im Schatten ihres berühmten Bruders standen. Dieser Band vereint erstmals die bewegenden Einzelbiografien der Geschwister des letzten deutschen Kaisers und bietet zugleich ein spannendes Zeit-panorama. Sigismund und Waldemar starben bereits im Kindesalter. Die Lebenswege des "Marineprinzen" Heinrich von Preußen, der Herzogin Charlotte von Sachsen-Meiningen, Prinzessin Victoria zu Schaumburg-Lippe bzw. Zoubkoff, Königin Sophie von Griechenland und Landgräfin Margarethe von Hessen, die beinahe Königin von Finnland geworden wäre, blieben hingegen zeitlebens eng mit jenem des Kaisers verbunden. Ihre sehr unterschiedlichen Schicksale ermöglichen somit auch einen facettenreichen Blick auf diesen umstrittenen Monarchen. **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles Education in the Soviet Union Policies and Institutions Since Stalin Routledge** *This book provides a comprehensive survey of the successes and failures of education and training in the Khrushchev and Brezhnev years. The author gives an objective assessment of the accessibility of the main types of institution, of the contents of courses and of Soviet attempts to marry the functioning of their education system to their perceived economic and social needs. In addition the book has many useful and original features: For ease of analysis it summarises in diagram form complex statistics which are not usually brought together for so long a time period. It provides a systematic account of educational legislation; Matthews' comparison of series of official decrees will allow subtle shifts in government policy to be accurately charted. Particular attention is also paid to a number of issues that are often neglected: the employment problems of school and college graduates; the role and professional status of teachers; political control and militarisation in schools; the close detail of higher education curricula; and the rate of student failure. Of special value is the chapter on those educational institutions which are often omitted from Western studies and which are hardly recognised as such in most official Soviet sources.* **Young Wilhelm The Kaiser's Early Life, 1859-1888 Cambridge University Press** *This rich and compelling volume, translated from the German edition, describes the life of Kaiser Wilhelm II from his birth in 1859 to his accession in 1888. Its aim is to allow the characters on the stage to speak for themselves, in letters and diaries of quite extraordinary clarity and persuasive power. The central theme is the bitter conflict between the handicapped Prince and his liberal parents, especially his mother, Queen Victoria's eldest child "Vicky."* **Fighting Terror after Napoleon How Europe Became Secure after 1815 Cambridge University Press** *Europe was forged out of the ashes of the Napoleonic wars by means of a collective fight against revolutionary terror. The Allied Council created a culture of in- and exclusion, of people that were persecuted and those who were protected, using secret police, black lists, border controls and fortifications, and financed by European capital holders.* **Women and the State in Modern Indonesia Cambridge University Press** *In the first study of the kind, Susan Blackburn examines how Indonesian women have engaged with the state since they began to organise a century ago. Voices from the women's movement resound in these pages, posing demands such as education for girls and reform of marriage laws. The state, for its part, is shown attempting to control women. The book investigates the outcomes of these mutual claims and the power of the state and the women's movement in improving women's lives.*

It also questions the effects on women of recent changes to the state, such as Indonesia's transition to democracy and the election of its first female president. The wider context is important. On some issues, like reproductive health, international institutions have been influential and as the largest Islamic society in the world, Indonesia offers special insights into the role of religion in shaping relations between women and the state. **Love between Enemies Cambridge University Press** An innovative study of empathy, sex, and love between prisoners of war and German women during World War II. **World War One Cambridge University Press** This revised and updated interpretation of World War I highlights the revolutionary nature and legacy of the conflict of 1914-1919. It examines the political, economic, social and cultural history of the war at home as well as the war's origins, ending and subsequent legacy. **Piece Romantique Conductor Score and Parts Instrumentation: Flute, Violoncello and Piano Romania during World War I Observations of an American Journalist Histria Books** Romania during World War I faced a unique situation. Although ruled by a German king, it had strong cultural and historical ties to France and the West. The young nation also had territorial ambitions that it hoped to satisfy. As a result, the country maintained a cautious neutrality in the early years of the war before ultimately deciding to enter the conflict on the side of the Allies in 1916. One of those who witnessed this situation was the American journalist John Reed. Internationally known for his famous account of the Bolshevik Revolution, *Ten Days that Shook the World*, John Reed's writings about Romania are, until now, virtually unknown. As a journalist of great talent and a witness to the situation in Romania in 1915, on the eve of its entry into the war, John Reed's accounts are insightful reading for anyone interested in this period of Romanian history or in the author himself. Edited, with an introduction by Dr. A.K. Brackob, this volume brings together these writings and reveals John Reed's unique perspective on Romania. **The Ultimate Milkshakes and Floats: Decadent Recipes for Delicious Frosty Treats Independently Published** When it is a cold and tasty treat you want without a lot of fuss and preparation, then give one of these quick and easy recipes a try.
