Lectures on the Nature of Church

Wipf and Stock Publishers *This book discusses the question that the author regards as central in the present ecumenical debate: the nature of the Church itself. He thus describes the plan of the book: The First chapter sketches the present context of the discussion and touches on the Biblical meaning of the word Church. The next three chapters examine the three answers to the central question, which may be roughly categorized as Protestant, Catholic, Pentecostal. The last two chapters argue that the Church is only to be understood in a perspective that is at once eschatological and missionary, the perspective of the ends of the earth. Bishop Newbigin's evaluations are provocative, scholarly, and filled with profound passion and insight. He is concerned with the searching questions men today are asking: Is there in truth a family of God on earth to which I can belong, a place where all men can be truly at home? If so, where is it to be found and how is it that those who claim to be spokesmen of that holy fellowship are themselves at war with one another as to the fundamentals of its nature? I think there is no more urgent theological task than to try to give plain and simple answers. This he does, drawing deeply upon biblical sources.*

Modern Orthodox Thinkers

From the Philokalia to the Present

InterVarsity Press Andrew Louth, one of the most respected authorities on Orthodoxy, introduces us to twenty key thinkers from the last two centuries. He begins with the *Philokalia*, the influential Orthodox collection published in 1782 which marked so many subsequent writers. The colorful characters, poets and thinkers who populate this book range from Romania, Serbia, Greece, England, France and also include exiles from Communist Russia. Louth offers historical and biographical sketches that help us understand the thought and impact of these men and women. Only some of them belong to the ranks of professional theologians. Many were neither priests nor bishops, but influential laymen. The book concludes with an illuminating chapter on Metropolitan Kallistos and the theological vision of the *Philokalia*.

Computational Thinking and Coding for Every Student

The Teacher's Getting-Started Guide

Corwin Press *Empower tomorrow's tech innovators Our students are avid users and consumers of technology. Isn't it time that they see themselves as the next technological innovators, too? Computational Thinking and Coding for Every Student is the beginner's guide for K-12 educators who want to learn to integrate the basics of computer science into their curriculum. Readers will find Strategies and activities for teaching computational thinking and coding inside and outside of school, at any grade level, across disciplines Instruction-ready lessons for every grade A discussion guide and companion website with videos, activities, and other resources*

Philosophy, or truth? Remarks on the first five Lectures by the dean of Westminster [A.P. Stanley] on the Jewish Church; with other plain words on questions of the day, regarding faith, the Bible, and the Church

The Pacific Unitarian

Alan Turing: Life and Legacy of a Great Thinker

Springer Science & Business Media *Written by a distinguished cast of contributors, Alan Turing: Life and Legacy of a Great Thinker is the definitive collection of essays in commemoration of the 90th birthday of Alan Turing. This fascinating text covers the rich facets of his life, thoughts, and legacy, but also sheds some light on the future of computing science with a chapter contributed by visionary Ray Kurzweil, winner of the 1999 National Medal of Technology. Further, important contributions come from the philosopher Daniel Dennett, the Turing biographer Andrew Hodges, and from the distinguished logician Martin Davis, who provides a first critical essay on an emerging and controversial field termed "hypercomputation".*

Lectures on Anthropology

Cambridge University Press *Kant was one of the inventors of anthropology, and his lectures on anthropology were the most popular and among the most frequently given of his lecture courses. This volume contains the first translation of selections from student transcriptions of the lectures between 1772 and 1789, prior to the published version, Anthropology from a Pragmatic Point of View (1798), which Kant edited himself at the end of his teaching career. The two most extensive texts, Anthropology Friedländer (1772) and Anthropology Mrongovius (1786), are presented here in their entirety, along with selections from all the other lecture transcriptions published in the Academy edition, together with sizeable portions of the Menschenkunde (1781-2), first published in 1831. These lectures show that Kant had a coherent and well-developed empirical theory of human nature bearing on many other aspects of his philosophy, including cognition, moral psychology, politics and philosophy of history.*

To Set One's Heart

Belief and Teaching in the Church

Westminster John Knox Press *This book uses belief information as an organizing center for the church's teaching ministry. It offers five detailed models of teaching expressed in terms of how each contributes to the development of faith: information-processing, group interaction, indirect communication, personal development, and action/reflection. Each model includes concrete examples of how the method might be used in a church's educational program to further belief development. To Set*

One's Heart provides both theory and practice, combining the insights of theology, education, and socialization. The result: an in depth examination of religious belief, teaching, and intentionality.

Barth's Earlier Theology

Scripture, Confession and Church

A&C Black *In this new book, Webster continues the work that he initiated in Barth's Moral Theology. He addresses the important topics of biblical exegesis and historical theology in Barth's early writing, and develops his own line of interpretation of Barth's theology in general. Webster suggests that the traditional accounts of Barth's development are inadequate: they tend to emphasize his cultural and philosophical context, to focus on the same limited selection of his writings and to misjudge his theological intentions, regarding him as a purely transcendental thinker or as a postmodernist. In this book Webster provides detailed interpretations of early texts that have received little attention, such as Barth's work on 1 Corinthians, on the Reformed Confessions, and on modern Protestant theology. Webster draws out the significance of Barth's early biblical exegesis and historical theology, and shows how his work in both fields was conceived from the beginning as important preparation for his future dogmatic work.*

Joseph Priestley, Radical Thinker

A Catalogue to Accompany the Exhibit at the Chemical Heritage Foundation Commemorating the 200th Anniversary of the Death of Joseph Priestley : 23 August 2004

to 29 July 2005

Chemical Heritage Foundation *Joseph Priestly, Radical Thinker* offers a unique look into the achievements of this scientific giant, whose work helped provide the foundation for chemistry research. The book is the catalog that accompanies an exhibit of historical images and artifacts that commemorated the 200th anniversary of the death of Priestly and includes essays by historian Robert Anderson and Marjorie Gapp, curator of art and images at Chemical Heritage Foundation. Gapp and Mary Ellen Bowden, with Lisa Rosner, also examine the historical significance of the many objects and artifacts found in this fascinating collection.

Dictionary of Modern American Philosophers

A&C Black *The Dictionary of Modern American Philosophers* includes both academic and non-academic philosophers, and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science, and several other fields, before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. While all the major post-Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers, including hundreds of presently obscure thinkers. In many cases, the *Dictionary of Modern American Philosophers* offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought.

The Publishers Weekly

New Critical Legal Thinking

Law and the Political

Taylor & Francis *New Critical Legal Thinking* articulates the emergence of a stream of critical legal theory which is directly concerned with the relation between law and the political. The early critical legal studies claim that all law is politics is displaced with a different and more nuanced theoretical arsenal. Combining grand theory with a concern for grounded political interventions, the various contributors to this book draw on political theorists and continental philosophers in order to engage with current legal problematics, such as the recent global economic crisis, the Arab spring

and the emergence of biopolitics. The contributions instantiate the claim that a new and radical political legal scholarship has come into being: one which critically interrogates and intervenes in the contemporary relationship between law and power.

Christ and Revelatory Community in Bonhoeffer's Reception of Hegel

Mohr Siebeck *Back cover: How is God revealed through the life of a human community? Dietrich Bonhoeffer's theological ethics begins from the claim to 'Christ existing as community', which David Robinson presents as one of several critical and politically astute variations on G.W.F. Hegel's philosophy of religion.*

The Living Church

The People's Press

Bonhoeffer's Reception of Luther

Oxford University Press *In Dietrich Bonhoeffer's writings, Martin Luther is ubiquitous. Too often, however, Bonhoeffer's Lutheranism has been set aside with much less argumentative work than is appropriate in light of his sustained engagement with Luther. As a result, Luther remains a largely untouched hermeneutic key in Bonhoeffer interpretation. In Bonhoeffer's Reception of Luther, Michael P. DeJonge presents "Bonhoeffer's Lutheran theology of justification focused on the interpersonal presence of Christ in word, sacrament, and church. The bridge between this theology and Bonhoeffer's ethical-political reflections is his two-kingdoms thinking. Arguing that the widespread failure to connect Bonhoeffer with the Lutheran two-kingdoms tradition has presented a serious obstacle in interpretation, DeJonge shows how this tradition informs Bonhoeffer's reflections on war and peace, as well as his understanding of resistance to political authority. In all of this, DeJonge argues that an appreciation of Luther's ubiquity in Bonhoeffer's corpus sheds light on his thinking, lends it coherence, and makes sense of otherwise difficult interpretive problems. What might otherwise appear as disparate, even contradictory moments or themes in Bonhoeffer's theology can often be read in terms of a consistent commitment to a basic Lutheran theological framework deployed according to dramatically changing circumstances."--Jacket flap.*
