolution—from edgy social enterprises growing at a clip of 15 percent a year, to megafoundations, to Fortune 500 companies delivering social good on the path to profit. Recyclebank, RelayRides, and LivingGoods are just a few of the innovative organizations you'll read about in this book. Government cannot handle alone the huge challenges facing our global society—and it shouldn't. We need a different economic paradigm that can flexibly draw on resources, combine efforts, and create value, while improving the lives of citizens. The Solution Revolution shows the way.

#### BUSINESS AND INVESTMENTS IN ASIA

#### NEW CHALLENGES, NEW OPPORTUNITIES

**ESIC Editorial** Today's globalization is changing the gravity center of Business on a worldwide basis. The classic triangle New York-London-Paris has been substituted by new strategic axis located in emerging nations. Asian countries are changing the dimensions of international trade and investments from a Global perspective. Locations like the Strait of Malacca in Malaysia or APEC will become extremely strategic in trade and commerce for the next 20 years and the most relevant demographic growth will be located in Asian nations. Asia is moving quickly and it does it in the right direction. Governments are facilitating investment processes to local and foreign companies. Not only China and India must be taken into consideration, other new "Challengers" are increasing very rapidly (Vietnam, Thailand or Malaysia), which, despite some internal problems like lack of democratic maturity and transparency, show very admirable values in Business activities. Social order, respect, family orientation or hard work are some of these assets. This book offers an "in-depth" analysis of ten Asian nations (China, Cambodia, Vietnam, Japan, Laos, South Korea, Singapore, Thailand, India and Hong Kong) in order to help western managers and investors to do Business efficiently in this dynamic economic region. La globalización actual está cambiando el centro de gravedad de los negocios en todo el mundo. El clásico triángulo York-Londres-París ha sido sustituido por un nuevo eje estratégico localizado en los países emergentes. Los países asiáticos están cambiando las dimensiones del comercio internacional y las inversiones desde una perspectiva global. Lugares como el Estrecho de Malacca en Malasia o en APEC se convertirá en un alto valor estratégico en el comercio para los próximos 20 años y el crecimiento demográfico más relevante se encuentra en los países asiáticos. Asia se está moviendo rápidamente, y lo hace en la dirección correcta. Los gobiernos están facilitando los procesos de inversión a las empresas locales y extranjeras. No sólo China e India deben ser tenidos en cuenta, otros nuevos "rivales" están creciendo muy rápidamente (Vietnam, Tailandia o Malasia), que, a pesar de algunos problemas internos como la falta de madurez democrática y la transparencia, muestran valores muy admirables en los negocios. Orden social, el respeto, la orientación de la familia o el trabajo duro son algunos de estos activos. Este libro ofrece un profundo análisis de diez países asiáticos (China, Camboya, Vietnam, Japón, Laos, Corea del Sur, Singapur, Tailandia, India y Hong Kong) con el fin de ayudar a los directivos e inversores occidentales para hacer negocios de manera eficiente en esta dinámica región económica. INDEX Brief Introduction.- Acknowledgements.- Investments and Business in China.- Investments and Business in Cambodia .- Investments and Business in Vietnam.- Investments and Business in Japan.- Investments and Business in Laos.- Investments and Business in South Korea.- Investments and Business in Singapore.- Investments and Business in Thailand.- Investments and Business in India.- Investments and Business in Hong Kong.

#### DISTRIBUTION OF INSURANCE-BASED INVESTMENT PRODUCTS

#### THE EU REGULATION AND THE LIABILITIES

**Springer** The book addresses a topic at the intersection of two heavily regulated sectors: insurance and investment services. Until recently, scholars and professionals have approached insurance and investment services as two separate categories in the financial services sector, and as being governed by separate regulatory frameworks. In practice, however, the boundaries were and are blurred, a reality that regulators have begun to recognize and address in their more recent regulatory texts. The first part of the book approaches the new standards applicable to investment products based on insurance: insurance-based investment products (IBIPs). These rules are harmonized across the EU. The rationale behind this new definition is provided, together with a description of these products' limitations. The analysis addresses the new rules and explores the legal regime and relevant standards applicable to IBIPs. The organizational rules concerning the design and distribution of IBIPs are also examined, and the book highlights e.g. how these rules are inspired by the principles of conduct. In closing, the ADR systems are analysed, in order to ascertain whether or not they can offer an effective tool for settling disputes over these products. In turn, the second part focuses on the liability for distribution of IBIPs, which ranks as one of the most conspicuous and relatively new legal phenomena, but at the same time, represents an exceptionally important field of civil liability in today's world. Liability is still regulated at the national level. Thus, the four largest life insurance markets in the EU are considered, along with the largest emerging market for life insurance. The chapters on national laws also consider whether, and if so, how the new harmonized rules on IBIPs are being combined with those already in force in the jurisdictions considered. The goal is to determine whether the new rules are likely to change the doctrine and case law

approach to these products, or whether the European legislators' choices have no real impact on the protection of clients.

#### THE RESOLUTION OF INTERNATIONAL INVESTMENT DISPUTES

---

---

#### CHALLENGES AND SOLUTIONS

---

Eleven International Publishing This work deals with the current state of investment dispute resolution and analyzes the problems associated with investor-state arbitration. The author examines developments in the existing legal framework and looks at the mechanisms under existing domestic and international systems – such as judicial review and class actions – to see if these can be applied to investment dispute resolution. The author concludes that the features of traditional arbitration are not flexible enough to meet the needs of this modern form of international dispute resolution. Investment arbitration is now entering a new phase of its development. The traditional, typically arbitration-related issues of consent, privity, and confidentiality are making room for the now more important questions of disclosure, transparency, legal certainty, and consistency. The author calls for setting up a "model procedure," specifically created for international investment disputes as this would enable the establishment of a "tailor-made" process for this ever-growing area of law.

#### INTRODUCTION TO SUSTAINABILITY ANALYTICS

---

CRC Press The roles of corporate and public stewards and the nature of their social contract with society have been changing over the past two centuries, and those changes have accelerated in recent decades. Moreover, with increasing focus on sustainability factors from the marketplace (regulators, investors, financiers, and consumers), corporate sustainability disclosure is shifting from voluntary to vital. Corporate and public stewards are now responsible for their performance and services from cradle-to-grave: they must properly manage corporate social responsibility and integrate it into their global strategies, rather than consider it as merely a moral obligation or a risk/reputation management exercise. Sustainability analytics, the critical link between sustainability and business strategy, helps professionals track, trend, and transform sustainability information into actionable insights across the value chain and life cycle, to enhance their sustainability performance and its disclosure. This book, Introduction to Sustainability Analytics, provides corporate and public stewards with a comprehensive understanding of how to determine which sustainability metrics are material to them and relevant to their business, and how to incorporate them into corporate strategy, resource allocation, and prioritization. Focusing on practical decision-making needs, it explains how to value and prioritize initiatives, and how to best allocate necessary resources through several real case studies and practical examples. Features: Examines pressing issues such as climate change, water scarcity, and environmental justice Explains how to develop a business case and global strategy for social responsibility Includes both corporate and public policy perspectives on sustainability economics Covers emerging regulations on sustainability disclosure and responsible investing

#### THE GLOBAL EXPATRIATE'S GUIDE TO INVESTING

---

---

#### FROM MILLIONAIRE TEACHER TO MILLIONAIRE EXPAT

---

John Wiley & Sons Exploit your offshore status to build a robust investment portfolio Most of the world's 200 million expats float in stormy seas. Few can contribute to their home country social programs. They're often forced to fend for themselves when they retire. The Global Expatriate's Guide to Investing is the world's only book showing expats how to build wealth overseas with index funds. Written by bestselling author, Andrew Hallam, it's a guide for everyone, no matter where they are from. Warren Buffett says you should buy index funds. Nobel prize winners agree. But dangers lurk. Financial advisors overseas can be hungry wolves. They don't play by the same set of rules. They would rather earn whopping commissions than follow solid financial principles. The Global Expatriate's Guide To Investing shows how to avoid these jokers. It explains how to find an honest financial advisor: one that invests with index funds instead of commission paying windfalls. You don't want an advisor? Fair enough. Hallam shows three cutting edge index fund strategies. He compares costs and services of different brokerages, whether in the U.S. or offshore. And he shows every nationality how to invest in the best products for them. Some people want stability. Some want strong growth. Others want a dash of both. This book also answers the following questions: How much money do I need to retire? How much should I be saving each month? What investments will give me both strong returns, and safety? The Global Expatriate's Guide To Investing also profiles real expats and their stories. It shows the mistakes and successes that they want others to learn from. It's a humorous book. And it demonstrates how you can make the best of your hard-earned money.

#### THE FOUNDATIONS AND FUTURE OF FINANCIAL REGULATION

---

---

#### GOVERNANCE FOR RESPONSIBILITY

---

Routledge Financial regulation has entered into a new era, as many foundational economic theories and policies supporting the existing infrastructure have been and are being questioned following the financial crisis. Goodhart et al's seminal monograph "Financial Regulation: Why, How and Where Now?" (Routledge:1998) took stock of the extent of financial innovation and the maturity of the financial services industry at that time, and mapped out a new regulatory roadmap. This book offers a timely exploration of the "Why, How and Where Now" of financial regulation in the aftermath of the crisis in order to map out the future trajectory of financial regulation in an age where financial stability is being emphasised as a key regulatory objective. The book is split into four sections: the objectives and regulatory landscape of financial regulation; the regulatory regime for investor protection; the regulatory regime for financial institutional safety and soundness; and macro-prudential regulation. The discussion ranges from theoretical and policy perspectives to comprehensive and critical consideration of financial regulation in the specifics. The focus of the book is on the substantive regulation of the UK and the EU, as critical examination is made of the unravelling and the future of financial regulation with comparative insights offered where relevant especially from the US. Running throughout the book is consideration of the relationship between financial regulation, financial stability and the responsibility of various actors in governance. This book offers an important contribution to continuing reflections on the role of financial regulation, market discipline and corporate responsibility in the financial sector, and upon the roles of regulatory authorities, markets and firms in ensuring the financial health and security of all in the future.

### WORLD INVESTMENT REPORT 2020

---

#### INTERNATIONAL PRODUCTION BEYOND THE PANDEMIC

---

[United Nations](#) The 30th edition of the World Investment Report looks at the prospects for foreign direct investment and international production during and beyond the global crisis triggered by the COVID-19 (coronavirus) pandemic. The Report not only projects the immediate impact of the crisis on investment flows, but also assesses how it could affect a long-term structural transformation of international production. The theme chapter of the Report reviews the evolution of international production networks over the past three decades and examines the configuration of these networks today. It then projects likely course changes for the next decade due to the combined effects of the pandemic and pre-existing megatrends, including the new industrial revolution, the sustainability imperative and the retreat of laissez faire policies. The system of international production underpins the economic growth and development prospects of most countries around the world. Governments worldwide will need to adapt their investment and development strategies to a changing international production landscape. At the request of the UN General Assembly, the Report has added a dedicated section on investment in the Sustainable Development Goals, to review global progress and propose possible courses of action.

#### BUILDING COMMON INTERESTS IN THE ARCTIC OCEAN WITH GLOBAL INCLUSION

---

##### VOLUME 2

---

[Springer Nature](#) This book contains an inclusive compilation of perspectives about the Arctic Ocean with contributions that extend from Indigenous residents and early career scientists to Foreign Ministers, involving perspectives across the spectrum of subnational-national-international jurisdictions. The Arctic Ocean is being transformed with global climate warming into a seasonally ice-free sea, creating challenges as well as opportunities that operate short-to-long term, underscoring the necessity to make informed decisions across a continuum of urgencies from security to sustainability time scales. The Arctic Ocean offers a case study with lessons that are especially profound at this moment when humankind is exposed to a pandemic, awakening a common interest in survival across our globally-interconnected civilization unlike any period since the Second World War. This second volume in the Informed Decisionmaking for Sustainability series reveals that building global inclusion involves common interests to address changes effectively "for the benefit of all on Earth across generations."

#### GLOBAL ENVIRONMENT OUTLOOK - GEO-6: HEALTHY PLANET, HEALTHY PEOPLE

---

[Cambridge University Press](#) Published to coincide with the Fourth United Nations Environmental Assembly, UN Environment's sixth Global Environment Outlook calls on decision makers to take bold and urgent action to address pressing environmental issues in order to protect the planet and human health. By bringing together hundreds of scientists, peer reviewers and collaborating institutions and partners, the GEO reports build on sound scientific knowledge to provide governments, local authorities, businesses and individual citizens with the information needed to guide societies to a truly sustainable world by 2050. GEO-6 outlines the current state of the environment, illustrates possible future environmental trends and analyses the effectiveness of policies. This flagship report shows how governments can put us on the path to a truly sustainable future - emphasising that urgent and inclusive action is needed to achieve a healthy planet with healthy people. This title is also available as Open Access on Cambridge Core.

#### INVESTMENT COSTS AND POLICY ACTION OPPORTUNITIES FOR REACHING A WORLD WITHOUT HUNGER (SDG2). JOINT REPORT

---

[Food & Agriculture Org.](#) At the heart of the 2030 Agenda was a promise to prioritize two objectives: to eradicate poverty and end hunger and malnutrition in all their forms. While global hunger, measured by the prevalence of undernourishment, had been on the decline, the absolute number of hungry people remained very high. In response, heads of states at the G7 Summit in Elmau in 2015 committed to lift 500 million people out of hunger and malnutrition by 2030 as part of a broader effort undertaken with partner countries to support the 2030 Agenda for Sustainable Development, i.e. Sustainable Development Goal (SDG 2) to end hunger and malnutrition by 2030. Nevertheless, the number of undernourished people in the world kept rising, from 653 million people in 2015 to 690 million people in 2019, highlighting the challenge of achieving the goal of Zero Hunger and malnutrition by 2030. This study reviews the food security situation and change therein in light of recent developments, including COVID-19. It also analyses to which extent G7 countries responded to the challenge and their commitment in terms of development assistance and outlines promising investment opportunities to meet the 2030 targets.

#### ORGANIZING CORPORATE AND OTHER BUSINESS ENTERPRISES 6TH EDITION

---

**LexisNexis** Organizing Corporate and Other Business Enterprises is a one-volume treatise detailing the various aspects of setting up small business enterprises. Among the business entities discussed are individual proprietorships, general and limited partnerships, closely held corporations, not-for-profit corporations, and limited liability companies. Tax, financing, and management considerations are reviewed. The publication covers much more than the title indicates--it deals not just with organizing business enterprises but also with selected, tangential problem areas--e.g., fiduciary obligations of officers and directors, managing risk, employee benefits, etc. This publication is a practice guide to legal and tax factors to be considered in selecting a form of business organization. It is intended for the attorney who is advising proposed or existing small businesses. Organizing Corporate and Other Business Enterprises provides assistance from the inception of an enterprise through the death of the owners or the termination of the enterprise. Coverage includes: strong federal tax analysis, which is especially important for choice of entity classification, including S corporations; corporate domicile; promoter's rights; and initial capitalization. • Updated annually. • First published in 1949. • Revised Sixth Edition published in 1998.

#### FRONTIER CAPITAL MARKETS AND INVESTMENT BANKING

---

---

##### PRINCIPLES AND PRACTICE FROM NIGERIA

---

**Routledge** This book discusses the role of capital markets and investment banking in Nigeria, the largest frontier market economy in the world by both population size and gross domestic product. Offering a systematic framework combining conceptual principles with real practice, the book enables the reader to gain useful insight into how capital markets and investment banking work in the real world of a frontier market. The book provides a synopsis of the economic attractiveness, financial systems intermediation and capital markets, as well as the regulatory framework within a frontier market. It explores capital raising through equity and underwriting and private equity, paying particular attention to putting capital to work on mergers and acquisitions, project and infrastructure finance and real estate finance. Furthermore, it analyses asset management, pension industry and securities trading in a frontier market. The authors use detailed case studies from Nigeria to illustrate the operations of investment banking in frontier markets. The cases, tables and charts serve as useful illustrations of the topics under discussion. With the authors' combined experience of more than 50 years as economists, finance and investment professionals and in executive leadership positions in the financial services industry, this book will interest the academic community, professionals in the financial industry, retail and institutional investors interested in frontier markets, development practitioners in international organizations and policy makers including securities and capital market regulators.

#### MOBILIZING PRIVATE FINANCE FOR SUSTAINABLE DEVELOPMENT

---

**United Nations Development Programme Istanbul International Center for Private Sector in Development (UNDP IICPSD)** The proactive engagement of the private sector was critical to accelerate the achievement of the Millennium Development Goals (MDGs). Inevitably, private finance will become even more central in the concerted effort to achieve the Sustainable Development Goals (SDGs) due to their ambition. Private investment decisions in both the real economy and in the financial sector should move the world towards the aspirations set out in the 2030 agenda. This means going far beyond philanthropy and voluntary corporate social responsibility, important though they are. It is a matter of steering the investment decisions that private actors make every day. In the context of the Financing for Development debate, this discussion paper reflects on the latest trends and makes recommendations to: 1. Establish an enabling regulatory environment for the private sector to invest in the SDGs; 2. Introduce "Smart" public incentives to fasten the realignment of private finance to the SDGs; and 3. Foster change in company and consumer behaviours to transition to inclusive and sustainable markets.

#### I FOR IMPACT: BLENDING ISLAMIC FINANCE AND IMPACT INVESTING FOR THE GLOBAL GOALS

---

**United Nations Development Programme Istanbul International Center for Private Sector in Development (UNDP IICPSD) and Islamic Development Bank** The 2030 Agenda for Sustainable Development offers a masterplan to create a better world for the people and the planet. It's scale and ambition, however, requires new development partnerships supported by adequate financial and technical resources. As a response, development practitioners started to explore alternative and complementary innovative instruments to finance the SDGs -one of which is the prospects for increased cooperation and coordination between Islamic finance and impact investing. To date, however, the academic and development literature has lacked a systematic exploration of this promising collaboration between Islamic finance and impact investing. This present study attempts to fill this gap by developing the first knowledge product to increase awareness on this collaboration. I for Impact attempts to raise awareness on the compatibility between Islamic finance and impact investing. It reviews recent

developments and key factors for growth, pinpoints similarities between the two sectors, and makes policy recommendations for development actors to create the conditions for the two sectors to benefit from each other.
