Something's Wrong When Life Gives You Lyme--What's Killing Me Could Be Killing You Too [Wipf and Stock Publishers](#) I closed my eyes. This couldn't be happening. A seizure—in front of my fourth graders at school! I could scarcely hear my husband giving the nurse in the ER my latest list of symptoms—fatigue, memory loss, balance issues, staggering, falling, brain fog, irritability, and now . . . seizures! I tried to wipe the sweat off my forehead. My hand couldn't find my face. I was soaked in urine and needed to vomit. I wanted this all to be over. But it wasn't. It was just the beginning. For the next few months, I would be evaluated by experts and whispered about by friends. Hallucinations haunted me day and night. I was scared and worried on days I wasn't catatonic. I was complacent and even silly at other times. The “lady with early onset of dementia” became my calling card. I was expected to die. I wanted to die. The journey I took claimed many victims. My family and friends were immersed in my fear and frailty. The decision to put me in a nursing home was the trending talk. But how can you treat what you don't know you have when all you do know is that something's wrong? **Something's Very Wrong Sports Parents Drive Me Nuts!** [Tom Gomes](#) This humorous collection of 25 short stories provides a satirical view into the world of children sports and the overzealous parent living their lives vicariously through the eyes of their children. **When Something's Wrong How to Navigate the World of Health Care** [Dog Ear Publishing](#) When Christina Caskey's health took a dramatic and sudden turn for the worse in 2003, she found herself in a medical nightmare: afflicted with a debilitating illness that no nearby doctor could diagnose. or unknown diagnosis Learn travel tips for out-of-town doctor visits Make the best of your hospital stays Be proactive about your medical care The book provides tables and forms to help you summarize your health problems; develop questions for effective doctor's appointments; keep track of your symptoms, labs, and medications; and record your medical provider and insurance company's contact information. If you see a doctor regularly or are trying to find the right doctor, this book will help you get more out of your medical care than you ever dreamed possible. Christina Caskey lives in Flagstaff, Arizona, with her husband, Robert. She is the mother of four grown children. Christina was shocked by how little is known medically about conditions like hers, and now dedicates her time and energy to helping others who battle mysterious illnesses. To this end, all proceeds from the sale of this book will be used for research and treatment in the field of Infection Associated Chronic Fatigue Syndrome. Wrong with Me [Random House](#) Here's something I only learned later. When the radiologist was handed the scan, he asked, 'Righto, where's the body?' Shame I missed that. I could have done with a laugh. When Nigel Smith got rushed to hospital with a brain lesion so big that the radiologist assumed he'd died, he was understandably hacked off. After all, he was one of those blokes who had it all: a loving family, a wife his friends all fancied and a thriving TV comedy career. I Think There's Something Wrong With Me is his amazing, hilarious account of his fight for survival. Battling a brutal illness, impossible bureaucracy and nurses that could only serve as fantasies to the writers of Doctor Who, Nigel Smith has produced a brilliant black comedy for our time. It is a book for everyone who's ever thought, 'there must be more to life than this'. Because sometime things have to go seriously wrong to make us realize just how much is right.
