

Read Free Pdf Moment Kellens

When people should go to the book stores, search initiation by shop, shelf by shelf, it is in reality problematic. This is why we provide the book compilations in this website. It will agreed ease you to look guide **Pdf Moment Kellens** as you such as.

By searching the title, publisher, or authors of guide you essentially want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you direct to download and install the Pdf Moment Kellens, it is very easy then, past currently we extend the colleague to buy and make bargains to download and install Pdf Moment Kellens appropriately simple!

KEY=MOMENT - HUNTER ASHLEY

I Am Elle A Psychological Thriller An abused girl's desperate fight for survival and the silent killer determined to destroy her.Born on a small farm in Alabama, Elenore Griffin spends her days in a Hell of her father's making.The system has failed her, leaving her trapped in a world of unimaginable torture and pain.Sold to the highest bidder, Elenore finds her nightmares have only just begun. And those responsible for her abuse begin disappearing around her without a trace, while the local authorities seem to be at the center of it all.Step inside the world of a young girl who suffered the most heinous acts imaginable. And survived.This is her life. This is her story? Kellen's Tempting Mate Iron Wolves MC 3 [Createspace Independent Publishing Platform](#) Kellen's Tempting Mate Iron Wolves Book 3 A NOT SO NAIVE SHE-WOLF: Laikyn O'Neil has loved Kellen for years. Thinking to prove her love, she sets out to learn how to be a good submissive, only to find herself needing a savior. THE RELUCTANT ALPHA: When Kellen Styles finds Laikyn in the last place he expected, he rides to her rescue, but then can't stop his dominant needs from taking over. Sure that he has moved too soon, he backs off to give Laikyn time to come to terms with the fact that they are mates. Instead she leaves, thinking he didn't want her. AN UNDENIABLE BOND: Kellen is determined to claim his tempting mate and earn her forgiveness, and nothing and no one will stand in his way. When their world is suddenly rocked off its axis by vampires, fey and more, their pack will have to unite with these strangers in order to defeat the beings that threaten those they love. Elle Boon blew me away with this latest installment in her Iron Wolves series. The story starts out hitting hard and fast and doesn't let up until the very end. Book Chick Blog Reviews Kellen's Tempting Mate wasn't exactly what I was expecting ... it was more. It was fast paced and original and we were constantly wondering exactly what would happen next. But, most of all, it was fun watching Kellen truly fall and Laikyn catching him. Guilty Pleasures Reviews " Web Metrics Proven Methods for Measuring Web Site Success [John Wiley & Sons](#) There now exists a wealth of tools and techniques that can determine if and how a Web site is providing business value to its owners. This book is a survey of those metrics and is as important to IT executives as it is to marketing professionals. Jim Sterne is recognized worldwide as a leading Internet business expert and is the author of several Wiley books, including WWW Marketing, Third Edition (0-471-41621-5) Explains the criteria for building a successful site, surveying the tools, services, techniques, and standards for Web measurement, and fully integrating those metrics with the customer experience Companion Web site contains links to online tools, resources, and white papers Mathematical Foundations of Computer Networking [Addison-Wesley](#) "To design future networks that are worthy of society's trust, we must put the 'discipline' of computer networking on a much stronger foundation. This book rises above the considerable minutiae of today's networking technologies to emphasize the long-standing mathematical underpinnings of the field." -Professor Jennifer Rexford, Department of Computer Science, Princeton University "This book is exactly the one I have been waiting for the last couple of years. Recently, I decided most students were already very familiar with the way the net works but were not being taught the fundamentals-the math. This book contains the knowledge for people who will create and understand future communications systems." -Professor Jon Crowcroft, The Computer Laboratory, University of Cambridge The Essential Mathematical Principles Required to Design, Implement, or Evaluate Advanced Computer Networks Students, researchers, and professionals in computer networking require a firm conceptual understanding of its foundations. Mathematical Foundations of Computer Networking provides an intuitive yet rigorous introduction to these essential mathematical principles and techniques. Assuming a basic grasp of calculus, this book offers sufficient detail to serve as the only reference many readers will need. Each concept is described in four ways: intuitively; using appropriate mathematical notation; with a numerical example carefully chosen for its relevance to networking; and with a numerical exercise for the reader. The first part of the text presents basic concepts, and the second part introduces four theories in a progression that has been designed to gradually deepen readers' understanding. Within each part, chapters are as self-contained as possible. The first part covers probability; statistics; linear algebra; optimization; and signals, systems, and transforms. Topics range from Bayesian networks to hypothesis testing, and eigenvalue computation to Fourier transforms. These preliminary chapters establish a basis for the four theories covered in the second part of the book: queueing theory, game theory, control theory, and information theory. The second part also demonstrates how mathematical concepts can be applied to issues such as contention for limited resources, and the optimization of network responsiveness, stability, and throughput. Historical Character Book 1 [American Girl Publishing Incorporated](#) [Spellslinger Hachette UK](#) A would-be mage with no magic of his own has to defeat powerful enemies with only cunning and deception in the first book of an exciting adventure fantasy series from Sebastien de Castell. Kellen is moments away from facing his first duel and proving his worth as a spellcaster. There's just one problem: his magic is fading. Facing exile unless he can pass the mage trials, Kellen is willing to risk everything -- even his own life -- in search of a way to restore his magic. But when the enigmatic Ferius Parfax arrives in town, she challenges him to take a different path. One of the elusive Argosi, Ferius is a traveller who lives by her wits and the cards she carries. Daring, unpredictable, and wielding magic Kellen has never seen before, she may be his only hope. The first novel in a compelling six-book series, bursting with tricks, humor, and a whole new way to look at magic. [Spellslinger SeriesSpellslingerShadowblackCharmcaster](#) For more from Sebastien de Castell, check out: The Greatcoats QuartetTraitor's BladeSaint's BloodKnight's ShadowTyrant's Throne Crownbreaker [Spellslinger Series, Book 6](#) Once an outlaw spellslinger, Kellen Argos has made a life for himself as the Daroman Queen's protector. A little magic and a handful of tricks are all it takes to deal with the constant threats to her reign. But when rumors of an empire-shattering war begin to stir, Kellen is asked to commit an unimaginable act to protect his queen. Inside enemy territory, he quickly realizes something is amiss. Someone is playing a dangerous game. And to discover their secrets, Kellen will have to challenge the greatest spellcaster who's ever lived. New Scholarship in Critical Quantitative Research, Part 2: New Populations, Approaches, and Challenges New Directions for Institutional Research, Number 163 [John Wiley & Sons](#) This volume is the second in a two-part series on differentiating approaches to quantitative research from more traditional positivistic and postpositivistic approaches. While the first volume provided an expanded conceptualization of critical quantitative inquiry, this volume concludes the series by: applying critical quantitative approaches to new populations of college students who are rarely addressed in institutional and higher education research, such as American Indian, Alaska Native, and students with disabilities, applying the principles of quantitative criticism to advanced methods of statistical analysis, and discussing the variety of challenges to overcome and presenting a future research agenda using these methods. This work is of interest to institutional and higher education researchers who want to expand and critique new ways of thinking about the broad array of populations participating in and served by higher education, while keeping in mind the goals of revealing inequity, challenging marginalization, and helping all students to succeed. This is the 163rd volume of this Jossey-Bass quarterly report series. Timely and comprehensive, New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management. Deep Learning for the Earth Sciences A Comprehensive Approach to Remote Sensing, Climate Science and Geosciences [John Wiley & Sons](#) DEEP LEARNING FOR THE EARTH SCIENCES Explore this insightful treatment of deep learning in the field of earth sciences, from four leading voices Deep learning is a fundamental technique in modern Artificial Intelligence and is being applied to disciplines across the scientific spectrum; earth science is no exception. Yet, the link between deep learning and Earth sciences has only recently entered academic curricula and thus has not yet proliferated. Deep Learning for the Earth Sciences delivers a unique perspective and treatment of the concepts, skills, and practices necessary to quickly become familiar with the application of deep learning techniques to the Earth sciences. The book prepares readers to be ready to use the technologies and principles described in their own research. The distinguished editors have also included resources that explain and provide new ideas and recommendations for new research especially useful to those involved in advanced research education or those seeking PhD thesis orientations. Readers will also benefit from the inclusion of: An introduction to deep learning for classification purposes, including advances in image segmentation and encoding priors, anomaly detection and target detection, and domain adaptation An exploration of learning representations and unsupervised deep learning, including deep learning image fusion, image retrieval, and matching and co-registration Practical discussions of regression, fitting, parameter retrieval, forecasting and interpolation An examination of physics-aware deep learning models, including emulation of complex codes and model parametrizations Perfect for PhD students and researchers in the fields of geosciences, image processing, remote sensing, electrical engineering and computer science, and machine learning, Deep Learning for the Earth Sciences will also earn a place in the libraries of machine learning and pattern recognition researchers, engineers, and scientists. Propaganda The Formation of Men's Attitudes All the Ugly and Wonderful Things [Booktopia Editions](#) As the daughter of a drug dealer, Wavy knows not to trust people, not even her own parents. It's safer to keep her mouth shut and stay out of sight. Struggling to raise her little brother, Donal, eight-year-old Wavy is the only responsible adult around. Obsessed with the constellations, she finds peace in the starry night sky above the fields behind her house, until one night her star gazing causes an accident. After witnessing his motorcycle wreck, she forms an unusual friendship with one of her father's thugs, Kellen, a tattooed ex-con with a heart of gold. By the time Wavy is a teenager, her relationship with Kellen is the only tender thing in a brutal world of addicts and debauchery. When tragedy rips Wavy's family apart, a well-meaning aunt steps in, and what is beautiful to Wavy looks ugly under the scrutiny of the outside world. Kellen may not be innocent, but he is the fixed point in Wavy and Donal's chaotic universe. Instead of playing it safe, Wavy has to learn to fight for Kellen, for her brother, and for herself. About the Author Bryn Greenwood is a fourth-generation Kansan, one of seven sisters, and the daughter of a mostly reformed drug dealer. She earned a MA in Creative Writing from Kansas State University. She is the New York Times bestselling author of the novels The Reckless Oath We Made, All the Ugly and Wonderful Things, Last Will, and Lie Lay Lain. She lives in Lawrence, Kansas. Industry Reviews New York Times bestseller USA Today bestseller [Soulbinder Hachette UK](#) A failed mage learns that just because he's not the chosen one it doesn't mean he can't be a hero in the fourth book of an exciting adventure fantasy series from Sebastien de Castell. For an outlaw spellslinger, the only way to survive is to hide. Kellen's curse is growing stronger, promising a future of madness and murder. And now that the bounty hunter sworn to kill ever last shadow black have caught his trail, he knows his days are numbered Desperate, Kellen braves a barren desert to find a mysterious order of monks rumored to possess a cure. But there are secrets darker and more dangerous than Kellen expected, and the price of his salvation may be more than he's willing to pay. [Spellslinger SeriesSpellslingerShadowblackCharmcasterSoulbinder](#) For more from Sebastien de Castell, check out: The Greatcoats QuartetTraitor's BladeSaint's BloodKnight's ShadowTyrant's Throne All My Sons Drama in Three Acts [Dramatists Play Service Inc](#) Presents the classic play, first produced in 1947, about guilt, responsibility, and the relationship between fathers and sons in the aftermath of a World War II corruption case. Tonight We Bombed the U.S. Capitol The Explosive Story of M19, America's First Female Terrorist Group [Simon and Schuster](#) In a shocking, never-before-told story from the vaults of American history, Tonight We Bombed the US Capitol takes a close look at the explosive hidden history of M19--the first and only domestic terrorist group founded and led by women--and their violent fight against racism, sexism, and what they viewed as Ronald Reagan's imperialistic vision for America. In 1981, President Ronald Reagan announced that it was "morning in America." He declared that the American dream wasn't over, but the United States needed to lower taxes, shrink government control, and flex its military muscles abroad to herald what some called "the Reagan Revolution." At the same time, a tiny band of American-born, well-educated extremists were working for a very different kind of revolution. By the end of the

1970s, many radicals had called it quits, but six veteran women extremists came together to finish the fight. These women had spent their entire adult lives embroiled in political struggles: protesting the Vietnam War, fighting for black and Native American liberation, and confronting US imperialism. They created a new organization to wage their war: The May 19th Communist Organization, or "M19," a name derived from the birthday shared by Malcolm X and Ho Chi Minh, two of their revolutionary idols. Together, these six women carried out some of the most daring operations in the history of domestic terrorism--from prison breakouts and murderous armed robberies, to a bombing campaign that wreaked havoc on the nation's capital. Three decades later, M19's actions and shocking tactics still reverberate for many reasons, but one truly sets them apart: unlike any other American terrorist group before or since, M19 was created and led by women. *Tonight We Bombed the US Capitol* tells the full story of M19 for the first time, alongside original photos and declassified FBI documents. Through the group's history, intelligence and counterterrorism expert William Rosenau helps us understand how homegrown extremism--a threat that still looms over us today--is born. *When Shall We Eat Cake?* [Lulu.com](#) *When Shall We Eat Cake?* looks at questions single people are often asked by others. "Eating cake" is used in the book as a metaphor for marriage. Some of the questions concerning why a person is still single are, at times, rooted in misconceptions of what makes a person prepared for marriage. The book explores some of these questions, provides insight, and offers several questions that single people should ask those they are dating. *Enterprise Strategy for Blockchain Lessons in Disruption from Fintech, Supply Chains, and Consumer Industries* [MIT Press](#) How companies can gain strategic advantage by developing blockchain capabilities. Blockchain is far more than cryptocurrency. Regarded for a decade as complex and with limited application, blockchain has now matured to be on the verge of fully realizing its disruptive potential. In *Enterprise Strategy for Blockchain*, business strategy expert Ravi Sarathy shows how companies can gain competitive advantage by developing and deploying blockchain capabilities. Sarathy explains what makes blockchain unique, including its capacities to eliminate intermediaries, guard against hackers, decentralize, and protect privacy. Presenting examples drawn from such sectors as finance, supply chains, computer services, consumer products, and entertainment, he describes how executives can strategically assess blockchain's applicability to their business. After outlining blockchain's technological features--and its technological obstacles--Sarathy describes disruptive technologies already happening in the financial services market with the emergence of decentralized finance, or DeFi, arguing that a wave of innovation might be positioning DeFi as blockchain's "killer app." He also explores, among many other uses, a blockchain application that addresses chronic supply chain problems, pilot blockchain programs aimed at facilitating cross-border payments, and the use of NFTs (non-fungible tokens) that allow digital art to be collected and traded. And he outlines a path for organizations that includes establishing a business case for applying blockchain, evaluating enterprise cost-benefits, and preparing the organization to develop the requisite knowledge and people skills while overcoming resistance to change. Business leaders should invest, explore and experiment with blockchain now, positioning their organizations to be first in their fields, ahead of both rising startups and late-to-the game incumbent peers. *The Story of My Life* [GENERAL PRESS](#) *The Story of My Life* is an autobiography by Helen Keller. It is the story of Helen Keller and her life as a deaf and blind girl, and her triumph over these tribulations. In the book, she reveals her frustration and rage over her condition. It details her educational achievements and her introduction to the world through her breakthrough into communication. The story was written by Helen Keller when she was just 22 years old. *The Story of My Life* is a tale of the courage and unbreakable will of Helen Keller. The book has been adapted into a television series, a Broadway play, a Hollywood feature film, and an Indian feature film. *My Dad Has a Beard* This story documents a little boy's reflections on the perfection of having a bearded dad! It is silly and fun, with colorful illustrations and some serious Dad love! It makes the perfect gift for a new bearded dad or a youngster who's got a bearded dad and is learning to read! Fun for the whole family, a hit from author/illustrator Kellen Roggenbuck. This title is also available in paperback. *Terrorist Rehabilitation and Counter-radicalisation New Approaches to Counter-terrorism* [Routledge](#) This book seeks to explore the new frontiers in counter-terrorism research, analyses and practice, focusing on the imperative to rehabilitate terrorists. *Shadowblack* [Hachette UK](#) A failed mage turned outlaw must use guile and a handful of spells to challenge a dangerous rival in the second book of an exciting adventure fantasy series from Sebastien de Castell. Forced to live as an outlaw, Kellen relies on his wits and his allies to survive the unforgiving borderlands. When he meets a young woman cursed with a deadly plague, he feels compelled to help. But her secrets draw powerful enemies and it's not long before Kellen is entangled in a conspiracy of blackmail, magic, and murder. As the bodies begin to pile up, Kellen fears he's next. The second novel in a compelling six-book series, bursting with tricks, humor, and a whole new way to look at magic. *Spellslinger Series* [SpellslingerShadowblackCharmcaster](#) For more from Sebastien de Castell, check out: *The Greatcoats Quartet* *Traitor's Blade* *Saint's Blood* *Knight's Shadow* *Tyrant's Throne* *Thoughtless* [Simon and Schuster](#) For almost two years now, Kiera's boyfriend, Denny, has been everything she's ever wanted: loving, tender, and endlessly devoted to her. When they head off to a new city to start their lives together, Denny at his dream job and Kiera at a top-notch university, everything seems perfect. Then an unforeseen obligation forces the happy couple apart. Feeling lonely, confused, and in need of comfort, Kiera turns to an unexpected source - a local rock star named Kellan Kyle. At first, he's purely a friend that she can lean on, but as her loneliness grows, so does their relationship. And then one night everything changes . . . and one thing's for sure - nothing will ever be the same. *Defining Identity and the Changing Scope of Culture in the Digital Age* [IGI Global](#) Since the popularization of Internet technologies in the mid-1990s, human identity and collective culture has been dramatically shaped by our continued use of digital communication platforms and engagement with the digital world. Despite a plethora of scholarship on digital technology, questions remain regarding how these technologies impact personal identity and perceptions of global culture. *Defining Identity and the Changing Scope of Culture in the Digital Age* explores a multitude of topics pertaining to self-hood, self-expression, human interaction, and perceptions of civilization and culture in an age where technology has become integrated into every facet of our everyday lives. Highlighting issues of race, ethnicity, and gender in digital culture, interpersonal and computer-mediated communication, pop culture, social media, and the digitization of knowledge, this pivotal reference publication is designed for use by scholars, psychologists, sociologists, and graduate-level students interested in the fluid and rapidly evolving norms of identity and culture through digital media. *Pornography Men Possessing Women Murder For Two* [Concord Theatricals](#) *Officer Marcus Moscovicz* is a small town policeman with dreams of making it to detective. One fateful night, shots ring out at the surprise birthday party of Great American Novelist Arthur Whitney and the writer is killed...fatally. With the nearest detective an hour away, Marcus jumps at the chance to prove his sleuthing skills--with the help of his silent partner, Lou. But whodunit? Did Dahlia Whitney, Arthur's scene-stealing wife, give him a big finish? Is Barrette Lewis, the prima ballerina, the prime suspect? Did Dr. Griff, the overly-friendly psychiatrist, make a frenemy? Marcus has only a short amount of time to find the killer and make his name before the real detective arrives... and the ice cream melts! *Modern War and the Utility of Force Challenges, Methods and Strategy* [Routledge](#) This book investigates the use and utility of military force in modern war. After the Cold War, Western armed forces have increasingly been called upon to intervene in internal conflicts in the former Third World. These forces have been called upon to carry out missions that they traditionally have not been trained and equipped for, in environments that they often have not been prepared for. A number of these 'new' types of operations in allegedly 'new' wars stand out, such as peace enforcement, state-building, counter-insurgency, humanitarian aid, and not the least counter-terrorism. The success rate of these missions has, however, been mixed, providing fuel for an increasingly loud debate on the utility of force in modern war. This edited volume poses as its central question: what is in fact the utility of force? Is force useful for anything other than a complete conventional defeat of a regular opponent, who is confronted in the open field? This book will be of much interest to students of strategic studies, war and conflict studies, counter-insurgency, security studies and IR. Isabelle Duyvesteyn is an Associate Professor at the Department of History of International Relations, Utrecht University in the Netherlands. Jan Angstrom is a researcher at the Swedish National Defence College. *Edible Oil Processing* [John Wiley & Sons](#) Oils and fats are almost ubiquitous in food processing, whether naturally occurring in foods or added as ingredients that bring functional benefits. Whilst levels of fat intake must be controlled in order to avoid obesity and other health problems, it remains the fact that fats (along with proteins and carbohydrates) are one of the three macronutrients and therefore an essential part of a healthy diet. The ability to process oils and fats to make them acceptable as part of our food supplies is a key component in our overall knowledge of them. Without this ability, the food that we consume would be totally different, and much of the flexibility available to us as a result of the application of processing techniques would be lost. Obviously we need to know how to process fatty oils, but we also need to know how best to use them once they have been processed. This second edition of *Edible Oil Processing* presents a valuable overview of the technology and applications behind the subject. It covers the latest technologies which address new environmental and nutritional requirements as well as the current state of world edible oil markets. This book is intended for food scientists and technologists who use oils and fats in food formulations, as well as chemists and technologists working in edible oils and fats processing. *Marketing Principles with Student Resource Access 12 Months* [Cengage AU](#) Introduce the essentials and latest trends in today's marketing with strong visuals and exciting, timely discussions found in the proven marketing text for students of all backgrounds 'Marketing Principles, 3e. This Asia-Pacific text contextualises marketing theory and practice with extensive real-world examples from Australia, New Zealand and individual countries across the region. This edition's extensive coverage of current marketing strategies and concepts addresses social media, sustainability, globalisation, customer relationship management, supply chain management, and digital marketing. Emerging topics, such as social and environmental responsibility, entrepreneurship, and new trends in marketing, resonate especially well with today's students who are striving for success in today's fast-paced, evolving business world. Captivating photos, screenshots, advertisements, and examples from actual life make concepts meaningful for students. A wealth of learning supplements, such as self-testing, videos, and an interactive marketing plan, further help your students develop critical decision-making and marketing skills. *Giving Chase* [Independently Published](#) KELLANI wasn't supposed to fall for my older brother's best friend. Unfortunately, that ship sailed when I was a teenager, even though Chase Hawthorne always treated me like nothing more than a younger sibling. Things were worse after my parents died. Chase was sweet and supportive, which only strengthened my feelings for him. But then he'd act like I couldn't take care of myself, and that part didn't go over well with me. Yeah, I had a habit of screwing up. I'd always been the weird boy in our small town, but just like my big brother, he took overprotective to a new level. Until one night when I was eighteen and Chase and I hooked up. It was a ding to the ego that he left town right afterward. Ridiculously, I'm still not over him. CHASEI betrayed my best friend, Griffin, the night I messed around with Kellan. So I ran--first to the Marines, then into law enforcement. Ten years later, I'm back home, this time as a patrol officer rather than a troublemaker's son. Oh, and unable to keep my hands off Kellan Caine. There's always been something about him...the way he stands strong in who he is, even when he's standing alone. I'm trapped between someone I want more than anything and Griff, the guy who's like family to me. Yet the more time I spend with Kellan, the harder it becomes to deny there's something real between us. With my dad stirring up trouble, and me going behind my best friend's back, everything's a mess. The more tangled the web gets, the more I realize I need Kellan. And that there might be something in the Hawthorne family history that'll make me lose both Kellan and Griffin for good. *Of Silver and Shadow* [North Star Editions, Inc.](#) Ren Kolins, a magic wielder in hiding, strikes a deal with a broody rebel plotting to overthrow the tyrant king, while king's guard member Adley Farre is hunting down the rebels one by one. But time is running out for all of them. *Devotion* [Pelican Ventures Book Group](#) From *This Day Forward* Christian Music agent Kellen Rossiter has everything he ever wanted: A-list clients from coast to coast, a loving wife who honors and respects him, and a faith life that's never wavered--until now. Juliet Rossiter has the perfect life: a rewarding schedule serving the underprivileged, a husband who loves her as Christ loved the church, and a blessed future as a mother--at least that's what she thinks. For Better or Worse But what happens when their rock-solid marriage begins to crumble under the weight of an unexpected and powerful temptation? How does love survive when its foundation is shaken? 'Til Death Do Us Part When human frailty and the allure of sin deal a harsh blow to their relationship, it will take more than love to mend the shattered trust and heartbreak. It will take a lifetime of devotion. *Charmcaster Spellslinger Series A failed mage* learns that just because he's not the chosen one it doesn't mean he can't be a hero in the third book of an exciting adventure fantasy series from Sebastien de Castell. Kellen's life as an outlaw spellslinger is about to get a lot worse. In *Gitabria*, a miraculous discovery draws spies from all over the continent willing to kill to get their hands on it. Swept up in the race for power, Kellen is forced to join the pursuit. But the invention holds a dark secret--one that could spark a war. *Spellslinger Series* [SpellslingerShadowblackCharmcasterSoulbinder](#) For more from Sebastien de Castell, check out: *The Greatcoats Quartet* *Traitor's Blade* *Saint's Blood* *Knight's Shadow* *Tyrant's Throne*. *Keeping Kellan* [Independently Published](#) Brant Harkrader is done living by other peoples' rules. He may not know exactly what he wants out of life, but he's perfectly happy

letting that question figure itself out while starting a new job as a tour guide. Too bad the one thing he does want-his sister's BFF-only sees him as a little brother. Or so he thinks... Kellan Shelby-Briggs has never shied away from going after what he wants. And what he wants is the important contract that will put his brand new company on the map-and Brant. Too bad Kellan's career keeps yanking him away just as things heat up between them. Now that Brant is back in town-up close and personal in Kell's living space-can they finally get the timing right to go after the love that has eluded them both for too long? A History of Education for Citizenship [Routledge](#) In this unique examination of education for citizenship, Derek Heater covers two and a half millennia of history encompassing every continent. Education for citizenship is considered from its classical origins through to ideas of world citizenship and multiculturalism which are relevant today. The book reveals the constants of motives, policies, recommendations and practices in this field and the variables determined by political, social and economic circumstances, which in turn illustrate the reasons behind education for citizenship today. Sections covered include: * Classical origins * The age of rebellions and revolutions * Education for liberal democracy * Totalitarianism and transitions * Multiple citizenship education. A History of Education for Citizenship will be of interest to teachers and students of citizenship, particularly those concerned with citizenship education. It will also be of interest to those working in the field of politics of education and history of education. Murder Notes [Julie Patra Publishing](#) As an FBI profiler, it's Lilah Love's job to think like a killer. And she is very good at her job. When a series of murders surface—the victims all stripped naked and shot in the head—Lilah's instincts tell her it's the work of an assassin, not a serial killer. But when the case takes her back to her hometown in the Hamptons and a mysterious but unmistakable connection to her own life, all her assumptions are shaken to the core. Thrust into a troubled past she's tried to shut the door on, Lilah's back in the town where her father is mayor, her brother is police chief, and she has an intimate history with the local crime lord's son, Kane Mendez. The two share a devastating secret, and only Kane understands Lilah's own darkest impulses. As more corpses surface, so does a series of anonymous notes to Lilah, threatening to expose her. Is the killer someone in her own circle? And is she the next target? The Lilah Love Series: Murder Notes Murder Girl Love Me Dead Love Kills Bloody Vows Bloody Love Happy Death Day Heft. Liz Moore [Random House](#) Former academic Arthur Opp weighs 550 pounds and hasn't left his rambling Brooklyn home in a decade. 20 miles away, in Yonkers, 17-year-old Kel Keller navigates life as the poor kid in a rich school and pins his hopes on what seems like a promising baseball career - if he can untangle himself from his family drama. Darling Venom A Best Friend's Brother Romance [Psh Publishing](#) From Wall Street Journal bestseller Parker S. Huntington comes a broken love story laced with angst and forbidden romance. I wasn't supposed to be on that roof on Valentine's Day. Neither was Kellan Marchetti, the school's designated freak. We met on the verge of ending our lives. Somehow, the tattered strings of our tragedies tangled and tightened into an unlikely bond. We decided not to take the plunge and agreed to check on each other every Valentine's Day until school ended. Same time. One roof. Two restless souls. We kept our promise for three years. On the fourth, Kellan made a decision, and I was left to deal with the consequences. Just when I thought our story ended, another one began. They say all love stories look the same and taste different. Mine was venomous, disgraceful, and written in scarlet scars. My name is Charlotte Richards, but you can call me Venom. Susana and the Scot [St. Martin's Paperbacks](#) New York Times bestselling author Sabrina York carries readers back to the wild Scottish Highlands in Susana and the Scot, where the bravest of men surrender to no one-except the boldest of women... Scotland, 1813. A SCANDALOUS TEMPTATION Andrew Lochlannach is famous for his conquests, on and off the battlefield. When a fellow warrior challenges him to a kissing contest, he wastes no time in planting his lips on ninety-nine lovely lasses-an impressive feat of seduction that gets him banished to the hinterlands. Still, Andrew has no regrets about his exploits-especially his embrace with the most beguiling woman he's ever met... AN UNDENIABLE PASSION With flaming red hair and a temper to match, Susana is not some innocent farmgirl who gives herself over easily to a man, even one as ruggedly handsome as Andrew. The wicked Scot may have won a kiss from the headstrong beauty in a moment of mutual desire, but Susana refuses to be just another one of his conquests. Andrew must convince the fiery lass that even though he is not playing a game, losing her is not an option... "You can't go wrong with a Sabrina York story."-Desiree Holt Mithraic Societies: From Brotherhood to Religion's Adversary - (b&w) [Lulu.com](#) Although by its title, this book seems to be about a specialized topic, the spread of Mithraic societies and its avatars, in time and geographical expanse, much enhances its relevancy. From Roman legionaries to chivalry orders, from dervish circles to guild organizations, and from Freemasons to French revolutionaries, the hierarchy of Mithraic societies, their initiation rites, and their oaths of secrecy, provided a model for brotherhood organization that was efficient, but also flexible; they could adapt their philosophy to the prevailing politico-religion conditions of the day, because they did not worship any particular god, but could also be comrades in arms with nascent religious movements, such as with Christianity. Mithra was the initial guarantor of their oath, and if need be it could be replaced by Jesus, Allah or any other divinity. Their "religion" was their brotherhood, and as such they usually provided a counter-balance to the power elite, and had the potential to become politically active. Financial Accounting Theory Scott reveals vast amounts of financial accounting information drawn from recent research that has until now been hidden in academic journals. He provides a clear, easy-to-use framework for students to (1) place this information in a financial accounting context, (2) explain and analyze the information intuitively and (3) to reveal the information's relevance in understanding the practice of accounting. Thoughtful [Hachette UK](#) In Thoughtless, Kiera told her story. Now it's time to hear from the sexy rock star who captivated us all . . . THOUGHTFUL The only place Kellan Kyle has ever felt at home is onstage. Gripping his guitar in a darkened bar, he can forget his painful past. These days his life revolves around three things: music, his bandmates, and hot hookups. Until one woman changes everything . . . Kiera is the kind of girl Kellan has no business wanting-smart, sweet, and dating his best friend. Certain he could never be worthy of her love, he hides his growing attraction . . . until Kiera's own tormented heart hints that his feelings might not be one-sided. Now, no matter the consequences, Kellan is sure of one thing-he won't let Kiera go without a fight.
