On the Other Shore

## The Atlantic Worlds of Italians in South America During the Great War

U of Nebraska Press *On the Other Shore* explores the social history of Italian communities in South America and the transnational networks in which they were situated during and after World War I. From 1915 to 1921 Italy's conflict against Austria-Hungary and its aftermath shook Italian immigrants and their children in the metropolitan areas of Buenos Aires, Montevideo, and São Paulo. The war led portions of these communities to mobilize resources—patriotic support, young men who could enlist in the Italian army, goods like wool from Argentina and limes from Brazil, and lots of money—to support Italy in the face of “total war.” Yet other portions of these communities simultaneously organized a strident movement against the war, inspired especially by anarchism and revolutionary socialism. Both of these factions sought to extend their influence and ambitions into the immediate postwar period. *On the Other Shore* demonstrates patterns of social cohesion and division within the Italian communities of South America; reconstructs varying transatlantic and inter-American networks of interaction, exchange, and mobility in an “Italian Atlantic”; interrogates how authorities in Italy viewed their South American “colonies”; and uncovers ways that Italians in Latin America balanced and blended relationships and loyalties to their countries of residence and origin. *On the Other Shore's* position at the intersection of Latin American history, Atlantic history, and the histories of World War I and Italian immigration thereby engages with and informs each of these subject areas in distinctive ways.

## Carlyle and Jean Paul

### Their Spiritual Optics

John Benjamins Publishing It has always been thought difficult, if not impossible, to define what the philosophy of Carlyle was. Ever since the publication of Sartor Resartus in 1833-1834, the view that Carlyle had a theistic conception of the universe has been defended as well as opposed. At a time, therefore, when Carlyle's work as a whole is being reappraised, his philosophy should first and foremost be dealt with. Carlyle's life-philosophy is based on the inner experience of a process of 'conversion', which set in with an incident that occurred to him at Leith Walk, Edinburgh. This study □ which settles the old question of the date of the incident □ demonstrates that the inner struggle, the dynamics of which are described most fully in Sartor, is analogous to the Jungian process of individuation. For the

first time in critical literature, the basic ideas of Carlyle's philosophy are thus linked to depth psychology and shown to be analogous to the fundamental concepts of Analytical Psychology. In recent criticism, it has been asserted that the crisis recorded in Sartor is akin to the crisis of doubt said to underlie Jean Paul's "Rede des todten Christus" (1796), which is probably the first poetic expression of nihilism in European literature and has become a classic. Apart from demonstrating that, in the last fifty years at least, the "Rede" has erroneously been interpreted as a dream of annihilation, this book invalidates the view of Jean Paul as victim of the skepticism of his age, and argues that, contrary to what is usually maintained, the "Rede" is not the document of a crisis, but of a belief which had become antiquated and obsolete for Carlyle.
