Your classroom is your home and neighborhood. Your curriculum is the humble flow of your daily lives together. "Teach Your Preschooler to Learn, A Parent's Guide: Preparing Your Toddler for School" explains how busy parents can respond to their child's natural curiosity and readiness to learn. You can prepare your child for school easily through casual discussion, manipulative toys, music, decorations, movies, books, and short trips while doing normal daily errands or while taking a walk together. These teaching opportunities are used to expose your child to concepts, and to invite your child to learn more about a subject now and later. This book presents some essential physical, social, and cognitive skills that schools recommend for their incoming kindergarteners. Parents are very, very busy.
