EMPIRICAL RESEARCH AND WRITING

A POLITICAL SCIENCE STUDENT'S PRACTICAL GUIDE

CQ Press **Students can easily misstep when they first begin to do research. Leanne C. Powner's new title Empirical Research and Writing: A Student's Practical Guide provides valuable advice and guidance on conducting and writing about empirical research. Chapter by chapter, students are guided through the key steps in the research process. Written in a lively and engaging manner and with a dose of humor, this practical text shows students exactly how to choose a research topic, conduct a literature review, make research design decisions, collect and analyze data, and then write up and present the results. The book's approachable style and just-in-time information delivery make it a text students will want to read, and its wide-ranging and surprisingly sophisticated coverage will make it an important resource for their later coursework.**

INTERDISCIPLINARY PERSPECTIVES ON VIRTUAL PLACE-BASED LEARNING

Springer Nature This book explores how virtual place-based learning and research has been interpreted and incorporated into learning environments both within and across disciplinary perspectives. Contributing authors highlight the ways in which they have employed a variety of methodologies to engage students in the virtual exploration of place. In the process, they focus on the approaches they have used to bring the real world closer through virtual exploration. Chapters examine how the resources of the urban environment have been tapped to design student research projects within the context of an interdisciplinary course. In this way, authors highlight how virtual place-based learning has employed the tools of mapping and data visualization, information literacy, game design, digital storytelling, and the creation of non-fiction VR documentaries. This book makes a valuable contribution to the literature, offering a model of how the study of place can be employed in creative ways to enhance interdisciplinary learning.

STEM TO STORY

ENTHRALLING AND EFFECTIVE LESSON PLANS FOR GRADES 5-8

John Wiley & Sons Bring STEM to life for students with zombies, rockets, celebrities, and more STEM to Story: Enthralling and Effective Lesson Plans for Grades 5-8 inspires learning through fun, engaging, and meaningful lesson plans that fuse hands-on discovery in science, technology, engineering, and math (STEM) with creative writing. The workshop activities within the book are the innovative result of a partnership between 826 National's proven creative writing model and Time Warner Cable's Connect a Million Minds, an initiative dedicated to connecting young people to the wonders of STEM through hands-on learning. Authentically aligned with both the Common Core State Standards and the Next Generation Science Standards, this book provides teachers, after-school and out-of-school providers, and parents with field-tested lessons, workshops, and projects designed by professionals in each field. Including reflective observations by arts and science celebrities like Jon Scieszka, Mayim Bialik, and Steve Hockensmith, lessons feature bonus activities, fun facts, and teaching points for instructors at every level. These quirky, exploratory lessons will effectively awaken student imaginations and passions for both STEM and creative writing, encourage identity with scientific endeavors, and make both science and writing fun. Grades five through eight is the critical period for engaging students in STEM, and this book is designed specifically to appeal to - and engage - this age group. The guided curricula fosters hands-on discovery, deep learning, and rich inquiry skills while feeling more like play than school, and has proven popular and effective with both students and teachers. Awaken student

imagination and get them excited about STEM Fuse creative writing with STEM using hands-on activities Make scientific principles relevant to students' lives Inspire students to explore STEM topics further The demand for STEM workers is closely linked to global competitiveness, and a successful future in STEM depends upon an early introduction to the scientific mindset. The challenge for teachers is to break through students' preconceptions of STEM fields as "hard" or "boring," to show them that STEM is everywhere, it's relevant, and it's loads of fun. For proven lesson plans with just a dash of weird, STEM to Story is a dynamic resource, adaptable and applicable in school, after school, and at home.

STRATEGIES FOR TEACHING WRITING

ASCD Writing is the vehicle for communication. In addition to promoting the need for good communication skills, the teaching of the writing process provides opportunities for students to develop clear thinking skills. Writing is also a developmental process that each student can successfully experience at different levels when approached systematically. Based upon this premise, this Action Tool presents the five stages of writing: prewrite, write, revise, edit, and publish in a manner that allows writing to be taught as a process. Strategies for Teaching Writing: An ASCD Action Tool makes writing in the classroom manageable. The tools provide a step-by-step approach to teaching the writing process. The tools include complete how-to-use instructions, suggestions, classroom examples and cross-curricular activities. Using the tools, teachers can grant students time to write, to process their thoughts and develop a way to analyze their thinking using cognitive reasoning instead of impromptu thought. The Action Tool also provide teachers with assessment strategies to assess students participation and progress at each stage of the writing process.

A must buy book as vouched by many experts in English !

CLOSING THE GAP

ENGLISH EDUCATORS ADDRESS THE TENSIONS BETWEEN TEACHER PREPARATION AND TEACHING WRITING IN SECONDARY SCHOOLS

IAP Without contraries there is no progression. ---William Blake This is a book about reality and hope. Its chapters reframe the concept of gap, acknowledging distances (for example, acknowledging old insights and theory while also honoring teacher discovery). However, it refuses to bow under the weight of these challenges. Its contributors focus, instead on how to overcome acknowledged inadequacies in learning how to teach writing as well as how to practice principled literacy instruction. These contributors see gaps not as unbridgeable chasms, but rather as opportunities to educate their students to use writing to understand the broader context of their education and pre-service candidates to adapt curriculum creatively. Contributors include new and seasoned secondary school teachers, graduate students, and university faculty who together remind us of "old insights needing to be passed along" (Villanueva) and show us new practices that challenge the conventions of the status quo

and promote social justice. To close the gaps, in short, they demonstrate how rhetoric and truth are intertwined. In a time when too many children continue to be left behind, this book should be required reading for all literacy teachers because it is in our continued willingness to learn from each other that hope resides.

HANDBOOK OF RESEARCH ON DIGITAL TOOLS FOR WRITING

INSTRUCTION IN K-12 SETTINGS

IGI Global More emphasis is being placed on writing instruction in K-12 schools than ever before. With the growing number of digital tools in the classroom, it is important that K-12 teachers learn how to use these tools to effectively teach writing in all content areas. The Handbook of Research on Digital Tools for Writing Instruction in K-12 Settings will provide research about how students use digital tools to write, both in and out of school settings, as well as discuss issues and concerns related to the use of these learning methods. This publication is beneficial to educators, professionals, and researchers working in the field of K-12 and teacher education.

RESOURCES IN EDUCATION

REVALUING BRITISH BOYS' STORY PAPERS, 1918-1939

Springer This book explores the phenomenon of the story paper, the meanings and values children took from their reading, and the responses of adults to their reading choices. It argues for the revaluing of the story paper in the inter-war years, giving the genre a pivotal role in the development of children's literature.
