Dilip Kumar

The Substance and the Shadow

[Hay House, Inc](#) An authentic, heartfelt and compelling narrative - straight from the horse's mouth - that reveals for the first time numerous unknown aspects of the life and times of one of the greatest legends of all time who stands out as a symbol of secular India. Dilip Kumar (born as Yousuf Khan), who began as a diffident novice in Hindi cinema in the early 1940s, went on to attain the pinnacle of stardom within a short time. He came up with spellbinding performances in one hit film after another - in his almost six-decade-long career - on the basis of his innovative capability, determination, hard work and never-say-die attitude. In this unique volume, Dilip Kumar traces his journey right from his birth to the present. In the process, he candidly recounts his interactions and relationships with a wide variety of people not only from his family and the film fraternity but also from other walks of life, including politicians. While seeking to set the record straight, as he feels that a lot of what has been written about him so far is 'full of distortions and misinformation', he narrates, in graphic detail, how he got married to Saira Banu, which reads like a fairy tale! Dilip Kumar relates, matter-of-factly, the event that changed his life: his meeting with Devika Rani, the boss of Bombay Talkies, when she offered him an acting job. His first film was *Jwar Bhata* (1944). He details how he had to learn everything from scratch and how he had to develop his own distinct histrionics and style, which would set him apart from his contemporaries. After that, he soon soared to great heights with movies such as *Jugnu*, *Shaheed*, *Mela*, *Andaz*, *Deedar*, *Daag* and *Devdas*. In these movies he played the tragedian with such intensity that his psyche was adversely affected. He consulted a British psychiatrist, who advised him to switch over to comedy. The result was spectacular performances in laugh riots such as *Azaad* and *Kohinoor*, apart from a scintillating portrayal as a gritty tonga driver in *Naya Daur*. After a five-year break he started his 'second innings' with *Kranti* (1981), after which he appeared in a series of hits such as *Vidhaata*, *Shakti*, *Mashaal*, *Karma*, *Saudagar* and *Qila*.

Feminism without Borders

Decolonizing Theory, Practicing Solidarity

[Duke University Press](#) Bringing together classic and new writings of the trailblazing feminist theorist Chandra Talpade Mohanty, *Feminism without Borders* addresses some of the most pressing and complex issues facing contemporary feminism. Forging vital links between daily life and collective action and between theory and pedagogy, Mohanty has been at the vanguard of Third World and international feminist thought and activism for nearly two decades. This collection highlights the concerns running throughout her pioneering work: the politics of difference and solidarity, decolonizing and democratizing feminist practice, the crossing of borders, and the relation of feminist knowledge and scholarship to organizing and social movements. Mohanty offers here a sustained critique of globalization and urges a reorientation of transnational feminist practice toward anticapitalist struggles. *Feminism without Borders* opens with Mohanty's influential critique of western feminism ("Under Western Eyes") and closes with a reconsideration of that piece based on her latest thinking regarding the ways that gender matters in the racial, class, and national formations of globalization. In between these essays, Mohanty meditates on the lives of women workers at different ends of the global assembly line (in India, the United Kingdom, and the United States); feminist writing on experience, identity, and community; dominant conceptions of multiculturalism and citizenship; and the corporatization of the North American academy. She considers the evolution of interdisciplinary programs like Women's Studies and Race and Ethnic Studies; pedagogies of accommodation and dissent; and transnational women's movements for grassroots ecological solutions and consumer, health, and reproductive rights. Mohanty's probing and provocative analyses of key concepts in feminist thought—"home," "sisterhood," "experience," "community"—lead the way toward a feminism without borders, a feminism fully engaged with the realities of a transnational world.

Beating the Street

[Simon and Schuster](#) Legendary money manager Peter Lynch explains his own strategies for investing and offers advice for how to pick stocks and mutual funds to assemble a successful investment portfolio. Develop a Winning Investment Strategy—with Expert Advice from "The Nation's #1 Money Manager." Peter Lynch's "invest in what you know" strategy has made him a household name with investors both big and small. An important key to investing, Lynch says, is to remember that stocks are not lottery tickets. There's a company behind every stock and a reason companies—and their stocks—perform the way they do. In this book, Peter Lynch shows you how you can become an expert in a company and how you can build a profitable investment portfolio, based on your own experience and insights and on straightforward do-it-yourself research. In *Beating the Street*, Lynch for the first time explains how to devise a mutual fund strategy, shows his step-by-step strategies for picking stock, and describes how the individual investor can improve his or her investment performance to rival that of the experts. There's no reason the individual investor can't match wits with the experts, and this book will show you how.

Beth Chatto's Green Tapestry Revisited

A Guide to a Sustainably Planted Garden

First published in 1989, *Beth Chatto's Green Tapestry* described in words and photographs how Beth Chatto created her now world-famous gardens, and the thinking that lay behind them. *Beth Chatto's Green Tapestry Revisited* brings the story up to date. Given the current issues about climate change, Beth's ethos of choosing those plants that are best suited to the prevailing conditions could not be more appropriate. Her original text has been revised and updated by David Ward, Gardens and Nursery Director at Beth Chatto's Plants and Gardens, and Asa Gregers-Warg, the head gardener, both of whom worked with Beth during her lifetime and continue to work at the gardens to this day. This new edition highlights the changes - all in line with sustainable planting - that have been made in the 30 years since *The Green Tapestry* was first published, including the subsequent addition of the Woodland Garden, the major transformation of the Entrance Garden into the much-acclaimed drought-resistant Gravel Garden, the creation of the Scree Garden and, most recently, the substantially redesigned Reservoir Garden. A feature of the original book - the planting plans for sample beds in key areas of the gardens - have also been updated in this edition as have the entries in the practical Plant Directory to some of Beth's favourite perennials. The foreword is by Julia Boulton, Managing Director of Beth Chatto's Plants and Gardens.

Ecolinguistics Reader

Language, Ecology and Environment

[A&C Black](#) **Thirty years ago a new linguistic paradigm was created when Einar Haugen combined language with ecology. For Haugen, 'the ecology of language' meant the study of the interrelations between languages in the human mind and in the multilingual community. Since then a special branch of linguistics, named Ecolinguistics, has developed in which the connection between language and ecology has been established in a variety of ways and using a multitude of methods and approaches. In addition to the original ecolinguistic topics of language interrelation, language endangerment and language pressure, Ecolinguistics Reader also gives due consideration to the themes of biological and linguistic diversity as well as the ecocritical aspect.**

Practical Ethics

[Cambridge University Press](#) **For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.**
