## Tables of Spectral Data for Structure Determination of

# Organic Compounds

*Springer Science & Business Media* **Although numerical data are, in principle, universal, the compilations presented in this book are extensively annotated and interleaved with text. This translation of the second German edition has been prepared to facilitate the use of this work, with all its valuable detail, by the large community of English-speaking scientists. Translation has also provided an opportunity to correct and revise the text, and to update the nomenclature. Fortunately, spectroscopic data and their relationship with structure do not change much with time so one can predict that this book will, for a long period of time, continue to be very useful to organic chemists involved in the identification of organic compounds or the elucidation of their structure. Klaus Biemann Cambridge, MA, April 1983**

**Preface to the First German Edition Making use of the information provided by various spectroscopic techniques has become a matter of routine for the analytically oriented organic chemist. Those who have graduated recently received extensive training in these techniques as part of the curriculum while their older colleagues learned to use these methods by necessity. One can, therefore, assume that chemists are well versed in the proper choice of the methods suitable for the solution of a particular problem and to translate the experimental data into structural information.**

## Bathing in the Roman World

*Cambridge University Press* **In Bathing in the Roman World, Fikret Yegul examines the social and cultural aspects of one of the key Roman institutions. Guiding the reader through the customs, rituals, and activities associated with public bathing, Yegul traces the origins and development of baths and bathing customs and analyzes the sophisticated technology and architecture of bath complexes, which were among the most imposing of all Roman building types. He also examines the reception of bathing throughout the classical world and the transformation of bathing culture across three continents in Byzantine and Christian societies. The volume concludes with an epilogue on bathing and cleanliness in post-classical Europe, revealing the changes and continuities in culture that have made public bathing a viable phenomenon even in the modern era. Richly illustrated and written in an accessible manner, this book is geared to undergraduates for use in courses on Roman architecture, archaeology, civilization, and social and cultural history.**

## Betrayal in the City

### A Play

*East African Publishers* **Betrayal in the City**, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while

we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.
