Solutions for High-Touch Communications in a High-Tech World

IGI Global **In recent years, modern society has experienced an increased use of online discourse. Due to continuous advances in technology, the ongoing transition away from face-to-face communications has steadily caused the communication gap to widen. Solutions for High-Touch Communications in a High-Tech World is a pivotal source of research for identifying new approaches for face-to-face communication, opportunities to create social bonding and social capital, and taking advantage of the full communication cycle. Featuring extensive coverage across a range of relevant perspectives and topics, such as social networking theory, conflict resolution, and interpersonal communications, this book is ideally designed for professionals, managers, researchers, students and academicians interested in perspectives on communication in the digital age.**

Drawdown

The Most Comprehensive Plan Ever Proposed to Reverse Global Warming

Penguin UK **NEW YORK TIMES BESTSELLER For the first time ever, an international coalition of leading researchers, scientists and policymakers has come together to offer a set of realistic and bold solutions to climate change. All of the techniques described here - some well-known, some you may have never heard of - are economically viable, and communities throughout the world are already enacting them. From revolutionizing how we produce and consume food to educating girls in lower-income countries, these are all solutions which, if deployed collectively on a global scale over the next thirty years, could not just slow the earth's warming, but reach drawdown: the point when greenhouse gasses in the atmosphere peak and begin todecline. So what are we waiting for?**

New Media and Visual Communication in Social Networks

IGI Global **Social media and new social facilities have made it necessary to develop new media design processes with different communication strategies in order to promote sustainable communication. Visual communication emphasizes messages that are transmitted through visual materials in order to effectively communicate emotions, thoughts, and concepts using symbols instead of words. Social networks present an ideal environment for utilizing this communication technique. New Media and Visual Communication in Social Networks is a pivotal scholarly publication that examines communication strategies in the context of social media and new digital media platforms and explores the effects of visual communication on social networks, visual identity, television, magazines, newspapers, and more. Highlighting a range of topics such as consumer behavior, visual identity, and digital pollution, this book is essential for researchers, practitioners, entrepreneurs, policymakers, and educators.**

Mass Communications and the Influence of Information During Times of Crises

IGI Global **Although global pandemics are not a new phenomenon, the COVID-19 pandemic has taken place in a very different information environment than any pandemic before it. In today's world, information plays a critical role in all areas of life with much of this information being delivered over the internet and social media. People have access to unprecedented amounts of information from both official and unofficial sources. While these channels are beneficial for enabling authorities to obtain information necessary to manage the pandemic, there is also a higher risk of misinformation spread. Mass Communications and the Influence of Information During Times of Crises provides a comprehensive overview of research conducted into the role of information and the media during times of international crises, particularly examining the COVID-19 pandemic. This text provides a better understanding of how to use the media as a tool for managing pandemics in the event of future global health crises. Covering topics such as crisis communication, data acquisition, and social media usage, this book is a dynamic resource for government policymakers, public health authorities, information and communications specialists, researchers, graduate and post-graduate students, professors, and academicians in a wide range of both public health and information-related disciplines.**

Returning to Interpersonal Dialogue and Understanding Human

Communication in the Digital Age

IGI Global **Digital collaboration is abundant in today□s world, but it is often problematic and does not provide an apt solution to the human need for comprehensive communication. Humans require more personal interactions beyond what can be achieved online. Returning to Interpersonal Dialogue and Understanding Human Communication in the Digital Age is a collection of innovative studies on the methods and applications of comparing online human interactions to face-to-face interactions. While highlighting topics including digital collaboration, social media, and privacy, this book is a vital reference source for public administrators, educators, businesses, academicians, and researchers seeking current research on the importance of non-digital communication between people.**

The Tech Solution

Creating Healthy Habits for Kids Growing Up in a Digital World

Penguin **A Harvard-trained psychiatrist and mom of 3 gives parents and educators the tech habits children need to achieve their full potential--and a 6-step plan to put them into action. You may have picked up on some warning signs: The more your 9-year-old son plays video games, the more distracted and irritable he becomes. Or maybe comparing her life to others on social media is leaving your teenaged daughter feeling down. Then there are the questions that are always looming: Should I limit screen time? Should I give my 11-year-old an iPhone? The Tech Solution is a to-the-point resource for parents and educators who want the best approach for raising kids in our digital world. It outlines all you need to know about the short-term and potential long-term consequences of tech use. Dr. Kang simplifies cutting edge neuroscience to reveal a new understanding around how we metabolize experiences with technology that will lay the foundation for lasting success. On top of that, she offers practical advice for tackling specific concerns in the classroom or at home, whether it's possible tech addiction, anxiety, cyberbullying, or loneliness. With her 6-week 6-step plan for rebalancing your family's tech diet, Dr. Kang will help your child build healthy habits and make smart choices that will maximize the benefits of tech and minimize its risks. Use The Tech Solution to help your child avoid the pitfalls of today's digital world and to offer them guidance that will boost their brains and bodies, create meaningful connections, explore creative pursuits, and foster a sense of contribution and empowerment for many years to come.**

Popular Representations of America in Non-American Media

IGI Global **Much of what the world knows about the United States of America is constructed and spread through global media. One can hardly find a country where news events involving the U.S.A. do not attract media attention, controversy, or at least invoke some level of critical thought. Popular Representations of America in Non-American Media provides emerging research exploring how non-American media covers and represents the U.S.A. through a critical review that demonstrates how foreign media representations of the country have varied according to periods in history, political leadership, and current ideological and socio-cultural affinities. The publication also conversely examines Americans⁬ perceptions of foreign media representations of their country. Featuring coverage on a broad range of topics such as neocolonialism, political science, and popular culture, this book is ideally designed for students, scholars, media specialists, policymakers, international relation experts, politicians, and other professionals seeking current research on different perspectives on non-American media⁬s representation of the U.S.A. and Americans.**

NEW WORLD, NEW HORIZON (Screenplay Novel)

<u>Notion Press</u> **The fiction portrays the dynamic Indian corporate lifestyle and middle-class families' traditional beliefs and perceptions. RADHA: I need your help. KISHORE: Radha, my help is always there for you. You don't have to ask for it. RADHA: Can you make yourself free this evening? I would like you to accompany me to a special place. KISHORE (inquisitively): Where? RADHA: To Holy & Sacred Home KISHORE: What work do you have there? RADHA: Kishore, you will see a new Radha from today onwards. Radha is going to see a new world and a new horizon. KISHORE (surprisingly): Not able to get you. You sound poetic. Talk straight, dear.**

Teaching, Learning, Literacy in Our High-Risk High-Tech World

A Framework for Becoming Human

<u>Teachers College Press</u> **In a world beset by conflicting ideologies, Gee urges us to look to a broader set of ideas from seemingly unrelated disciplines for a viable vision of education. He proposes a framework of principles that can be used to reconceptualize education, specifically literacy, to better prepare students to be collaborators toward peace and sustainability.**

The Global Political Economy of Communication

Hegemony, Telecommunication and the Information Economy

<u>Springer</u> **This collection examines the theoretical, analytical and political implications of global developments involving telecommunications and related technologies. The book's contributors - from fields such as economics, political science and communication studies - relate research on the political economy of communication with the work of international political economy scholars. The book stimulates cross-disciplinary debates among readers in these and other areas in order to, first, critically evaluate recent global developments involving communications and, second, to encourage the development of a more holistic and inclusive approach to these and related issues.**

HCI Challenges and Privacy Preservation in Big Data Security

IGI Global **Privacy protection within large databases can be a challenge. By examining the current problems and challenges this domain is facing, more efficient strategies can be established to safeguard personal information against invasive pressures. HCI Challenges and Privacy Preservation in Big Data Security is an informative scholarly publication that discusses how human-computer interaction impacts privacy and security in almost all sectors of modern life. Featuring relevant topics such as large scale security data, threat detection, big data encryption, and identity management, this reference source is ideal for academicians, researchers, advanced-level students, and engineers that are interested in staying current on the advancements and drawbacks of human-computer interaction within the world of big data.**

Big Data Support of Urban Planning and Management

The Experience in China

Springer **In the era of big data, this book explores the new challenges of urban-rural planning and management from a practical perspective based on a multidisciplinary project. Researchers as contributors to this book have accomplished their projects by using big data and relevant data mining technologies for investigating the possibilities of big data, such as that obtained through cell phones, social network systems and smart cards instead of conventional survey data for urban planning support. This book showcases active researchers who share their experiences and ideas on human mobility, accessibility and recognition of places, connectivity of transportation and urban structure in order to provide effective analytic and forecasting tools for smart city planning and design solutions in China.**

Psychological, Social, and Cultural Aspects of Internet Addiction

IGI Global **Addiction is a powerful and destructive condition impacting large portions of the population around the world. While typically associated with substances, such as drugs and alcohol, technology and internet addiction have become a concern in recent years as technology use has**

become ubiquitous. Psychological, Social, and Cultural Aspects of Internet Addiction is a critical scholarly resource that sheds light on the relationship between psycho-social variables and internet addiction. Featuring coverage on a broad range of topics such as human-computer interaction, academic performance, and online behavior, this book is geared towards psychologists, counselors, graduate-level students, and researchers studying psychology and technology use.

Factor X

Policy, Strategies and Instruments for a Sustainable Resource Use

Springer Science & Business Media **The editors of Factor X explore and analyze this trajectory, predicting scarcities of non-renewable materials such as metals, limited availability of ecological capacities and shortages arising from geographic concentrations of materials. They argue that what is needed is a radical change in the ways we use nature's resources to produce goods and services and generate well-being. The goal of saving our ecosystem demands a prompt and decisive reduction of man-induced material flows. Before 2050, they assert, we must achieve a significant decrease in consumption of resources, in the line with the idea of a factor 10 reduction target. EU-wide and country specific targets must be set, and enforced using strict, accurate measurement of consumption of materials. Their arguments are drawn from empirical evidence and observations, as well as theoretical considerations based on economic modeling and on natural science.**

American Dream, American Nightmare

Fiction since 1960

University of Illinois Press **In this celebration of contemporary American fiction, Kathryn Hume explores how estrangement from America has shaped the fiction of a literary generation, which she calls the Generation of the Lost Dream. In breaking down the divisions among standard categories of race, religion, ethnicity, and gender, Hume identifies shared core concerns, values, and techniques among seemingly disparate and unconnected writers including T. Coraghessan Boyle, Ralph Ellison, Russell Banks, Gloria Naylor, Tim O'Brien, Maxine Hong Kingston, Walker Percy, N. Scott Momaday, John Updike, Toni Morrison, William Kennedy, Julia**

Alvarez, Thomas Pynchon, Leslie Marmon Silko, and Don DeLillo. Hume explores fictional treatments of the slippage in the immigrant experience between America's promise and its reality. She exposes the political link between contemporary stories of lost innocence and liberalism's inadequacies. She also invites us to look at the literary challenge to scientific materialism in various searches for a spiritual dimension in life. The expansive future promised by the American Dream has been replaced, Hume finds, by a sense of tarnished morality and a melancholy loss of faith in America's exceptionalism. American Dream, American Nightmare examines the differing critiques of America embedded in nearly a hundred novels and points to the source for recovery that appeals to many of the authors.

FinTech Women Walk the Talk

Moving the Needle for Workplace Gender Equality in Financial Services and Beyond

<u>Springer Nature</u> **The FinTech community is steeped in change and has the potential to pave the way for equal opportunities in the workplace, considering the positive actions that have taken place. There is so much more that can be done but what has been achieved so far needs to be replicated. This book showcases the successes in the industry alongside that which could act as a barrier or escalator. Being the first of its kind, FinTech Women Walk the Talk draws upon the author's podcasts that feature the insights of more than 150 FinTech experts; more than 100 of which are women. It is a call to action for diversity in the workplace, showcasing the successes and presenting how to overcome the challenges. By demystifying FinTech, and highlighting its potential to drive change, this book explores how to achieve gender parity in the workplace. The FinTech industry is used as acase study and hence of interest to practitioners in finance, technology, FinTech and beyond.**

The Eagle and the Dragon

Globalization and European Dreams of Conquest in China and America in the Sixteenth Century

John Wiley & Sons **In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.**

Multilingual Computing & Technology

The Marketing of Technology Intensive Products and Services

Driving Innovations for Non-Marketers

<u>John Wiley & Sons</u> **This book provides the basic models and methods for the profitable use and marketing of advanced technology. It provides a guide to developing and administering marketing plans, conducting market research, searching for and managing partners, tapping capital for innovation, scoping adequate pricing methods, managing intellectual property rights, and selling and distributing products and services. It also shows how to develop formatted business plans for investors. This title is uniquely focused on the critical technology/market interface, and provides an executive introduction to marketing these products and services.**

Global Innovation Index 2011

Accelerating Growth and Development

<u>WIPO</u> **The Global Innovation Index ranks the innovation performance of 125 countries and economies around the world, based on 80 indicators. This edition explores the impact of innovation-oriented policies on economic growth and development. High-income and developing countries alike are seeking innovation-driven growth through different strategies. Some countries are successfully improving their innovation capacity, while others still struggle.**

Economy and State

<u>John Wiley & Sons</u> **Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy.**

From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .
