## Asian Muslim Women

## Globalization and Local Realities

**State University of New York Press** Presents multifaceted aspects of Asian Muslim women's lives and agencies. This book resists the homogenization of Muslim women by detailing the diversity in their lives and by challenging the dominant paradigm of Arabized Islam as the sole interpreter of the faith. Though much has been written on the Middle East, there is a huge gap in research on Asia, which has two-thirds of the world's Muslim population. These essays reveal that the lives of Muslim women are impacted not only by Islam but also by local politics, class, religion, and ethnicity. Through ethnographic research and other methodologies, the contributors describe how economic globalization, construction of sexualities, and diasporic expectations shape women's lives. The book focuses on women's negotiations and resistances to global, national, and local patriarchies in an attempt to empower themselves. Huma Ahmed-Ghosh is Professor of Women's Studies at San Diego State University and the editor of *Contesting Feminisms: Gender and Islam in Asia*, also published by SUNY Press.

## Elizabeth the Queen

**Random House (UK)** In her highly praised *The Six Wives of Henry VIII* and its sequel, *Children of England*, Alison Weir examined the private lives of the early Tudor kings and queens, and chronicled the childhood and youth of Elizabeth I. This book begins as the young Elizabeth ascends the throne in the wake of her sister Mary's disastrous reign. Elizabeth is portrayed as both a woman and a queen, an

extraordinary phenomenon in a patriarchal age. Alison Weir writes of Elizabeth's intriguing, long-standing affair with Robert Dudley, Earl of Leicester; of her dealings — sometimes comical, sometimes poignant — with her many suitors; of her rivalry with Mary, Queen of Scots; and of her bizarre relationship with the Earl of Essex, thirty years her junior. Rich in detail, vivid and colourful, this book comes as close as we shall ever get to knowing what Elizabeth I was like as a person. From the Trade Paperback edition.

# The Girl and the Game

## A History of Women's Sport in Canada, Second Edition

**University of Toronto Press** In this new edition of her groundbreaking social history The Girl and the Game (2002), M. Ann Hall updates her lively narrative of how women resisted masculine hegemony in Canadian sport and, in turn, how their efforts were opposed and sometimes supported by men. The second edition of The Girl and the Game begins with an important new chapter on aboriginal women and their interaction with early sport and ends with a new chapter on how trends and issues facing contemporary women in Canadian sport have their origins in the past. Other new sections focus on gender and the residential school system, the promotion of women's track and field, the 1928 summer Olympics and the Matchless Six, and aboriginal sportswomen. As in the first edition, Hall introduces her audience to more obscure Canadian female athletes rather than focusing her discussion on household names. The introduction to the new edition has been updated to reflect the content changes in the narrative. To increase appeal to the course market, chapter titles are more descriptive, the text has been revised to include more subsections, and the 52 black and white images are placed throughout the text.

## The Global Horseracing Industry Social, Economic, Environmental, and Ethical Perspectives

**Routledge** Horseracing, thoroughbred breeding and gambling on racing are global industries worth several hundred billion dollars. They are also industries facing serious challenges, from the rise of alternative forms of leisure gambling to concerns about the ethical treatment of animals in all equestrian sports. This book offers a broad-ranging examination of the contemporary horseracing industry, from geographical, economic, social, ethical and environmental perspectives. The book draws on in-depth, mixed-method research into the racing and breeding industries in the US, Australia, the UK, Canada and New Zealand, and includes comparative

material on other key racing centres, such as Ireland, Singapore and Hong Kong. It explores the economic structure of the global racing business, including comparisons with other major international sport businesses and other equestrian sports. It examines the social and cultural roots of the sport through its association with, and impact on, rural places, communities and environments from Kentucky to Newmarket - highlighting racing's particular blend of tradition and scientific and technological innovation. The book also explores the ethical issues at the heart of horseracing, from reproduction to the use of the whip, and the inescapable tension between the horse as an instrumentally valuable commodity and the horse as an intrinsically valuable animal with needs and interests. The Global Horseracing Industry concludes by considering alternative futures for this major international sports business. The book is illuminating reading for anybody with an interest in sport, business, cultural geography, animal studies, or environmental studies.

## Coerced

### Work Under Threat of Punishment

**University of California Press** What do prisoner laborers, graduate students, welfare workers, and college athletes have in common? According to sociologist Erin Hatton, they are all part of a growing workforce of coerced laborers. Coerced explores this world of coerced labor through an unexpected and compelling comparison of these four groups of workers, for whom a different definition of "employment" reigns supreme—one where workplace protections do not apply and employers wield expansive punitive power, far beyond the ability to hire and fire. Because such arrangements are common across the economy, Hatton argues that coercion—as well as precarity—is a defining feature of work in America today. Theoretically forceful yet vivid and gripping to read, Coerced compels the reader to reevaluate contemporary dynamics of work, pushing beyond concepts like "career" and "gig work." Through this bold analysis, Hatton offers a trenchant window into this world of work from the perspective of those who toil within it—and who are developing the tools needed to push back against it.

## Mega-event Cities: Urban Legacies of Global Sports Events

**Routledge** Mega-events represent an important moment in the life of a city, providing a useful lens through which we may analyse their cultural, social, political

and economic development. In the wake of the International Olympic Committee's (IOC's) concerns about 'gigantism' and wider public concerns about rising costs, it was imperative in the C21st to demonstrate the long term benefits that arose for the city and nations from hosting premier sporting events. 'London 2012' was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered. London proposed an ambitious programme of urban renewal for East London. Subsequent host city bids have adopted the 'legacy narrative' and, as this book demonstrates, aligned this to major schemes of urban development and renewal. Bringing together scholars, practitioners and policy makers, this book focuses upon the legacies sought by cities that host major sports events. It analyses how governments, the IOC and others define and measure 'legacy'. It also focuses upon the challenges and opportunities facing future host cities of mega-events, looking at their aspirations and the intended impact upon their domestic and international development. It questions what the global shift in geographical location of mega-events means for sports development and the business of sport, what the attractions are for cities seeking to harness the hosting of a mega-event, and whether there may be longer term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup (2014) and the summer Olympics (2016) and in Turkey, where there was significant opposition to bid for the 2020 summer Olympiad.
