The Mommy Psychologist The Child Psychologist Who Thought She Had All the Answers to Parenting Until She Became One Herself Createspace Independent Pub Just like A Girlfriend's Guide to Pregnancy is the must-have book for any pregnant woman, The Mommy Psychologist is the must-have book for any new mother. If you are a mother, a mother-to-be, or thinking about becoming a mother then you must read this book. Grab a cup of coffee or a glass of wine and get ready to learn the real deal on motherhood. The stuff none of the other parenting books tell you. You might be surprised to learn that after natural childbirth, your vagina will look like Mike Tyson went nine rounds on it or that breastfeeding on the toilet cures constipation. The Mommy Psychologist is not another prescriptive, how-to guide on parenting. The last thing we need is another parenting book lining the shelves promising parental success if we apply the correct mathematical formula to our babies. It's narrated by a Child Psychologist who thought she had all the answers to parenting until she became one herself. She exposes her faults unapologetically in an account that is both hilarious and heartbreaking. She makes sense of the emotional extremes of motherhood and shows how seemingly contradictory emotions about motherhood can co-exist. Each chapter tackles a specific parenting topic ranging from dealing with infant sleep problems to dispelling some of the common myths associated with autism. The Mommy Psychologist doesn't give mothers the illusion that if they apply certain steps to a problem they will get a specific result. Instead, mothers are encouraged to view parenting through the lens of self empowerment and suggestions are provided to help them use the information they have at their disposal, but mostly, to feel better about themselves. Mothers are urged to do what feels right for them in any given parenting situation. It is written with a voice that marries education with the practical experience only gained through the act of being a mother. Slave Stealers True Accounts of Slave Rescues: Then and Now Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
