## **IMMIGRATION PRACTICE - 15TH EDITION**

---

**Juris Publishing, Inc.** *Immigration Practice* guides readers through all aspects of immigration law in one volume, complete with over 3,000 footnote citations to the wide range of statutes, regulations, court and administrative cases, policy memos, operations instructions, agency interpretive letters, and internet sites that a lawyer needs for complete understanding of a particular problem. No other source merges the practical with commentary and analysis so helpfully. The book explains in understandable language and meaningful and dependable detail the substantive issues and the practical procedures a lawyer needs to handle a specific immigration matter, complete with checklists of forms, supporting evidence, and other strategies needed for application/petition packages. The book has unparalleled coherence, integration and consistency. \* Liberally cross references to other sections in the book where related topics are discussed (because so many topics are interrelated). \* Line-by-line instructions on how to complete the most commonly used forms to avoid embarrassing mistakes. \* Lists the contents of packages to file with government agencies: forms and fees, detailed support letters, and other supporting evidence. \* Explanations of potentially applicable visa options organized according to the attributes of the foreign national (and the employer), rather than classifications in alphabetical order, so that practitioners can make sense of options in light of the client in the office. \* Comparisons and charts of attributes and procedures of such topics as nonimmigrant visa classifications, procedures to permanent residence, and standards of "extreme" hardship. \* Citations throughout the book, and collection in the extensive CD-ROM Appendix, to primary source materials and the most useful Internet site URLs with explanation of the increasingly helpful free databases and tools available through each one. • Internet Links: Constantly increased and updated links to government web sites containing current contact information, forms, primary law sources of all types, case status information, and processing and substantive guides--all referenced by pinpoint citations in the text. See Chapter 5 explaining sources of law, Appendix C and D-1 showing web links, and the CD-ROM in the back cover providing one-click access! Readers are strongly encouraged to review and use the CD-ROM and to consider saving Appendix C, D-1, and E-1 into their hard drives or saving the links to their internet browser "favorites" or "bookmarks" for ready reference all the time. • Upgraded removal-related treatment: significant improvements to Chapters 10, 11, and 16 by attorney who has worked for immigration courts several years. • Supreme Court decisions: effects of limited marijuana distribution offense as aggravated felony (§ 10-6(b)(1)(vi)); tax offenses as aggravated felonies (§ 10-6(b)(1)(vi)); rejection of "comparable grounds rule" for 212(c) eligibility (§ 10-6(b)(1)(vii)); modified categorical approach applies only to divisible statutes (§ 10-6(b)(2)(i)); non-retroactivity of Padilla decision (§ 10-6(b)(2)(vi)); rejection of the "statutory counterpart rule" for § 212(c) waivers (§ 11-5(f)); invalidation of the Defense of Marriage Act § 14-7(a)(2)(i); non-imputation to child of

*firm resettlement of parents (§ 16-4(c)). • Lower federal court decisions: concerning such issues as: recognizing a beneficiary to have standing to challenge a USCIS petition denial (§ 2-2(a)(1)(I)); reviewability of good moral character determinations and other (§ 2-2(a)(1)(I)); court order of USCIS to speed up FOIA certain responses (§ 4-2); CBP FOIA process (§ 4-2); DOL case disclosure data (§ 4-5); need to exhaust remedies under DHS TRIP to challenge inclusion on watch list (§ 10-3); CIMT crime determinations (§ 10-6(b)(1)(iii)); effect of a single firearm sale (§ 10-6(b)(1)(vi)); 212(h) waiver eligibility in regard to post-entry adjustment but not as to stand alone request (§ 10-6(b)(3)); interference with police helicopter using laser light as CIMT (§ 10-6(c)); whether post-entry adjustment is an admission for § 212(h) waivers (§ 10-6(b)(3)); whether there is an involuntariness or duress exception to the terrorism support bar (§ 10-6(c)); enforcement of I-864 financial support obligations (§ 10-6(d)(2)); mandatory bond hearing after six months of detention (§ 11-3(f)); ICE detainers found to lack authority (§ 11-3(g)); representation in immigration court at government expense for aliens with serious mental disabilities (§ 11-4(g)); stop-time and petty offense exceptions relating to cancellation of removal (§ 11-5(f)); revelation of the BIA's erroneous reliance for decades on nonexistent provisions of Mexican Constitution affecting legitimation issues (§ 12-3(d)(3)); rejection of BIA's rule against nunc pro tunc adoption orders (§ 14-7(b)(3)); invalidation of FSBPT efforts to restrict applicants from certain countries to sit for physical therapy exams (§ 15-2(c)(2)); use of impeachment evidence only to terminate asylum (16-2(b)); asylum claims of German homeschoolers, and mixed motive cases (§ 16-4(a)(3)); social group asylum claims (§ 16-4(a)(3)); expansive implications of inconsistencies in testimony (§ 16-4(a)(4)); "particularly serious crimes" barring asylum claims (§ 16-4(c)); special asylum procedures for unaccompanied children (§ 16-4(c)); adjustment eligibility of alien who entered without inspection and then obtained TPS (§ 16-7(a)(6)); eligibility of after-acquired spouse under Cuban Adjustment Act (§ 16-7(e)); preempted state law provisions aimed at aliens, employers, and landlords (§ 19-4(l)(3)). • BIA decisions on such issues as: what constitutes a drug trafficking crime (§ 10-6(b)(1)(iv)); implications of child pornography conviction (§ 10-6(b)(1)(vi)); possession of ammunition by a convicted felon (§ 10-6(b)(1)(vi)); availability of "stand-alone" § 212(h) waiver without adjustment application (§ 10-6(b)(3)); service of NTA on a minor (§ 11-3(b)); service of NTA and other safeguards for aliens with serious mental conditions (§ 11-4(g)); approval of administrative closure of removal cases (§ 11-5(d)); termination of asylum, then removal and relief in proceedings (§16-2(b)); relocation issues in asylum claims (§ 16-4(a)(3)). • Regulations, government policy memorandums, other decisions, and government web site enhancements concerning such matters as: differing government renderings of single name for certain persons (§ 1-6(a)(3)); USCIS refusal to accept stamped signatures for attorneys on G-28 (§1-6(a)(3)); USCIS use of bar codes for forms, and danger of making marginal notes on forms (§1-6(a)(3)); USCIS use of customer-completed "e-Request Service" inquiries (§ 2-2(a)(1)(F)); movement of all visa processing to the electronic CEAC system (§ 2-3(a)); replacement of the CBP Inspectors Field Manual with the Officer's Reference Tool and the beginning effort to replace the USCIS Adjudicators Field Manual with the online Policy Manual (§ 5-4); replacement of the paper I-94 card for air and sea entries with an "automated" online I-94 record (§ 7-4(b) and other*

The volume brings together research from three different fields: economics, sociology and political science; and thus offers diverse views of the various facets of migration and the associated policy issues that are debated today. The book is divided into two parts. The first - *Economic Change* - lays out and discusses different kinds of migration, representative of many population flows observed in recent times, and provides a general overview of research methodologies. The second part - *Social Change* - analyses how societies are shaped by immigration. It focuses aspects such as migration policies, family re-unification, the integration of migrants and social cohesion.

**STRENGTHENING FORENSIC SCIENCE IN THE UNITED STATES**

---

**A PATH FORWARD**

---

---

**National Academies Press** *Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.*

## **REPORT OF THE MID STAFFORDSHIRE NHS FOUNDATION TRUST PUBLIC INQUIRY**

---

### **EXECUTIVE SUMMARY**

---

**The Stationery Office** *This public inquiry report into serious failings in healthcare that took place at the Mid Staffordshire NHS Foundation Trust builds on the first independent report published in February 2010 (ISBN 9780102964394). It further examines the suffering of patients caused by failures by the Trust: there was a failure to listen to its patients and staff or ensure correction of deficiencies. There was also a failure to tackle the insidious negative culture involving poor standards and a disengagement from managerial and leadership responsibilities. These failures are in part a consequence of allowing a focus on reaching national access targets, achieving financial balance and seeking foundation trust status at the cost of delivering acceptable care standards. Further, the checks and balances that operate within the NHS system should have prevented the serious systemic failure that developed at Mid Staffs. The system failed in its primary duty to protect patients and maintain confidence in the healthcare system. This report identifies numerous warning signs that could and should have alerted the system to problems developing at the Trust. It also sets out 290 recommendations grouped around: (i) putting the patient first; (ii) developing a set of fundamental standards, easily understood and accepted by patients; (iii) providing professionally endorsed and evidence-based means of compliance of standards that are understood and adopted by staff; (iv) ensuring openness, transparency and candour throughout system; (v) policing of these standards by the healthcare regulator; (vi) making all those who provide care for patients, properly accountable; (vii) enhancing recruitment, education, training and support of all key contributors to the provision of healthcare; (viii) developing and sharing ever improving means of measuring and understanding the performance of individual professionals, teams, units and provider organisations for the patients, the public, and other stakeholders.*

### **CORPORATIONS AND INTERNATIONAL LAWMAKING**

---

**BRILL** *The classical model of international lawmaking posits governments as exclusively authoritative actors. However, commercially-oriented entities have long been protagonists within the prevailing international legal order, concluding contracts and resolving disputes with governments. Is the international legal personality of corporations undergoing further qualitative transformations?*

*Corporations influence the State practice constitutive of custom and create, refashion or challenge normative rules. The corporate willingness to fill legal lacunae where governments do not exercise their full regulatory responsibility is also observable through resort to alternative legal mechanisms. Corporations moreover contribute directly to treaty negotiations and occupy crucial roles during subsequent implementation. Indeed, an analysis of the access conditions and participatory modalities for non-State actors could support a right to participate under common international procedural law. Their substantive contributions are also evident when corporations participate in enforcing international law against governments through national courts, diplomatic protection (including the WTO) and arbitration (including NAFTA). However, the practice of intergovernmental organizations reveals several challenges including managing corporate interaction with developing country governments and other non-State actors. Acknowledging corporate contributions also has important implications for national regulatory autonomy, the ability of governments to mediate contested policy issues, the democratic legitimacy of the contemporary lawmaking process and an understanding of consent as the underlying basis for international law.*

### **SUMMARY**

---

**World Health Organization** *In a brief, clear and easily accessible way, this summary illustrates the dynamics of the obesity epidemic and its impact on public health throughout the WHO European Region, particularly in eastern countries. It describes how factors that increase the risk of obesity are shaped in different settings, such as the family, school, community and workplace. It makes both ethical and economic arguments for accelerating action against obesity, and analyses effective programs and policies in different government sectors, such as education, health, agriculture and trade, urban planning and transport. The summary also describes how to design policies and programs to prevent obesity and how to monitor progress, and calls for specific action by stakeholders: not only government sectors but also the private sector - including food manufacturers, advertisers and traders - and professional consumers' and international and intergovernmental organizations such as the European Union.*

## THE MUELLER REPORT

### THE FINAL REPORT OF THE SPECIAL COUNSEL ON RUSSIAN INTERFERENCE IN THE 2016 PRESIDENTIAL ELECTION

---

**Courier Dover Publications** *This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.*

## **PRIORITISING ADVERSITY AND TRAUMA-INFORMED CARE FOR CHILDREN AND YOUNG PEOPLE IN ENGLAND.**

---

**YoungMinds / Health Education England / Human-Experience** / *An edited collection of papers published by YoungMinds and funded by Health Education England. With 1 in 3 adult mental health conditions related directly to adverse childhood experiences, it is vital that we understand the impact that adversity and trauma can have on the mental health and wellbeing of young people, and how we can strengthen resilience and support recovery. Section 1: Understanding adversity, trauma and resilience includes evidence and analysis of the impact that adverse childhood experiences and trauma have on children and young people's mental health and wider outcomes across the lifecourse. Section 2: Addressing childhood adversity and trauma includes insights from the NHS in England, organisations and clinicians working with children and young people who have experienced forms of adversity and trauma. Section 3: Emerging good practice includes insight, case studies and working examples of adversity and trauma-informed service models being developed across England. ## **SYSTEMS APPROACH FOR IMPLEMENTATION AND OPERATION**

---

**IWA Publishing** *It is estimated that literally billions of residents in urban and peri-urban areas of Africa, Asia, and Latin America are*

served by onsite sanitation systems (e.g. various types of latrines and septic tanks). Until recently, the management of faecal sludge from these onsite systems has been grossly neglected, partially as a result of them being considered temporary solutions until sewer-based systems could be implemented. However, the perception of onsite or decentralized sanitation technologies for urban areas is gradually changing, and is increasingly being considered as long-term, sustainable options in urban areas, especially in low- and middle-income countries that lack sewer infrastructures. This is the first book dedicated to faecal sludge management. It compiles the current state of knowledge of the rapidly evolving field of faecal sludge management, and presents an integrated approach that includes technology, management, and planning based on Sandecs 20 years of experience in the field. *Faecal Sludge Management: Systems Approach for Implementation and Operation* addresses the organization of the entire faecal sludge management service chain, from the collection and transport of sludge, and the current state of knowledge of treatment options, to the final end use or disposal of treated sludge. The book also presents important factors to consider when evaluating and upscaling new treatment technology options. The book is designed for undergraduate and graduate students, and engineers and practitioners in the field who have some basic knowledge of environmental and/or wastewater engineering.

## **PRINCIPLES OF MANAGEMENT**

---

*Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.*
