**NATIONAL SAFETY TRACTOR AND MACHINERY OPERATION PROGRAM STUDENT MANUAL**

The need for current and better quality training materials was cited by both certification program instructors and coordinators. In recognition of these shortcomings, the U. S. Department of Agriculture (USDA) funded a major project with Penn State University, The Ohio State University, and the National Safety Council to develop a National Safe Tractor and Machinery Operation Program (NSTMOP). The result is the NSTMOP Student Manual. This manual, including the task sheets, is the primary curriculum resource developed and designed to be used in a variety of instructional settings. The task sheets are divided into 6 sections: introduction; safety basics; agricultural hazards; the tractor; connecting and using implements with the tractor; and material handling (skid steers, ATV, and utility vehicles). There are a total of 77 task sheets, 48 are identified as core topics. Also included are a skills and driving test layout map and evaluation forms.
