**Wandering Star A Zodiac Novel** *Penguin* Rho is ready to live a quiet life until Ochus appears to her, bearing a cryptic message that leaves her with no choice but to fight and she embarks on a journey through a new set of Houses that reveal much more about the Galaxy and herself. **The Fixed Stars And Constellations in Astrology** *Astrology Center of America* Ancient astrologers declared stars "fixed" to distinguish them from wandering stars, which they called planets. This book is the distillation of two thousand years of astrological research. It is a comprehensive survey of fixed stars in natal & mundane astrology, the stars & constellations of medieval magic, and fixed stars in astrometeorology. Robson gives their traditional meanings & their effects when combined with planets & angles. Convenient tables & a comprehensive index make this volume easy to use. Included are some 110 named stars, as well as 48 ancient constellations & 60 modern ones. Arabic, Chinese & Hindu lunar mansions are also discussed. Since its first publication in 1923, this book has been the classic on fixed stars, the one to which everyone since has referred. About the author: Vivian Erwood Robson, 1890 - 1942, was a librarian by trade. Like many librarians he had a natural bent for research, and, in his particular case, astrology. He studied ancient astrologers closely, including Ptolemy & William Lilly. His books on fixed stars, electional astrology & relationships are 20th century classics. **Zodiac** *Penguin* The New York Times bestselling novel ZODIAC is the first book in a breathtaking sci-fi series inspired by astrology that will stun fans of The Illuminae Files and the Starbound trilogy. At the dawn of time, there were 13 Houses in the Zodiac Galaxy. Now only 12 remain.... Rhoma Grace is a 16-year-old student from House Cancer with an unusual way of reading the stars. While her classmates use measurements to make accurate astrological predictions, Rho can't solve for 'x' to save her life—so instead, she looks up at the night sky and makes up stories. When a violent blast strikes the moons of Cancer, sending its ocean planet off-kilter and killing thousands of citizens—including its beloved Guardian—Rho is more surprised than anyone when she is named the House's new leader. But, a true Cancrian who loves her home fiercely and will protect her people no matter what, Rho accepts. Then, when more Houses fall victim to freak weather catastrophes, Rho starts seeing a pattern in the stars. She suspects Ophiuchus—the exiled 13th Guardian of Zodiac legend—has returned to exact his revenge across the Galaxy. Now Rho—along with Hysan Dax, a young envoy from House Libra, and Mathias, her guide and a member of her Royal Guard—must travel through the Zodiac to warn the other Guardians. But who will believe anything this young novice says? Whom can Rho trust in a universe defined by differences? And how can she convince twelve worlds to unite as one Zodiac? Embark on a dazzling journey with ZODIAC, the first novel in an epic sci-fi-meets-high-fantasy series set in a galaxy inspired by the astrological signs. **Nineteen Eighty-Four** *epubli* "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power. **The Zodiac Trials** For as long as anyone could remember, there have only been twelve Zodiac Signs. Gifted by the stars with two abilities each, the twelve signs have maintained balance in their world for centuries. Now, a thirteenth sign threatens to upend the balance?Talah grew up hearing about her ancestral homeland called the Galaxy. Hidden away on Earth from the world her parents had escaped from, she dreamed of becoming a true Zodiac. When her chance finally arrives to compete in the Trials and join her

people for good, she is all too eager to prove her place. But beneath the lavish parties and power lies a dark secret their history had forgotten. And with it, a boy she thought she'd never see again. Firas had spent his whole life training for the Trials to take his true place as the Soulinus heir. But when he is hunted down for the extra abilities he was born with, he has to learn to survive. Now the leader of a people facing genocide, he has to outwit a centuries-old society with powers that rival his own. Thrust into a forgotten civil war neither understand, Talah and Firas must find the balance between tradition and freedom. *Thirteen Rising* Penguin New York Times bestselling author Romina Russell's epic sci-fi fantasy series ZODIAC reaches its breathtaking conclusion with THIRTEEN RISING, the highly anticipated fourth and final novel. The master has been unmasked. Rho's world has been turned upside down. With her loved ones in peril and all the stars set against her, can the young Guardian from House Cancer muster the strength to keep fighting? Or has she finally found her match in a master whose ambition to rule knows no limits? *The Witness of the Stars* Library of Alexandria Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston, of Keswick, and to carry on a correspondence with her with respect to her work, Mazzaroth: or, the Constellations. She was the first to create an interest in this important subject. Since then Dr. Seiss, of Philadelphia, has endeavoured to popularize her work on the other side of the Atlantic; and brief references have been made to the subject in such books as Moses and Geology, by Dr. Kinns, and in Primeval Man; but it was felt, for many reasons, that it was desirable to make another effort to set forth, in a more complete form, the witness of the stars to prophetic truth, so necessary in these last days. To the late Miss Rolleston, however, belongs the honour of collecting a mass of information bearing on this subject; but, published as it was, chiefly in the form of notes, unarranged and unindexed, it was suited only for, but was most valuable to, the student. She it was who performed the drudgery of collecting the facts presented by Albumazer, the Arab astronomer to the Caliphs of Grenada, 850 a.d.; and the Tables drawn up by Ulugh Beigh, the Tartar prince and astronomer, about 1650 a.d., who gives the Arabian Astronomy as it had come down from the earliest times. Modern astronomers have preserved, and still have in common use, the ancient names of over a hundred of the principal stars which have been handed down; but now these names are used merely as a convenience, and without any reference to their significance. This work is an attempt to popularize this ancient information, and to use it in the interests of truth. For the ancient astronomical facts and the names, with their signification, I am, from the very nature of the case, indebted, of course, to all who have preserved, collected, and handed them down; but for their interpretation I am alone responsible. It is for the readers to judge how far my conclusions are borne out by the evidence; and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven, as well as in the Scriptures of truth. *Secrets of the Stars* Wentworth Press This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. party. The red star is Mars, but it is also the dream set to paper of the society that could emerge on earth after the dual victory of the socialist and scientific-technical revolutions. While portraying a harmonious and rational socialist society, Bogdanov sketches out the problems that will face industrialized nations, whether socialist or capitalist. “[A] surprisingly moving story.” —The New Yorker “The contemporary reader will marvel at [Bogdanov’s] foresight: nuclear fusion and propulsion, atomic weaponry and fallout, computers, blood transfusions, and (almost) unisexuality.” —Choice “Bogdanov’s novels reveal a great deal about their fascinating author, about his time and, ironically, ours, and about the genre of utopia as well as his contribution to it.” —Slavic Review

**Haqiqatul-Wahi The Philosophy of Divine Revelation** *Islam International Publications Ltd* In this book the Promised Messiah, on whom be peace, discusses the philosophy of divine revelation, the three categories of people who claim to receive revelation, and the distinction of the truthful from the false. He then establishes his truthfulness by documenting over 200 Signs, including the fulfillment of prophecies made by the Holy Prophet Muhammad, may peace and blessings of Allah be upon him, other men of God, earlier scriptures, and his own revelations spanning over twenty-five years. The author cites numerous examples of his enemies who publicly predicted his downfall and demise, only to become the very victims of their own prophecies.
