### ABORIGINAL PEOPLE ON SYDNEY'S GEORGES RIVER

---

UNSW Press We started swimming in the Georges River at Liverpool. We were river girls! It was our little stamping ground. - Judy Chester Rivers and Resilience traces the history of Aboriginal people along Sydney's Georges River from the early periods of white settlement to the present. Telling the stories of the river people, it offers insights into Aboriginal history in an urban setting. For centuries Aboriginal people lived along the Georges River. With colonisation, the river's geography forced settlers to leapfrog over its rugged and swampy bends in search of arable land. Aboriginal people retained a hold over some of the land and maintained communities - despite changes caused by the city's growth. Two leading historians investigate Aboriginal communities in this densely settled, but often overlooked, suburban area.

## HOW HEALTHY EATING CAN FIX YOUR CHILD'S ASTHMA, ALLERGIES, OBESITY, NASAL CONGESTION, COUGH & CROUP

---

Simon and Schuster A Parent's Guide to Reflux in Infants, Children & Teens "Meeting Dr. Jamie Koufman completely changed my life. My symptoms of chronic cough and shortness of breath had been diagnosed since my childhood as asthma. Dr. Koufman identified that I had reflux, not asthma, and guided me step by step how to cure it. I have my life back and I owe it all to Dr. Koufman's insight and help." -Suze Orman, Host of the Suze Orman Show, CNBC This is an important book that will help change how America eats and guide parents to heal our needlessly sick children and adolescents. There are 80 million infants, children and teens in America, and most have unhealthy diets. Every year, tens of millions are misdiagnosed as having asthma, allergies, nasal congestion, ear infections, chronic cough and croup, when the real problem is acid reflux. A bad diet and childhood obesity are both strongly associated with reflux. So, when a child has a respiratory disease and is not getting better with medical treatment, we believe parents should consider that reflux may be the problem. Why? Because it can be fixed! Reflux is the greatest masquerader of our time. It can be the cause of almost any kind of respiratory symptom or disease. Unlike adults who may have obvious reflux symptoms (indigestion and heartburn), children are almost always "silently refluxing," and silent means that reflux is mysterious, difficult to diagnose and easy to overlook. Kids with reflux rarely complain of heartburn or indigestion. Respiratory reflux is the missing link between bad diet and many symptoms. Today, respiratory reflux is so common it is almost invisible. Pediatricians and medical specialists often diagnose children with asthma, sinusitis or allergy, when what they really have is reflux. Doctors all too frequently prescribe children antacid medications without beneficial effects. The real villain is not vanquished by pills. Most medications won't do a thing for children's reflux symptoms and can sometimes cause more harm than good. Reflux is not only uncomfortable and inconvenient, it's dangerous. If left untreated, reflux can wreak havoc on a child's ears, nose, throat, airways, lungs and digestive system. Our successful reflux rehabilitation program is a platform for change, with the long-term goal of health maintenance and disease prevention. And, for overweight children, another benefit of this book's reflux program is that they will lose weight naturally and slowly with a diet that is simply "lean, clean, green and alkaline." When we fix a child's reflux, parents' knowledge translates to significant dietary changes for the entire family. Out go the juice, soda, chocolate milk and other unhealthy choices. When parents understand that too much acid and sugar in the diet, and eating supper too late in the day has a big negative impact on the family's health, they act. Their children's well-being is at stake. Once reflux is identified or even suspected, the fix is more in parents' control than many realize. Acid Reflux in Children is the revolutionary book for parents who want to help their children lead healthy, active lives, free of acid reflux and the many other symptoms this condition can create. Here's to our future - HEALTHY CHILDREN!

## UNIVERSAL ACCESS AND ASSISTIVE TECHNOLOGY

---

---

## PROCEEDINGS OF THE CAMBRIDGE WORKSHOP ON UA AND AT '02

---

Springer Science & Business Media The first Cambridge Workshop on Universal Access and Assistive Technology (CWUAAT) was held at Trinity Hall, Cambridge, in March 2002. It was inspired by the earlier, highly successful Cambridge Workshops on Rehabilitation Robotics organised by the late Robin Jackson. Robin was the founder of Rehabilitation Research at Cambridge which now continues in the Engineering Design Centre within the Department of Engineering, led by John Clarkson and Simeon Keates, and in the Rainbow Group within the Computer Laboratory led by Peter Robinson. CWUAAT represents the first in a new series of workshops that we are aiming to hold every two years which, reflecting the spirit of recent moves to extend the rights for universal accessibility, will encourage discussion of a broad range of interests. There will be a general focus on product/solution development. Hence it is intended that the principal requirements for the successful design of assistive technology shall be addressed, where these range from the identification and capture of the needs of the users, through to the development and evaluation of truly usable and accessible systems for users with special needs. The best submissions received for the first CWUAAT are contained in this book, where the contributors are all leading researchers in the fields of Universal Access and Assistive Technology and represent a large part of the international research community. They include, though not exclusively, computer scientists, designers, engineers, industrial representatives, ergonomists and sociologists.

## DROPPING ACID

---

---

## THE REFLUX DIET COOKBOOK & CURE

---

Simon and Schuster Dropping Acid: The Reflux Diet Cookbook & Cure is the first book to explain how acid reflux, particularly silent reflux, is related to dietary and lifestyle factors. It also explains how and why the reflux epidemic is related to the use of acid as a food preservative. Dr. Koufman defines the symptoms this shockingly common disease and explains why a change in diet can alleviate some of the most common symptoms. Dropping Acid offers a dietary cure for acid reflux, as well as lists of the best and worst foods for a reflux sufferer. The book's recipes use tasty fats as flavorings, not as main ingredients; included are the recipes for tasty dishes that prove living with reflux doesn't mean living without delicious food.

### SUMMARY OF "THE KNIGHT IN RUSTY ARMOR - BY ROBERT FISHER"

Sapiens Editorial ABOUT THE ORIGINAL BOOK The Knight in Rusty Armor has been a real success among its audience, selling more than one million copies worldwide. It is considered to be a motivational book that falls into the self-help category. It is an easy-to-follow narrative, making it accessible to everyone, built with some humor, and is enjoyed by adults, teenagers and children alike. The book tells a story of a somewhat egocentric man, who lives his life concerned with his appearance. Everything he does is without consideration for his wellbeing, rather with the aim of seeking approval of others... Little by little he is locked in his armor, which over time rusts and leaves him imprisoned by his appearance. Then comes a life of reflection and recovery for him. He embarks on a journey to free himself from his prison, during which he enlists the help of a magician. It is an excellent allegory that teaches the importance of being who you are on the inside, without the need to mask your appearance.

### THE WICCHE GLASS TAVERN

NYLA "Kelly introduces fierce, lovable heroine Sam Quinn with this master class in storytelling and survival."—Publishers Weekly, starred review on The Slaughtered Lamb Bookstore and Bar "Dynamic supernatural characters fuel a riveting tale."—Kirkus Reviews I'm Sam Quinn, the werewolf book nerd owner of the Slaughtered Lamb Bookstore and

Bar. Clive, my vampire gentleman caller, has asked me to marry him. His nocturne is less than celebratory. Unfortunately, for them and the sexy vamp doing her best to seduce him, his cold, dead heart beats only for me. As much as my love life feels like a minefield, it has to take a backseat to a far more pressing problem. The time has come. I need to deal with my aunt, the woman who's been trying to kill me for as long as I can remember. She's learned a new trick. She's figured out how to weaponize my friends against me. To have any hope of surviving, I have to learn to use my necromantic gifts. I need a teacher. We find one hiding among the fae, which is a completely different problem. I need to determine what I'm capable of in a hurry because my aunt doesn't care how many are hurt or killed as long as she gets what she wants. Sadly for me, what she wants is my name on a headstone. I'm gathering my friends—werewolves, vampires, witches, gorgons, a Fury, a half-demon, an elf, and a couple of dragon-shifters—into a kind of Fellowship of the Sam. It's going to be one hell of a battle. Hopefully, San Francisco will still be standing when the dust clears.
